Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R.V. Pierce, Pres., Buffalo, N.Y.

NEWS OF BUSY SPRINGFIELD

MORE RUMORS OF CAR SHOPS IN SPRINGFIELD

That the S. P. Co. is going to build extensive machine shops in Springfield is another of the many rumors going the rounds of that city. However, although few know what the plans of the company are this is considered quite possible by many railroad men. When the Natron extension is completed Springfield will be the last point before the mountain grade begins, and there will have to be at Springfield the roundhouses for extra helper engines used in the mountains. With the quantities of electric and water power available, and the necessary land that can be purchased reasonably, and several other favorable points, this plan is quite logical.

Other Railroad Notes

Two district engineers, Morton Russell, of San Francisco, and one named Beldauf, are making up crews to go to their allotted districts, one below and the other above Hazel Dell. These engineers are given certain districts, and stay there throughout the construction of the road. They are under the charge of Engineer H. P. Hoey.

A contractor's outfit, with about 75 men, went up above Hazel Dell yesterday.

The Utah Construction Company's outfit is now overdue, and is looked for at any time. With this outfit between 1000 and 2000 men will go up within the next two weeks. They will be shipped in from the larger cities. They will be paid good wages, probably $2.50 per day.

A car of furniture came in for the railroad engineers' offices in Springfield. A special engine and train will be brought here in a few days to be used to carry men and supplies between Springfield and Natron.

FALL WHEAT COMNIG IN AT FLOUR MIL

The Springfield flour mill is busy with fall wheat The farmers, however, are holding back, thinking that the demands of the railroad crews will bring the price up. A couple of days ago a man drove around to the house of S. K. Noel after the mill had closed and wished to buy some corn for his mules—he was going to work for the railroad company. He showed some alarm when he was told that the corn would be difficult to get, and wanted to know what they could eat. Mr. Noel asked where he was from.

"Missouri," he answered.

Local Notes

A train of tourists' wagons passed through Springfield yesterday morning. They said they had come from Medford and were looking for work.

"Tag day" last Saturday added over $100 to the fund for the big electric sign. Everybody was given tags, which were sold for ten cents each. Some people were literally covered with the tags before the end of the day. The girls put in some good licks. The fund is now large enough to build the sign. It is to be placed on the big hill south of town and will be large enough to be seen from the railroad.

A car of sewer pipe came in yesterday for Hall & Soleim, who are to construct the new sewer.

The postoffice at Springfield frequently—almost daily—receives letters and packages addressed to the wrong Springfield. There are just twenty-eight cities in the United States by that name. Some times the mail is properly addressed, but sent here by mistake.

Harry Cox, who attempted suicide by drinking carbolic acid Monday evening, is out of danger, although the doctors had hard work to save his life. He was able to eat breakfast with the family yesterday morning. The motive for his act is not given out.

Architect E. R. Wells has submitted plans for a 9-room residence for J. Conseth, and also for a 5-rom bungalow for W. M. Webber, both homes to be built in Springfield. Mr. Wells is a very busy man nowadays.

James Clark, the real estate man, has bought a fine 1910 model White steamer. It is claimed to be the best yet, with numerous improvements over this year's model.

NEW ONE-CENT PIECES NOW IN CIRCULATION

For one cent you can now buy the finest work ever turned out by the United States mints. The new Lincoln head pennies have reached Eugene and the possessors of this beautiful coin feel very wealthy as it looks, feels and glitters like a nice five dollar gold piece. Under the law the design of the penny cannot be changed for 25 years and by the time the new design can be changed the Indian, so long decorating the one cent coinage will probably be as big a curiosity as the new coin is today with its head of Lincoln and statement in big type that it is worth only one cent. The words "In God We Trust" are retained on the new penny piece. Over 20,000,000 have been minted in Philadelphia

There has long been talk of changing the nickel, the design of which has been running for much over 25 years, but nothing more has been done by the mint bureau except to have some new designs made in case it should be decided to make a change.

The Lincoln head pennies were designed by Victor Brenner, of New York, and has the approval of President Roosevelt, who directed many changes in coins.

Florence Property Selling Fast.

There have been upward of 200 lots sold in Florence; 28 in Aberdeen, Washington, was the sales of one day, July 28th. 19 sold in Eugene same date. At this rate they will soon be all sold. tf.

A BARGAIN.

E. T. Condon's bakery, ice cream parlor and confectionery will be open Sunday during the summer. 19

ANOTHER DONATION TO BIBLE SCHOOL

Athena, Or., Aug. 17.—P. E. Colburn, one of the best known pioneer farmers of this section, yesterday gave his farm, which consists of a half section of the famous Athena wheat land, and which is worth at least $25,000, to the Eugene Bible University at Eugene, Or. The condition of the gift is such that the divinity school shall pay to Mr. Colburn and wife as long as they live 6 per cent interest on $24,000 annually

Mr. Colburn has no immediate heirs and feels that this is the best disposition that he can make of his money. He and his wife will soon go to California to reside permanently.
