**HEALTH-RAY**  
MARK  
LENSES

Poor lights are blamed for many eye annoyances due, not to poor eyes or poor lights, but to poor material from which eye glass lenses are made. The present lens will not transmit that portion of light so conducive to good sight and healthful eyes.

The new Health-Ray lenses just placed on the market will lessen the cry of "poor lights" by increase in quality of light. Health-Ray lenses will aid you to better vision and the preservation of what remains. Health-Ray lenses and the celebrated Kryptok invisible bi-focal lenses are fitted by us at very reasonable prices.

**WATT'S OPTICAL PARLORS**

**RECORD PRICE FOR MAIN STREET PROPERTY**  
Mr. Randall, from the East,  
Buys Pickett Lot at \$54  
a Front Foot

Another frontage on Main street changed hands yesterday when a man named Randall paid \$3000 for 55 feet between second and third streets, the Pickett property. The price—some \$54 a front foot—marks a new record for this vicinity. The fact that Mr. Randall, who is an eastern man, said to be from Duluth, Minn., has previously purchased the Washburne frontage across the street, besides other residence properties, shows that this city is an attractive place for investments to outsiders. Mr. Randall is now living in Eugene. He states that next spring he will place a two-story brick block on the Washburne lot. There is scarcely a day passes so that some Main street property does not change hands, at figures that have even more than doubled in a short time.

**BICYCLE LIMITS ARE ENLARGED**  
The Springfield city council met Monday evening and among other things, enlarged the bicycle limit so as to prohibit wheels on Second street between North D and South B streets. The common route of the bicyclists, as well as the pedestrians from the four bridge is on South Second, but on this street there is sidewalk only on one side, making traffic somewhat crowded, so the authorities decided that the wheels must move. They can now, ride on Mill or First street, which is just as good. This move is the result of several recent accidents and the complaints following.

**NOT ENOUGH SCHOOL SEATS**  
The crowded condition of the schools is still as bad as ever, because the two additional rooms not yet used for the lack of desks and furniture. The desks are ordered from a Eugene firm, who said that they could supply them at once. It is reported, however, that only 25 seats had been ordered, and that the remainder had not yet been ordered. It is expected that the wheels will arrive at first if they are to be of any use. It is thought that the pupils could be sent to several other rooms. This, however, had proved impractical and the school will remain crowded until the other chairs come. The enrollment today was 550 and 25 more are expected by the end of the week. This number is larger than the total enrollment of last year and is an increase of some 15 or 20 per cent over last year's number at this time.

**FLOUR MILL PUTTING IN NEW MACHINERY**  
The Springfield flour mill is installing some new machinery, a grinder and a cleaner that hulls, cleans, and slightly moistens the wheat. This last feature is said to greatly improve the flour. This mill has perhaps the oldest grinding machine in the state. It is a half a century old, and is the only piece of machinery that is left from the mill that was built in 1854, and is still in use. It is called a "hull burr," and consists of a revolving flat circular stone, with grooves that turn on top of a similar stationary stone that has grooves opposing those on top. This is the old-fashioned mill stone, whose origin dates as far back as history. The stone discs are about four feet in diameter, being very heavy and cumbersome. The flour wheat is still being delivered at the mill, which is running at its full capacity to keep up, having all its own wheat still to grind, so far having been able to get at only the "exchange" wheat.

**Short News Notes.**  
The shingle mill is running again after a shut down for want of cedar logs. There are now enough logs on hand and with those that are expected to keep the mill going all winter. The demand for the shingles is greater than the capacity of the mill. Work has begun again on the big electric sign on the hill, and the workmen expect to finish it this week. The officers are after two men who entered a Springfield store yesterday, and after asking to have a check cashed, grabbed both the check and money and ran away.

**BORN**—Oct. 12, 1909, to George Allard and wife, a son, weight 8 1/2 pounds.  
**BORN**—Oct. 10, 1909, to J. W. Barnes and wife, a son.

**SUES SHERIFF FOR SELLING HIS HOUSE**  
A. B. Kirkley, of Springfield, today began suit in the circuit court against Sheriff H. L. Bown, to recover \$500, alleged to be the value of a house which the sheriff sold at sheriff's sale during the summer.

The complaint filed today states that the building is located on lots 3 and 4, block 7, original plat of the town of Springfield; that on June 11, 1909, the defendant, assuming to act as sheriff, took possession of the building and converted the proceeds of the sale to his own use as sheriff; that the act was wrongful, unlawful and without cause or right.

The property was sold on execution, a judgment having been obtained against Kirkley by the Eugene Mill & Elevator Company for a debt alleged to have been owed the company by Kirkley, and the suit is in rem against the company.

**COMMANDER PEARY AT DREAMLAND**  
A very interesting picture now being shown at the Dreamland is Commander Peary and his family at their home at Eagle Nest. It shows the commander giving the news of his discovery to the newspaper reporters, also his son and the dog which went with Peary to the pole playing in the yard. Taken as a whole it is a very interesting bit of photography of one of the most widely advertised men of the times. Tonight only.

If you want to learn to play the mandolin, guitar or banjo go to the Warrens; studio 683 Oak. If
