## THE END OF THE ROAD

Some day this heart will cease to beat; some day these worn and weary feet will tread the road no more; some day this hand will drop the pen, and never, never write again those rhymes which are a bore. And sometimes, when the stars swing low, and mystic breezes come and go, with music in their breath, I think of destiny and fate, and try to calmly contemplate this bogle man called death. Such thinking does not raise my hair; my cheerful heart declines to scare or thump against my breast; for death, when all is said and done, is but the dusk, at set of sun, the interval of rest. But lines of sorrow mark my brow, when I consider that my frau, when I have ceased to wink, will have to face a crowd of gents who're selling cheap tin monuments and headstones made of zinc. And crayon portrait sharks will come, and make the house with language hum, and ply their deadly game; they will enlarge my photograph, attach a hand-made epitaph, and put it in a frame. They'll hang that horror on the wall, and then, when neighbors come to call, they'll view my crayon head, and wipe sad tears from either eye, and lean against the chairs, and cry: "How fortunate he's dead!"

## HOW THE MORNING PAPER FIGURES

So far \$245,000 of the \$300,000 bond issue has been taken up on the power plant proposition, and according to figures previously published by the Register, the balance of \$55,000 of bonds yet to be issued will not complete the power plant.—Register.

The books of the city will show that the following amounts have been paid out of this \$300,000 bond issue:

For purchase of water plant ..... \$140,000.00  
For interest ..... 16,788.35  
Bonds yet to be issued ..... 55,000.00

Total ..... \$211,788.35

Now if the Register's statement above is true, that \$245,000 has been paid out on the power plant, it increases the grand total to \$456,788.35.

Now will the morning paper explain how it is possible to pay \$456,788.35 out of \$300,000; is it merely juggling with figures or deliberately printing a false statement?

A large delegation should go to Albany tomorrow to attend the open river convention. Water competition is far more effective than any other known method of reducing freight rates. Let the movement now inaugurated be kept up until boats are running regularly to Eugene. Congress will help the people who show a disposition to help themselves, as shown by the action taken by that body since the Siuslaw people voted \$100,000 in bonds for improvement of their harbor. The Willamette river will be made navigable just as soon as our members in congress realize that the people who send them to Washington are in earnest in the matter.

The following is from the Harney County News, edited by Frank Davy, formerly speaker of the house, and is his idea of the Oregon law known as the corrupt practices measure: "Regardless of any interpretation that may be put upon the language of the 'corrupt practices' act, by any official or politician, the News will publish such news as it sees fit for or against any measure or candidate, whether the article be signed or unsigned, editorial or news, and will take all responsibility upon its own shoulders. It will be a cold day when any law can be enforced that shall dictate to a newspaper what it shall publish or shall not, for or against any public measure or candidate."

Officials of the Portland Rose Festival have been advised that the moving picture trust will send ten operators, with five moving picture cameras, from the headquarters of the trust in Europe to Portland to take complete pictures of the coming festival parades and exercises. These films, when manufactured, will be distributed very widely and shown all over the world. It is estimated by festival officials that no less than 100,000,000 people will see the attractions of Oregon roses in this way.

Not less than three fine University clubhouses have already been contracted for, and scores of residences will be built, some of them quite costly. These building operations, in addition to the large number of business blocks already under way, will insure a great year for Eugene. We have just begun to grow.

The building of nearly six miles of street railway around College Hill will give a splendid impetus to the growth of the entire city. It is to be hoped this summer will also witness the extension of the car line out Fifth street to the Blair road, thus completing a system that will give all sections of the city needed service.

Chicago's ordinance regulating the length of hat pins is duplicated in a bill introduced in congress, and the Chicagoese are more chasty than ever. But congress would better not pass it before the annual meeting of the D. A. R. in Washington, or there'll be trouble.

Office holders of all classes are a unit in opposing either regular or spasmodic rotation in office.

Andy Carnegie says the only way to tempt him into riding in

an airship is to show him that it's tied to the ground with a strong rope. Having pulled off so many sure things, he can't bring himself to the point of taking a chance.

The scaling of Mount McKinley proves at least that Dr. Cook was not lying when he asserted that the summit was accessible. Those who disputed his claims declared that the ascent would be impossible.

Senator Beveridge is so thoroughly convinced that the Indiana campaign will be a strictly local affair that he will not ask Senator Aldrich to take the stump in the state in defense of the tariff.

The editor of the new Klamath Falls Chronicle, a very bright, newsy paper, is Grant Lincoln. A man with a name like that ought to be a hummer in any business.

If you are under obligation to a lawyer, now is the time to square up by betting him a newspaper "mention" for that supreme court vacancy.

There are useful and valuable by-products in almost all lines of manufacture, but none has yet been found in the making of a politician.

Edison has perfected a storage battery that will run a street car for 30 cents a day. What's the matter with trying it on congress?

## Thousands Have Kidney Trouble and Never Suspect It

How To Find Out.  
Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water, and ridges pain in passing it, or a desire following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go on through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.  
You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## EX-BANKER MOORE PLEADS GUILTY AND RECEIVES SENTENCE

Portland, April 13.—W. H. Moore, ex-president of the defunct Oregon Trust & Savings company today pleaded guilty to the charge of accepting a deposit after he knew the bank to be insolvent and was fined \$1,000.

Moore was acquitted by a jury several weeks ago on this charge, the verdict brought in by the jury being one of the most peculiar ever rendered. It recited that Moore had "guilty knowledge and participation in the unlawful and dishonest acts relative to the conduct of the bank, of which he was president and director," and recommended he be the recipient of a severe reprimand from the court.

NOTICE TO CONTRACTORS  
Notice is hereby given that the County Court of Lane County, Oregon, will receive sealed bids for the furnishing of all material and the construction of a wooden bridge across Kow river, about two miles east of Cottage Grove, at such place on said river as the court may designate, said bridge to be constructed according to the plans and specifications now on file with the county clerk of Lane County, Oregon.

The court will also receive sealed bids for the furnishing of and construction of a steel bridge across said river, all bids for the construction of said steel bridge to be accompanied by plans and specifications. The bids received for either the wooden or the steel structure to be accompanied by a certified check amounting to five per cent of the amount bid, as evidence of good faith of entering into the contract in accordance with the bid. All bids to be filed with the clerk of Lane county, Oregon, on or before Monday, the 9th day of May, 1910, at 2:00 p. m. The court reserves the right to reject any and all bids.  
By order of the court this 7th day of April, 1910.  
E. U. LEE,  
County Clerk.
