

**STOMACH LIVER LUNGS**

Each of the chief organs of the body is a link in the chain of life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may soap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

**The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.**

Given away—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Drop a cake of Ivory Soap in bath tub or washbowl—do you have to grope for it?

No!

Up, up it comes to the surface of the water. That is one of Ivory's advantages over other bath and toilet soaps—it floats.

Other advantages are: It is pure; it lathers freely; it contains no "free" alkali; it leaves the skin as smooth as satin.

**SOUTHERN PACIFIC**  
 BUYS LAND FOR LINE ALONG COAST

Marshfield, Or., July 13.—The Southern Pacific is closing all options taken for rights of way between Coos Bay and Eureka three years ago and is paying cash for the land.

For several days it has been known that the deals of this character were being transacted and it is now definitely ascertained that the Harriman system expects to purchase the entire right of way for the coast line extending from San Francisco to Coos Bay connecting with Drain on the Shasta route. This is the route which Harriman placed to eliminate the big haul up the Siskiyou mountains and which will give him practically a water level road from San Francisco to Portland.

The purchase of this right of way indicates only one thing, the early commencement of active construction work on the route proposed.

**RAILROAD TIES ARE WANTED AT PANAMA**

Portland, July 12.—Oregon sawmill men have a chance to bid on furnishing the government with two cargoes of ties, to be delivered at La Boca, the Pacific end of the Panama canal. The proposals will be opened at Washington city on July 23, and are to state when the ties can be delivered at the destination. There are 150,000 ties called for, and as each tie is to be eight feet long and six inches square, the board measure will figure up to 5,400,000 feet, equal to two ordinary cargoes in a sea-going vessel. The papers concerning the proposals are in the hands of the Chamber of Commerce, where those interested can consult them.
