AGED BRUTE ARRESTED FOR SERIOUS CRIME

A. J. Patison, of Junction City, Charged with Assault On a Twelve-Year-Old Girl

A. J. Patison of Junction City, is in the county jail with the serious charge of rape hanging over his head, he having been bound over to the circuit court this forenoon by Justice of the Peace Bryson. Patison, who is aged between 60 and 70 years, was arrested at Junction City by the constable there yesterday on complaint of a twelve-year-old girl residing there, charging him with criminally assaulting her. The arrest was made after Deputy District Attorney Skipworth had made an investigation of the case. Patison was brought to Eugene last night and lodged in the county jail. He was arraigned in the justice court this morning and waived examination. He was bound over to the circuit court with bonds fixed at \$1,000, which he has not yet secured and is still in jail. His case will come up for trial at the March term of court.

BROWN SPEAKS ON MAN AND MONKEY

The Christian church was full of eager listeners last night to hear Evangelist Brown's address on the subject: "Did man evolve from Monkey?" He proved to the entire satisfaction of the audience that a monkey always was and always will be a monkey, and that God created man as the book of Genesis says that he did. Mr. Brown's striking figure, intense earnestness, loving heart, and great messages, are winning the people to accept Christ as their Savior. Last night seven people were added to the church, making a total of 28 since the meetings began.

The Brown-Huston evangelist team is certainly great. Either of these men alone would hold a crowd and both together are certainly doing great things. Prof. Huston's ability to sing and make others sing is remarkable. The fact that most of the songs sung are of his own composition, makes his work doubly interesting.

Tonight the subject will be "Nine Reasons Why I am not a Campbellite." Tomorrow night, "Facing About."

Saturday night another great lecture. Brown's subject will be "China." The lecture will be a result of a long study and personal observation of that field.
