

# THE EUGENE DAILY GUARD

EUGENE, OREGON, MONDAY EVENING, JUNE 13, 1910

NO. 137

## BALLINGER'S ATTITUDE CONDEMNED BRIEFS FILED BY ATTORNEYS PROSECUTION TODAY

June 13.—Briefs were filed by attorneys for "defense" with the Ballinger-Pinchot committee today. The committee did not meet to assemble next Saturday to prepare for its celebration. The committee did not meet to assemble next Saturday to prepare for its celebration. The committee did not meet to assemble next Saturday to prepare for its celebration.

## GREAT GROWTH OF Y. M. C. A. ON THE COAST

Great Activity in the Work Is Noted All Over the Country  
\$1,000,000 A MONTH FOR PAST 18 MONTHS  
Eugene Association Compares Favorably With Others on the Coast

A million a month for the last eighteen months has been subscribed for buildings for the Young Men's Christian Associations of North America. A few weeks ago a campaign for a new building in Toronto, closed with \$850,000, subscribed in ten days. One of the strongest associations in the west is in Portland where a great work is being done. One has only to visit the magnificent new building there to be convinced it is the center of great activity for the upbuilding of men and boys.

The work of the association in California is soon to receive a great impetus. At present our own plant here in Eugene, is very much better than the temporary quarters in San Francisco, Oakland, Berkeley, Pasadena, and San Diego. We are very much better equipped at present than any of these despite the fact that these cities are all many times the size of Eugene. However, all of these cities are building new lodgings that will be far beyond anything a city as small as Eugene could afford, when these fine new buildings for character buildings are completed, there will be a great increase in the membership and efficiency of the work in these cities and the association will become a great factor in molding the character of California's coming men. San Francisco will move into its wonderful \$750,000 structure about Thanksgiving time. This is a more expensive building than the one in Los Angeles, which is one of the most complete association buildings in the world, and is now doing a great work with 4200 members.

The entrance of the San Francisco building is very striking and over it there is a great globe with the continents in relief. This is symbolic of the fact that the Y. M. C. A. is now the greatest brotherhood in the world with nearly a million members scattered through nearly all of the centers of the San Francisco building and extending clear through to the top does much toward making three quarters of a million dollars in the country. Oakland's present quarters are little more than a reading room but a new building costing \$200,000 is to be completed soon after January 1. It is now ready for enclosing. Berkeley's present quarters are unattractive and include a small gymnasium without any gallery. The cornerstone of their new \$100,000 building was laid a few weeks ago and they will move in in about a year. Pasadena's present building is a private residence made over with a gymnasium built on a part of the lot in a separate building. The same is true of San Diego, and in both cities the property is valuable and form a good nucleus for new buildings. Pasadena already has the money raised for a fine new building which will be started right away. Riverside has a better building than ours and it was completed a year or two ago, at a cost of about \$75,000. Redlands has had an association for 15 years, the building is extremely poor but the site very fine. The gymnasium is only half the size of our own and is very difficult to work in. Both Redlands and San Diego will try for new buildings in about a year. Fresno has a good building and is doing excellent work. The building is not nearly so good as Eugene's, however, Secretary Terrell says he would not trade our building for two of Fresno's.

## RESCUE WORKERS IN SESSION TODAY AT POUGHKEEPSIE

Poughkeepsie, N. Y., June 13.—Ministers and laymen connected with rescue missions in the slums of nearly half a hundred of the larger cities of America, and several distinguished itinerant evangelists are in Poughkeepsie today and will remain all week, taking part in the congress of the national federation of gospel missions. The delegates are preachers of the "old time religion," and every phase of the rescue work will be discussed at the convention here by speakers from all parts of the country, who have given their lives to reach non-church goers, outcasts of all classes from society, who are being converted by Rescue Missions and brought back to good morals and the church of their choice. The Rescue Missions do not make up their congregations by taking people from other churches, but rather from the outcasts and the non-church goers. The object of the national federation of gospel missions to unite in a common brotherhood all missions in the United States, to disseminate new ideas in mission work and furnish trained workers where they are needed and to supplement the endeavor of missions to save the "lost."

## MISS EMMA FISHER DIES AT ROSEBURG

Roseburg, Or., June 12.—Miss Emma Fisher, one of Roseburg's most prominent young women and a sister of Editor Charles H. Fisher of the Eugene Guard, and W. H. Fisher, of this city, died here Saturday evening at the age of 32 years, of tuberculosis. The funeral will be held in this city tomorrow afternoon.

## CONFEREES ON RAILROAD BILL MEET

Washington, June 13.—The Democratic conferees on the railroad bill were summoned to meet with the Republicans this afternoon, indicating that a complete report is imminent.

## MANY LOSE LIVES IN MONTREAL FIRE

Plant of the Montreal Herald Was Destroyed by Fire Today  
Montreal, June 13.—The Herald building was destroyed by fire. It is estimated that the loss of life will run from 29 to 35 persons, while the financial loss is placed at \$200,000. The loss of life is believed to be confined to the employees of the paper, mostly bindery girls and linotype operators, as the members of the editorial staff are all accounted for. Later reports place the number of dead at 29 and the injured at 30, several fatally.

## "FRIAR LANDS" INVESTIGATION IS DEMANDED

Washington, June 13.—As a result of information sent to the house on Saturday by the war department, disclosing the alleged fact that Frank W. Carpenter, executive secretary of the Philippine government, and E. L. Worcester had bought and leased "friar lands" in the Philippines, Martin (Dem.), Colo., today introduced a resolution demanding an investigation and charging malfeasance in office.

## UNION STOCK YARDS COMPANY CHARGED WITH REBATING

Chicago, June 13.—A bill in equity against the Union Stock Yards and Transit Company et al, charging rebating, was filed here today by United States District Attorney Sims.

## FAIR WEATHER FOR TOMORROW

Oregon — Fair tonight; Tuesday fair except showers in the northwest portion; cooler in interior portion with southerly winds. Washington — Showers in western portion tonight and Tuesday; showers in eastern portion tonight or Tuesday. Warmer in eastern portion, with southerly winds. Idaho — Fair in southern portion tonight and Tuesday; showers in northern portion. Warmer tonight.

## THE WHEAT MARKETS

Chicago, June 13.—July, 91 1-2; September, 89 5-8; December, 88 3-4.

## COAT OF PORTER CHARLTON FOUND IN LAKE

Garment Fished from Bottom of Lake Near Where Trunk Was Found Friday  
Como, Italy, June 13.—Part of a man's coat, which is declared by some of the neighbors to have belonged to Porter Charlton, were found today in Lake Como, from the waters of which the body of his murdered bride, Mary Scott Castle Charlton, were recovered last Friday. The garment was fished from the bottom of the lake, and was recovered near the spot where the trunk containing the body of the murdered woman was found. The discovery tends to strengthen the theory held by many that a double murder was committed, and renewed efforts are being made to find the body of Charlton.

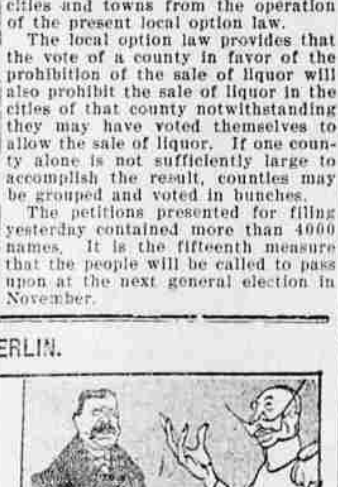

## DISCOVERY CONFIRMS DOUBLE MURDER THEORY

Neighbors Say Coat Belonged to Husband of Murdered Woman

## 50 MEASURES NOW UP TO THE PEOPLE

Proposed Amendment Provides for Cities Regulating the Sale of Liquor

## IN BERLIN.

## MAY GET 32 FLOATS FOR FOURTH OF JULY

The plans of the Fourth of July committee are going forward in good shape and there is every reason to expect that this celebration will be the most enjoyable ever held here. The carnival spirit is to reign supreme on the streets of the city. Daylight fireworks, the most unique ever seen here, will be given. Daylight fireworks are the joy of the young and wonder of the elders. It is one of the strangest sights in the world to see the elephants, tigers, camels, clowns, dragons and hobnobbing chasing each other through the air. And mad races always ensue between the fleet-footed youngsters to see who shall capture the wonderful affairs. Manager Freeman, who is assisting the committee on arrangements, is endeavoring to make arrangements to have the Eugene float brought down from Portland, as well as one or two of the other best floats for the Eugene historical and civic pageant on the Fourth.

## MANY COMPLIMENTS FOR EUGENE FLOAT

Many complimentary things have been said of the Eugene float in the festival parades in Portland. It is only just to state that it was the persistency of the promotion department of the Commercial club, which at last succeeded in convincing the business men that they should not allow the opportunity to pass without taking advantage of it. The promotion department subscribed \$100 to the float, the merchants' association \$100, and Chairman Allen Eaton, of the joint committee, raised the balance. Cottage Grove displayed its hobby, the county division, in a float. It is believed that the exploitation, however, of the attractions of the city of Eugene, attracted more favorable comment than the dragging in of a political question in the matter in which the Nesmith advocates did.

## AVIATOR HAMILTON FLIES FROM NEW YORK CITY TO PHILADELPHIA

Philadelphia, June 13.—Under a leaden sky Charles K. Hamilton, the young aviator who has achieved world-wide fame in less than a year, today made the most daring flight of his career, traveling in his biplane from Governor's Island, New York, to a point on the outskirts of Philadelphia, a distance of 86 miles, in 113 minutes, unofficial time. At South Elizabeth, N. J., a train was waiting for Hamilton. From that point town after town along the line reported the fact that the train passed "with Hamilton flying directly over it." Occasionally, with the probable desire to give variety to his journey, he diverged a little. At Princeton, for instance, he went up near the old college town so that the students and graduates gathered there for commencement week might have a chance to see him. The landing place here was ideal, and five hundred policemen kept the crowd back from the field.

All the mills in the neighborhood shut down and in that section of the city a holiday crowd began gathering at 6 a. m., and when the report came that the air man had crossed into Pennsylvania a cheer went up. A few minutes later Hamilton came into full view, and a tremendous cheering greeted him. He circled the field several times and then swooped down, landing easily. The excitement was intense, and the aviator was lustily cheered. Governor Stuart welcomed Hamilton, who said it was the best trip he ever made. It was with difficulty that the police restrained the crowd from crushing into the machine. Hamilton carried letters from Governor Hughes and Mayor Gaynor to Governor Stuart and Mayor Reyburn, and special messages from the New York Times to the Philadelphia Ledger, the flight having been undertaken under the auspices of the Times and Ledger. Hamilton decided to attempt to make a return flight to New York today, and started on the return trip at 11:30 a. m.

## RIFLE TEAM OF COMPANY A CHOSEN

Final Trout Held on the Company Range Yesterday

The final trout for places on Company A's rifle team was held yesterday at the range south of town, a large number of men taking part. Captain Wm. G. White selected the team, which consists of four men and one alternate, those making the highest average scores, shooting three times over the ranges—200 yards, slow; 200 yards, rapid; and 600 yards, slow. Number of possible points, 400. Those making the team and their scores are: Sergeant Raymond L. Perdew, 348; Corporal Harry Bower, 340; Corporal Walter W. McCormack, 339; Private Cecil E. Statzer, 327; Corporal Dean Gilkey, 320.

## Big Carnival at the Y. M. C. A. Friday and Saturday

A big event in the lives of the boys of Eugene was pulled off at the Y. M. C. A. last week when the use of the building was practically turned over to the boys' department for their circus and carnival. For two successive nights the department rang with laughter of the crowds mingled with the "spielers," seductive calls. The dancing skeleton vied with the wild man from Skujoo for public recognition and approval, the real live alligators scooped at the fake "red bats from China," the latter being a couple of ordinary brick bats, while the "for women only" was besieged by an eager, jostling, ever-persistent jam of females whose proverbial curiosity was rewarded by a sight of the common garden variety of "rat", indigent to hair dressing apartments and ladies' boudoirs. Perhaps the most popular side show was the Georgia Minstrels, where negro melodies, dances, and time-honored jokes pleased the constantly recruited audience. The big swimming pool in the meantime, was filled with a crowd of amphibians, who performed for the amusement of the visitors while the mecca of the gymnasium finally caught the greater part of the on-lookers. Here real, legitimate gymnasium work was interspersed and lightened by the antics of the funny clowns and laughable stunts of all descriptions. The mat work of two clever, local amateurs, alias Hackenschmitt and Gotch, pleased the sports and the exhibition bout between Jeff and Johnson came to a satisfactory finish when the darker gentleman took the count. On Saturday night the juniors put on a fine athletic meet, in which some remarkably good records were made. For boys from 12 to 15 years of age, a high jump of 4 feet, 9 inches, is nothing to blush for, nor is a high kick of 6 feet 11 inches. Likewise a standing broad jump of 8 feet, 1 inch, all of which were among the records made Saturday night. Well, the boys had a splendid time, the extent of \$25.00, and a crowd of the boys' camp fund was fattened to nearly 500 in the two nights visited the splendid home of the Young Men's Christian Association and learned something of the scope of its work and its abiding place in the community. "Hurrah for the carnival and Circus," say the boys, and "Long live the Y. M. C. A.," say the fathers and mothers. So say we all.

## CLAY'S MOTION IS REJECTED

Washington, June 13.—By a vote of 13 to 1 the senate today rejected Clay's motion to strike out the provision of the sundry civil bill to appropriate \$250,000 to defray expenses of the tariff board.
