third fare have been secured from all
parts of the state, and the Southern
Pacific will send a private car for the

the convention, the election of dele-
gates to the general convention, and
of diocesan officers will take place on

This is the first time in many years
that the diocesan convention has been
held outside of Portland, and much
interest is being taken in it. Dele-
gates and their friends sending their
names to Rev. P. K. Hammond, Eu-
gene, will be provided with hospital-
ity.

**ATHENA PIONEER DIES
AT AGE OF 92 YEARS**

Athena, Or., June 11.—At the
great age of 92 years, 1 month and
28 days, Mrs. Nancy Gerking, mother
of Mrs. David Taylor of his city, passed
away Thursday morning after a
long siege of illness.

She was born in Montgomery coun-
ty, Kentucky, April 11, 1818, and
crossed the plains in 1862 and set-
tled in Willamette valley, where she
lived until 1872 when, in company
with her husband, she moved to Uma-
tilla, where she has since resided.
Her husband, J. R. Gerking, who
died in 1882, was the first settler of
Gerking Flat, now one of the most
prosperous farming communities in
this county.

Grandma Gerking was the mother
of 13 children, six of whom are liv-
ing. They are: B. F. Gerking, of You-
talia; J. N. B. Gerking, of Laddlaw;
M. P. Gerking, of Ritter; Mrs. David
Taylor, of this city, and Mrs. Junk-
in, of Portland. Mrs. Nancy Ger-
king leaves behind her 94 grand-
children, 94 great-grandchildren, and
several great-great-grandchildren.

**VETCH GROWERS ELECT
OFFICERS AT JUNCTION**

Prosperous Year for Associa-
tion—Other Junction
News

The Lane County Vetch Growers'
Association held their annual meeting
in this city Wednesday afternoon, and
elected the following officers:

President, I. N. Edwards; vice
president, M. J. Harper; secretary-
treasurer, W. C. Washburne.

The above officers and Loren Ed-
wards, D. R. Hill, W. M. Pitney, A.
C. Millett, constitute the board of di-
rectors.

This organization is not for the
purpose of forming a trust but to
bunch the crop that they may secure
better prices. The association was
successful in disposing of their pool
last year, and no doubt will be equal-
ly as successful this year.

The matter of the union high
school will not be submitted to the
voters of the several districts for the
reason that there was too much oppo-
sition to the enterprise. In some dis-
tricts no one could be secured willing
to circulate the petition. This is a
great disappointment and a mistake
on the part of those who are opposed
to the measure. During the coming
school year our schools will have to
be condensed, as an overflow build-
ing cannot be built. We have accom-
modations for our own scholars, but
it may be necessary to shut out those
residing outside the district, both in
the public and high school.

The best ball game of the season
was witnessed here Sunday, when the
Junction Grays defeated Albany by
the score of 8 to 7 in an eleven-in-
ning game. The playing of both teams
was not exactly errorless at times, but
the game was made all the more ex-
citing because of this. The excellent
pitching of Schermer, who hurled the
mover for Junction, was easily the
feature of the game, coupled with the
fine catching of Toomey, who
proved himself a second Johnny
Kling by his true pegging to bases.

Schermer struck out fourteen men,
while the best two Albany pitch-
ers could do was to ozone four.

The Mason buildings are nearing
completion. The contractors have
rushed the work from the start, and
in a short time they will be through.
The second story contains several
suites of rooms, as well as office and
living rooms, about 25 in all. The
scaffolding will be taken down this
week, as the remainder of the work
will be done inside. A sign in raised
gold foil letters has been hung up
which Mr. Mason informs us he has
used for more than twenty years, and
it is as good as new yet. New goods
have commenced to arrive, and with-
in a short time the new firm will be
ready for business.

J. Casebeer has filed a contest of
the will of his wife, Mrs. Eliza Case-
beer, who died April 18, 1909. He
alleges that the instrument was un-
lawfully executed in that the testa-
tor signed the instrument while she
was weak in body and mind, and that
her daughter, Bertha C. McPherson,
constantly importuned and solicited
her to will her all of her property
except \$500, and that it was signed
through undue influence and persua-
sion. The property is valued at
about \$15,000. Bertha C. McPherson
and Archie Follett are executors of
the will.

Professor Mickey has commenced
remodeling the old C. P. church,
which he purchased some time ago.
The belfry has been taken down and
other improvements and conveniences
will be made. The floor will be low-
ered and a second floor put in, mak-
ing two stories. The old bell, which
was taken down, was bought in an
early day and cost \$140. It was the
first church bell in the city to call
worshippers to divine service. It
should be secured for the new union
high school building.

The Electric and Engineering Co.,
which has taken over the electric
light plant at this place, has purchas-
ed the two lots north of the residence
of Mrs. E. VanVrankin from James
Boone, and will put up a building for
a sub station. This building will con-
tain the transformers, as well as nu-
merous supplies. Some are of the
opinion that it will be filled with
loud-noised machinery, but this is a
mistake, as the transformers will
make no more noise than a stove.

Wm. Blachley was in town Sat-
urday on his way to the rose festival at
Portland. This is his first visit to
Portland for a period of 53 years.
Portland was not much more than a
hamlet then, built on the river and
flanked by great Oregon firs. Noth-
ing will appear natural and familiar
to him except the skies. We hope for
a jolly time, for he deserves it.

John Nichols having sold his place
and not being able to secure a desir-
able location, has concluded to camp
and has pitched his tent on the vac-
ant lots owned by Forrest Miller. He
can therefore enjoy an outing and be
at home.

P. E. Shinn, of Coburg, has located
here and will engage in shoemaking
and repairing. He has rented the
Johnson building, formerly used as a
restaurant. He is a good workman
and deserves a share of the public
patronage.

Harry Millett, the road supervisor
for the South Junction precinct, has
built a gravel loader after his own
design, and he informs us that it
works to perfection. He can load any
number of teams and regulate it to
a small force. He is doing some good
work on the roads.

Mrs. Lellie Bushey has returned
home after spending some time in the
hospital. She underwent two opera-
tions and for a time was in a very
serious condition. She has improved,
however, and it is to be hoped that
she will soon regain her former
strength.

James Calvert has a Jersey cow
four years old that has given birth
to four calves. She had a calf when
two years old, one at three and twins
at four. Pretty hard to head off Ore-
gon.

Born—To Mr. and Mrs. H. L.
Boyle, at Arleta, Oregon, June 5,
1910, a daughter, Mrs. Boyle was
formerly Miss Hattie Cook.—Times.
