

PARING TO SEND TARIFF BILL TO CONFERENCE OF HOUSE AND SENATE

Washington, July 6.—With the senate rapidly approaching final consideration for the tariff bill, attention is being turned to the selection of conferees on the part of the senate, whose duty it will be to attempt to bring the two bodies into an agreement on the measure.

It is expected that Aldrich will pick, besides himself, as representative of the Republicans in the senate, Hale, of Maine; Pennington, of Pennsylvania; Burrows, of Michigan, and Smoot, of Utah.

Democratic senators who will participate in the conference probably be Daniel, of Virginia; Money, of Mississippi; and Clegg, of Texas.

House Speaker Cannon, according to reports, will select Payne, of New York; Dalmat, of Pennsylvania; of Illinois; McCall, of Massachusetts, and either Needham, of California, or Calderhead, of Kansas, as Republican conferees, and Champ Clark, of Missouri; Underwood, of Alabama; and Griggs, of Georgia, as Democratic members.

There was no general celebration in Eugene on the occasion of the Fourth of July, but there were no fatalities. A few accidents were reported. Little Gabriel Jones' hand was badly torn by a giant cracker, and other minor accidents occurred, but there were no fatalities.

JUDGE P. H. D'ARCY

Orator of the day at Eugene's Fourth of July celebration. Judge D'Arcy is a prominent attorney of Salem, former mayor of that city, and his services as a public speaker are very much in demand over the Northwest.

CONGRESSMAN CUSHMAN, HUMORIST OF LOWER HOUSE, DIED OF PNEUMONIA TODAY

New York, July 6.—Francis W. Cushman, representative in congress from Tacoma, Wash., died at 5 o'clock this morning at the Roosevelt hospital, of pneumonia. At his bedside, besides the doctors and nurses, were United States Senator Samuel H. Piles, of Washington, and Andrew S. Burleigh, of this city, a life-long friend.

Congressman Cushman underwent an operation a short time ago and pneumonia resulted.

Washington, July 6.—While Representative Cushman possessed the unchallenged title of the "house humorist," he was universally regarded as far from that. His high ability was recognized by Speaker Cannon in the committee appointments, particularly in his selection to fill the vacancy on the ways and means committee at the time when a great tariff bill was to be reported to the house for consideration. One striking thing about Cushman was that he never displayed his gift of humor to the house for its amusement, but always with the object of impressing his views more forcibly upon that body.

In contrast with the humorists who have passed into history his fame did not rest on a single speech. His maiden speech in the house attracted so much attention that thereafter he gained a hearing as soon as he arose. His style of expression and

his homely appearance had quite as much to do with the effect as his humorous remarks. He will probably be long remembered by reason of the effectiveness of his humor in the debates on the Payne tariff bill in the house. His speech in defense of retaining the duty on lumber secured several victories for the tariff schedule.

Arrange for Funeral

Washington, July 6.—Sergeant-at-arms Casson, of the house, and the Washington delegation in congress, have telegraphed Mrs. Cushman for an expression of her wishes as to sending the body either to Cushman's home in Tacoma or his birthplace, near Brighton, Iowa, and as to arranging for a congressional escort to the burial place. The house will not be in session until Thursday, when final action will be taken.

PRESIDENT AT OLD FORTRESS OF TICONDEROGA

Takes Part in Exercises Attending Restoration of Fortress

Ticonderoga, N. Y., July 6.—This ancient town, the site of the famous fort erected by the French, captured by the British and later taken by Ethan Allen and his "Green Mountain Boys," was the scene today of one of the most impressive ceremonies yet held in commemorating the tercentenary of the discovery of Lake Champlain.

President Taft arrived on the scene early and was given a noisy and eulogistic ovation by the tens of thousands of people who had gathered for the great day. Special trains from all over the country brought the members of the New York legislature and Governor Proctor, of Vermont, and his staff, to Ticonderoga.

Besides the president, the speakers of the day included Vice President Sherman, Senator Elihu Root, Speaker Joseph G. Cannon, Ambassadors Bryce and Jusserand, Governor Hughes, of New York, and Governor Proctor, of Vermont. Hamilton Mabie delivered the historical address and Percy Mackaye read the poem.

The pageantry of the day was on an elaborate scale, and included many novel features, among them a presentation of "Hawatha" by Indians, and a water pageant. Popular interest centered about old Fort Ticonderoga, which has now been partially restored. The work of restoration will probably occupy ten years and cost \$1,500,000, and is in charge of the U. S. Army.

The restoration has progressed so far as to enable President Taft and other distinguished guests to be entertained today in the building in which Ethan Allen made his famous demand for the surrender of the fort. On the ground floor of this building was the old mess room, and the searchers have found there many pieces of pottery, relics of the British occupation of the fort. A complete set of dishes used at table by the British officers and soldiers has been found. Upon the bottom of one big punch bowl was found the inscription: "Success to General Amherst," and this piece has been identified as one given the British commander by friends in New York before he came north. Other relics have been brought light and include forks, knives, bar shot, canister shot, cannon balls, pieces of guns and mortar shells.

JULY :: CLEAN :: UP :: SALE ::

Unparalleled Reduction

Prices Which Will Bring Results

We are going to unload every yard of

Summer Goods

PEARSONS GIVES MORE MONEY TO WHITMAN COLLEGE

Chicago, July 6.—A gift of \$50,000 to Whitman College, of Walla Walla, Wash., by D. K. Pearsons, the Chicago philanthropist and friend of small colleges, was announced today. Pearsons' benefactions to the Washington institution now aggregate \$300,000.

TO DETERMINE HARRY THAW'S SANITY

New York, July 6.—Harry Kendall Thaw, the famous madman of Matewan, may soon have an opportunity to attempt to prove himself sane.

JAMES B. ANGELL

The recently retired president of the University of Michigan has had a long career in educational and diplomatic fields. Dr. Angell, who celebrated his eightieth birthday in January of this year, was minister to China in 1890-1 and minister to Turkey in 1897. He held the presidency of the University of Michigan since 1871.

Application for a trial to determine his mental condition will be passed upon today, and counsel for the assassin of Stanford White are confident that the result will be favorable to their client.

Pending this trial the court has directed that Thaw be given certain privileges by the Matewan authorities which have heretofore been denied him.

Thaw will be permitted to sit in the court room at night while he is getting his case ready for presentation to the jury, instead of retiring at 5 o'clock with the other inmates. Lawyer Morschauer complained also that when he went there to consult with Thaw they were obliged to sit in a room with a lot of "jabbering idiots," and Justice Mills suggested to the asylum authorities that they give Thaw a room for consultation purposes away from the other inmates.

MISSIONARY SCHOONER IS REPORTED LOST

The J. F. Adler When Last Seen Was Battling With a Heavy Storm

San Francisco, July 6.—The schooner Monterey, Captain Anderson, arriving today from Kuskowin, Alaska, reports the possible loss of the missionary schooner J. F. Adler and a score of lives. The Adler sailed from Seattle June 3 with a crew of eight and twelve or thirteen passengers. When the Monterey arrived at Bethel, to which place the Adler had been sighted, struggling with a heavy storm, but had disappeared. Captain Anderson and another boat went out to sea to search for the missing schooner, but found no trace of her.

It is possible the Adler took refuge in Bristol Bay.

Report Not Believed
Seattle, July 6.—The schooner P. J. Adler sailed from Seattle June 9 with nine passengers and a crew of eight men under Captain Edward A. Born, of this city. Mrs. Born, when told of the report of the Adler's peril, said she felt no alarm. Shipping men do not think that the Adler is lost.

NEBRASKA HAS DAYLIGHT SALOONS

Lincoln, Neb., July 6.—A law which is designed to send convivial Nebraskans home to their families at night went into effect today. The statute confines the sale of liquor between the hours of 7 a. m. and 8 p. m., and provides a severe penalty for saloon keepers who keep their places open at other hours. It is expected that the law will go far toward preventing drunkenness and undue indulgence in liquors.

It was while arguing in favor of the passage of this bill by the state legislature that former Governor Poynter was stricken dead last April.

ONE MINISTER HAS MARRIED 3000

Bristol, Tenn., July 6.—The Rev. Albert H. Burroughs, the marrying man of this Tennessee Gipsy Green, has just brought his matrimonial record up to the 3000 mark. Parson Burroughs' specialty is tying knots for eloping couples from Virginia and West Virginia, who flee to this border city to take advantage of the more liberal laws governing matrimonial alliances. So great is the rush of business at times that the parson has married as many as five couples at one ceremony.

NINE MEN DIE IN GAS EXPLOSION

Trinidad, Colo., July 6.—Nine men were killed today by the explosion of one in the mine of the Cedar Coal and Coke Company at T. C. Gerville, near here. All but one of the dead are foreigners.

HENRY S. PRITCHETT

The president of the Carnegie Foundation for the Advancement of Teaching, who has aroused the ire of several university heads by his criticisms of the entrance requirements in their institutions, is himself an educator of note. He was formerly president of the Massachusetts Institute of Technology.

tified as one given the British commander by friends in New York before he came north. Other relics have been brought light and include forks, knives, bar shot, canister shot, cannon balls, pieces of guns and mortar shells.

SAWMILL AND PLANING MILL BURN

Kanier, Or., July 5.—Fire which broke out in the sawmill plant of Faris Brothers at 11:30 this morning, destroyed the saw and planing mill plant, together with the plant of the Eureka Planing Mill Company, whose plant was situated within a few feet of the sawmill.

The fire spread rapidly and all was one solid blaze within two minutes from the first flash. The loss to Faris brothers is approximately \$12,000. The loss of the Eureka Planing Mill is something like \$10,000, with no insurance.

Albany now has five blocks of paved streets.

Rainier is to have a large face brick and clay plant.
