He has secured a bargain, as he purchased the lease held by O. E. Trout who recently left for Alberta. Mr. Mays will engage in general farming and stock raising. He has a lease for two years, with an option provided it is not sold.

What Shall We Have for Dessert? Try JELL-O, the dainty, appetizing, economical dessert. Can be prepared instantly—simply add boiling water and serve when cool. Flavored just right; sweetened just right; perfect in every way. A 10c package makes enough dessert for a large family. All grocers sell it. Don't accept substitutes. JELL-O complies with all pure-food laws. Seven flavors—Lemon, orange, raspberry, strawberry, chocolate, cherry, peach.

GOLDEN OPPORTUNITY
You can make a clear profit of \$1500 per month or over if you lease and operate this mill. This is a sawmill property, located right in the city. Now examine these figures—take them to any good sawmill man for verification, and you will be convinced of this rare opportunity. The mill is located at the river bridge in Eugene. Logs cost \$5 to \$6 per 1000; lumber averages \$13.33 per 1000. Common grade, \$11.50; finishing grades, \$30.
Cost of sawing, \$2 per 1000; cost of logs, \$5.50 per 1000; total cost logs, sawing and selling, \$7.50 per 1000; over-run log scale, 25 per cent, \$1.87; take this from \$7.50, leaving you \$5.63. The total cost of your lumber right here in the best market in the state. Now logs will saw 1-3 clear, and it is worth \$17 green and rough. \$25 to \$30 dried and planed. But take the lumber rough. The common is worth \$11.50, clear \$17, making an average of \$13.33. The profit will be \$7.50 per 1000 and on a cut of 20,000 feet per day, which the mill will do if pushed. This will show a profit of \$1404 per month of 36 working days. You can't beat this proposition in Oregon. I will give you a very reasonable lease on this property. See M. S. Barker, 333 Pearl street, Eugene, Or.
