NATIONAL CRUSADE AGAINST CUSTOM OF EATING MEAT STARTED IN MANY CITIES

Denver, Jan. 21.—Something of a national character is to be given to the recently inaugurated meat boycott, according to Sam Dutton, president of the Western Hotel men's executive association. The projected cutting down of meat consumption will be considered by that body at the meeting to be held at Chicago Jan. 31, when the association will be made national.

"Unless something is done to curtail the consumption of meat," said Dutton today, "the time is coming when the poor of this country will be no better off than the peasants of Europe. When the people learn they can live just as well and feel much better and cut down household expenses by eating more vegetables, the condition of the working classes will be greatly improved."
