THE GREAT ADVENTURER

Over the mountains and over the waves,
Under the fountains and under the graves,
Under floods that are deepest, which Neptune obey,
Over rocks that are steepest—Love will find out the way.

You may esteem him a child for his might,
Or you may deem him a coward for his flight,
But if she whom love doth honor he concealed from the day,
Set a thousand guards upon her—Love will find out the way.
—Selected.

COMPLETE FIRST SECTION THIS YEAR

If a determined effort is made the railroad subscription list should reach a point by August first where the placing of the engineers in the field for the permanent survey will be justified. If this is done it will be possible to begin the work of grading by the middle of the month, and by the first of the year we may have a railroad in actual operation across the valley to the timber belt in the Lake Creek district.

Eugene could well afford to pay \$100,000 or \$150,000 for a railroad no longer than the first contemplated section, but it will not stop there. If the enterprise of Lane county's people will take the initiative to this extent, capital, ever seeking profitable and permanent investment, will be forthcoming to complete it to the sea.

Let every property owner and business man who desires to see Eugene grow and prosper do his full share toward the carrying out of the greatest project ever inaugurated by the people of any Oregon community.

There's such a thing as being too resourceful, and the Jerseyman who advertised the death of his wife, to get another woman to marry him, was convinced of it when he was jailed for giving false information to newspapers.

"To jail, or to the ballot box" is to be the slogan of the new suffragette fight to be led by Mrs. O. H. P. Belmont. The average woman will probably continue to prefer going to the milliner and the dressmaker to either.

Senator Brown says it costs \$2 less to make a ton of print paper in the United States than it does in Canada; Senator Aldrich says it costs \$4 more. One of them is bound to be wrong.

President Reyes, of Columbia, got cold feet and quit his job and country. We've had some punk presidents, but never such a quitter as that.

Maybe, in so frequently flocking by himself, Senator Bailey is laying the foundation for a Bailey party in the next presidential campaign.

President Taft has at last found a man willing to become minister to China. His name is Crane and he hails from Chicago.

COUNT ZEPPELIN AND TYPE OF AIRSHIP IN WHICH HE WILL TRY TO REACH THE NORTH POLE.

All the scientific world is discussing with keen interest the proposal of Count Zeppelin to reach the north pole in an airship. Tests of the Zeppelin ship have demonstrated that it is capable of sustained flights of more than a thousand miles. The veteran scientist now intends to build a larger ship and equip it for polar exploration. His purpose is to make preliminary voyages in the arctic circle before making a final dash for the pole.

NEED OF GUIDE BOARDS AT ROAD CROSSING

Salem, Or., July 19, 1909.
To the Editor:—As I have been on my vacation and had some friends on the Siuslaw river, in Lane county, I drove over with my horse and buggy, and found to my surprise a good mountain road, much improved in the past 19 years. There is one thing much neglected, and that is guide boards. It is much more pleasant to have them at all forks and crossings of roads. If you see fit you might call the attention of your county officers to the matter through the columns of your paper.
