

### Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

### New Perfection WICK BLUE FLAME Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

### WORKS OF CHARITY AND CORRECTION DISCUSSED (Continued from page 1)

ment of an institution for the feeble-minded and where they can be managed by those who have experience with the mentally defective. This care must be exercised by the state. In exactly what form this can be done best depends upon the special conditions in each state, their methods of caring for paupers, criminals and defectives and the special means at their disposal. These cases should, however, never be treated or cared for as criminals. They are usually released, only to undergo a second imprisonment and meantime to have done much evil to society.

Infantile Mortality. Nearly 300,000 babies under one year of age die every year in the United States, according to a statement made by Dr. J. H. Mason Knox, Jr., associate professor of pediatrics in the Johns Hopkins Medical School of Baltimore, in a paper read this morning. But what was more startling than these figures, was his further statement that with proper care, probably one-half of these deaths could be prevented. Dr. Knox said in part:

"A most significant feature of the civic life of our generation is the development of the idea of neighborliness. The two fundamental elements in this relationship are real need and adequate help. No class in our community needs the ministrations of a true neighbor more than the baby."

"There are about 1,400,000 infants in the country under twelve months of age and about one-fifth of this number are expected to die within a year. Probably one-half of these infants' deaths could be avoided."

"About 200,000 babies die each year from one of three causes: prematurity, gastro-intestinal disorder, and pulmonary disease. The effort to save the baby must be made through its natural protector, its mother. Her interest can be easily aroused. She often needs instruction. She must have placed within her means a good milk when her own fails. Milk dispensaries are invaluable."

### WOMAN'S GENTLE NAT CALLS FOR GENTLE TREAT

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maidens, wives or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative, is—Syrup of Figs and Elixir of Senna. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired.

Only those who buy the genuine Syrup of Figs and Elixir of Senna can hope to get its beneficial effects, and as a guarantee of the excellence of the remedy, the full name of the company—California Fig Syrup Co.—is printed on the front of every package, and without it any preparation offered as Syrup of Figs and Elixir of Senna is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs and Elixir of Senna is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. The genuine article may be bought of all reliable druggists everywhere; one size only. Regular price 50 cents per bottle. Get a bottle today to have in the house when needed.

### PREVENTION THE BEST SAFEGUARD

If for any cause the horse or other domestic animal exhibits a lack of energy proper relish for food, or an appearance of general debility, timely action should be taken for the restoration of its health. In the natural food of our domestic animals Nature provides certain peculiar medicinal herbs, leaves, barks and roots which seem necessary for their health. Pacific Stock Food in greatly condensed form is intended to supply the essential virtues of those health-giving natural remedies and is prepared expressly for those animals deprived by man of their natural food. It is an alterative tonic which stimulates the various organs of the body, promotes the secretions, tones up the general system and restores the disordered conditions to a normal state. It stimulates the appetite, improves the digestion and assimilation of food, purifies the blood and insures a good, healthy condition. Booklet free. HOYT CHEMICAL CO. Portland, Oregon
