

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It makes Weak Women Strong. It makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. It is a pure glyceric extract of healing, native American roots.

MOVEMENT OF PEOPLE FOR NEW STATE

Southern Oregon People Think They Have Been Badly Neglected

Disgusted with being handicapped, held back and harassed by Willamette Valley people in general and Salem citizens in particular, secession from Oregon and the creation of a new state is being advocated in Southern Oregon. Declaring that the southern part of Oregon is being neglected and that the northern part of California is similarly treated, the suggestion is made that Southern Oregon and Northern California pool their interests and carve out a state of their own, and the name offered is the state of Siskiyou.

Agitation for the secession has already made its appearance in print in the territory affected, and the campaign will continue unless the people of Southern Oregon are convinced that their interests are better subserved by clinging to Oregon rather than in establishing a commonwealth. The idea of a new state is meeting with favor in the extreme southern part of the Beaver State, and the people across the line in Northern California are even now discussing the prospect.

Two Sore Spots. Two events of recent occurrence have precipitated the demand for a new state. The first came with the slaughter of the normal schools by the Legislature. The second sore spot was when a lawyer of Salem blocked the appropriation of \$100,000 for the Crater Lake road.

While Eastern Oregon suffered the loss of a normal school as well as Ashland, Eastern Oregon was well taken care of by the Legislature in other respects, so Eastern Oregon does not feel the sting so severely. Eastern Oregon was given a branch asylum and a scalp bounty law, each very valuable to the residents of that section, and there was also an appropriation for the portage road at The Dalles, for State Senator N. J. Sinitot obtained \$75,000 for this purpose. In Southern Oregon, however, nothing but bruises were received.

It is from Salem politicians, however, that Southern Oregon has been dealt the blows which have aroused the desire to be divorced from the Willamette Valley. State Senator Smith, of Marion county, a Salem politician, took the lead in wiping out the Normal schools when he proposed abolishing the four Oregon was maintaining and establishing one at Portland. Senator Jay Bowerman was in the forefront of battle against the Normals, Bowerman hailing from Eastern Oregon, but Bowerman was given liberal encouragement by Smith of Marion. Southern Oregon Senators, led by L. L. Multit, did their best to protect the Normal at Ashland, but without avail, and the fate of the Normals was keenly felt in the South.—Telegram.

MR. O. J. JOHNSON EXPLAINS OBJECT OF ASSET COMPANY

Manager of Eugene & Siuslaw Railroad Tells Why Stock Will Become Valuable After Railroad Is Built

To the citizens of Eugene and Lane County: I have been asked a number of times what will be the resources of Lane County Asset Co. when that company has turned over their R. R. franchise to the Eugene & Western R. R. Co. In brief it is this, the Asset Co. will acquire lands along the route where the location for townsites is available, for there will be seven or eight townsites along the route, and the option and buy land and dispose of it to actual settlers in 10, 20 and 40-acre tracts, and acquire water powers for manu-

facturing plants. And when the asset company have got the franchise in shape to turn over to the Eugene & Western R. R. Co. the asset company will receive in payment for said franchise stock in the R. R. Co. at such prices as may be decided upon. The railroad stock will be divided among the stockholders of the asset company according to the number of shares that each holds of the asset company's stock. This R. R. stock is so to speak, a gift, for the asset company stock now is one dollar per share, and it will be worth at the very least three dollars per share inside of two years after the road is completed. This is no charity enterprise, it is simply an investment with assurance of a good profit on stock subscribed. Why hesitate to subscribe for this stock when it will help in so many ways, and the best of all is the building of the Eugene & Western R. R. Florence. I also want to say a few words about the location of the road, as I am aware the majority of the people want the road to go via Elmira or in that vicinity, the surveys are now out looking up the most feasible route and the company will abide by their recommendation if practical, as to cost of building and outlook for revenues when the road is in operation.

Yours truly,
O. J. JOHNSON.

THIRTY THOUSAND BOOKS IN UNIVERSITY LIBRARY About 26,000 Now There—700 Came to Eugene During July

By the beginning of college the University Library will have about thirty thousand volumes. Accessions to the library at noon today were 21681. Besides these there were five or six thousand Smithsonian and government documents. During the month of July 700 books were brought to the University. In this number were excellent books of Latin and Greek, on music, on economics, and several good sets on law and of law encyclopedias. Most of the purchases were made at auctions, where the books were sold at the cheapest possible prices. Lists are kept of books wanted, and Librarian Douglas bids for them at the earliest and best opportunities. Sometimes only four or five will be obtained at one auction.
