## Buy Your Piano Before the Christmas Rush

There will be no doubt in your mind concerning the superior musical quality of pianos after you have tried them.

But there are other points upon which you should satisfy yourself before you buy of any make.

One is durability—We give an absolute guarantee with every piano we sell.  
Another point is established reputation for merit. It gives the lady of the house satisfaction when her friends come in to see and try the piano to hear them say it is a Ludwig. That is a good piano. So many of my friends have Ludwig pianos and never lose their beautiful tone.

Every piano we sell has stood the test of time—read the list: Steinway, Chickering, Chase, Conover, Ludwig, Packard, Estey, Kurtzmann, Emerson, Cable, Kimball, and many others—each the recognized standard in its respective grade. Every piano is sold at plain figures at the only price that will buy it.

A liberal allowance for your old piano or organ. Easy terms if desired.
