## GIRL SUICIDES BECAUSE OF A TRIVIAL OFFENSE

### Death of Fifteen-Year-Old Ruth Annette Seales Caused by Strychnine

## THOUGHT OFFENSE WAS A DISGRACE

### Came Home Sunday Evening in Good Health, Committed Self-Destruction After Retiring

The death of Ruth Annette Seales, the fifteen-year-old daughter of Mrs. Jessie Seales, at Lorane early Monday morning, as mentioned in yesterday's Guard, was caused by strychnine taken with suicidal intent, is the conclusion reached by Coroner W. T. Gordon and Dr. J. W. Harris, county health officer, who made an investigation of the case today.

The girl died at her home about 1 o'clock Monday morning, after having suffered from convulsions and spasms four hours. At that time the cause of death was not known, but Coroner Gordon, who was called in the capacity of undertaker, thought the symptoms were those of poisoning, and communicated his opinion to Dr. Harris, with the result that the two drove to Lorane this morning and made an investigation, proving beyond a doubt that it was a case of suicide by poisoning.

The girl had been away from home Sunday afternoon and returned about 7 o'clock. She retired a few minutes before nine, and was followed by her mother five or ten minutes later, both sleeping in the same bed. The girl at once went into spasms and before a physician could arrive she died.

Dr. Harris and Coroner Gordon found today that the girl had several times threatened suicide because of a trivial offense committed some time ago and for which she was severely reprimanded by her mother. It seems that the matter weighed heavily upon her mind and it is thought that she committed the rash act because she thought the little offense was a disgrace to her and her family.

A bottle containing strychnine, which had been used as squirrel poison, was found in the room where the girl slept, and while it was nearly full when Mrs. Seales last noticed it, it was almost empty at the time of the girl's death.

The Seales girl lived in Eugene from the middle of February until the middle of June this year, attending one of the public schools. It was while here that the offense which weighed so heavily upon her mind was committed. It was nothing disgraceful, and one which a great many children would commit, but the girl was no doubt of a very sensitive nature and could not stand to be reprimanded for her trivial wrongdoing.
