The house had been left asleep with the home late and fell asleep with the lamp half turned down; near a candle. To this cause is attributed the conflagration, which was not quelled until adjoining houses on both sides had been seriously damaged. The fact that the fire neighborly hood was asleep, gave the flames a strong start and when Theodore Kinned was passing, practically every room was ablaze. The occupant was stupefied by the smoke and flames, and killed at the risk of his own life, actually passing through fire to carry him out.
