Hosiery Special—Black and tan Seamless Hose; all sizes; 15c values, special 7c

The Herrick Dry Air System

Does it mean anything to you to have the assurance of a sanitary equipment in your home? an expert should point out to you something in your home which was a dangerous menace to you and your family, would you investigate it? Sometimes there is danger in the most common things. Zinc is poisonous, owing to its uses, and it is a poor lining for air-tight food receptacles.

THE HERRICK WAY

How much better to have your equipment of the best, something you can rely upon, know that it is always right, that you can show with pride to your friends and neighbors, and know that it is sanitary and durable.

You have no doubt questioned the efficiency of your refrigerator, especially if it is wet inside, dripping from above, or simply a dampness evident by accumulation of white spots on the metal linings.

Never trust a refrigerator which will not keep solid perfectly dry for weeks, or as long as the refrigerator is used. Matches, saratoga chips should betray no signs of dampness. Suspend a wet paper or rag from one end of the shelves, and if it will not dry within three to five hours when the refrigerator is closed and running the circulation is poor.

THE OTHER WAY

You get more for your money in the Herrick system, as they are high-grade construction in every detail of workmanship and material. They always show their quality and make a neat piece of furniture which would look well in your parlor as far as material (solid golden oak) and finish concerned, and they are found in many homes in the dining room.

The Herrick system will stand any of the above tests with satisfactory results. The pure wool No. 1 mineral wool insulation is packed in every wall and door—you have our guarantee for it. This refrigerator economical in operation. The pans are seamless—no leaks. The casing is solid golden oak, built to last a life time. More storage space in the same size than a refrigerator of usual style. The dry air circulating reaches every square inch of the interior, keeping it absolutely dry, pure and clean. The absence of conflicting warm and cold air currents eliminates condensation.

HOTEL OSBURN

OPENED TO PUBLIC

Dining Room Filled Last Night
With Invited Guests for Luncheon

The banquet given last evening by the directors of the Osburn Hotel Company gave the business community an opportunity to view the splendid building and to acquaint themselves with something of its appointments. The office and the dining room showed to excellent advantage and is a substantial assurance to this community that our visitors may be well taken care of.

The utmost good feeling prevailed at the banquet and on every side were expressions of good will for the new enterprise.

A statement was made showing something of the conditions under which the promoters of the enterprise had struggled. From that source it was learned that it was originally planned to invest \$65,000.00 in the plant; later additions were provided for, amounting to \$20,000.00 more, but as completed, it is found that the total cost is, in round numbers, \$110,000.00.

To provide for this, a few of our citizens have subscribed about \$85,000.00; they have borrowed \$30,000.00 and secured the same by a mortgage on the building and grounds. The difference between the total cost and the amount thus provided is now a floating debt. It was intimated that our citizens would be invited to subscribe an amount equal to the floating debt. We understand that this is under consideration now by the directors of the corporation, which is known as the Osburn Hotel Company.

The hotel is under a twelve year lease to Mr. and Mrs. Osburn, and it is given out that the rental will pay a substantial net income that is to be distributed to stockholders, probably quarterly.

If the company desires to make a statement to the business community concerning the cost of the construction, the lease, and the policy of the company, with a view to soliciting subscriptions to the capital stock, the columns of this paper are open for such purposes.

At the luncheon, upon motion of M. Svarverud, Hon. S. H. Friendly acted as toastmaster, accepting the honor in a witty speech. Short but enthusiastic talks were made by Hon. R. A. Booth, Mayor Matlock, Hon. J. M. Shelley, Attorney S. D. Allen, Pres. P. L. Campbell, Hon. S. M. Yoran and D. E. Yoran. Svarverud's orchestra discoursed excellent music during the luncheon, and the affair passed off very pleasantly.

COUNCIL TAKES ACTION ON LOOP FRANCHISE

The Carline Will Be Built by the First of August

Anyone who wants a home in the city must not forget that transportation is everything for a sure increase in value. We are putting on the market the most remarkable addition for price and car line ever offered to the public of Eugene—the Storey subdivision of College Crest addition. Real city lots for one hundred dollars and up—think of it! A 60x160 foot lot, a quarter acre right in the city for \$100. Mr. Storey, one of the owners of this property, is president of the street car company, and guarantees the street car line right through the center of this property. This will be the only new extension of the street car line this year, so hurry up and secure some of these lots before they are marked up. We say this in good faith for here are city lots, splendid soil large enough for any family to raise all the vegetables they will require, and for half price. Terms \$10 down and \$10 per month. See I. H. Bingham, 14 E. 8th street.
