A postcard received here yesterday from Mt. Angel, Or., reveals the fact that the citizens or commercial body of that place have stolen the fruit pictures from the Eugene Commercial Club's literature, and credited them to Mt. Angel. On the postcard were the three Eugene girls with apples, cherries and strawberries, and the name "Eugene" on the dishes was displaced by the name "Mt. Angel." Beneath is the following: "Don't you wish you lived in Mt. Angel, where they raise these?" This is a rank case of plagiarism, but it is a compliment to Booster Hartog, of the local club, who originated the idea.

GOLDEN OPPORTUNITY

You can make a clear profit of \$1500 per month or over if you lease and operate this mill. This is a sawmill property, located right in the city. Now examine these figures—take them to any good sawmill man for verification, and you will be convinced of this rare opportunity. The mill is located at the river bridge in Eugene. Logs cost \$5 to \$6 per 1000; lumber averages \$13.33 per 1000. Common grade, \$11.50; finishing grades, \$30. Cost of sawing, \$3 per 1000; cost of logs, \$5.50 per 1000; total cost logs, sawing and selling, \$7.50 per 1000; over-run log scale, 25 per cent, \$1.87; take this from \$7.50, leaving you \$5.63, the total cost of your lumber right here in the best market in the state. Now logs will saw 1-3 clear, and it is worth \$17 green and rough. \$25 to \$30 dried and planed. But take the lumber rough. The common is worth \$11.50, clear \$17, making an average of \$13.33. The profit will be \$7.50 per 1000 and on a cut of 20,000 feet per day, which the mill will do if pushed. This will show a profit of \$4000 per month of 26 working days. You can't beat this proposition in Oregon. I will give you a very reasonable lease on this property. See M. S. Barker, 333 Pearl street, Eugene, Or.
