

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her

Knoxville, Tenn.—"I suffered with pain low down in my right side for a year or more and was so weak and nervous that I could not do my work. I wrote to Mrs. Pinkham and took Lydia E. Pinkham's Vegetable Compound and Liver Pills, and am glad to say that your medicines and kind letters of directions have done more for me than anything else and I had the best physicians here. I can do my work and rest well at night. I believe there is nothing like the Pinkham remedies."—Mrs. CLARA FRANKS, R. F. D., No. 3, Knoxville, Iowa.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

HELPFUL WORDS

From a Eugene Citizen
Is your back lame and painful? Does it ache especially after exertion?
Is there a soreness in the kidney region? These symptoms indicate weak kidneys.
There is danger in delay. Weak kidneys fast get weaker. Give your trouble prompt attention.

Doan's Kidney Pills act quickly. They strengthen weak kidneys. Read this Eugene testimony:
Mrs. Anna Lake, Willamette street, Eugene, Oregon, says: "Last winter I had kidney trouble and I suffered intensely from backache and other symptoms of this complaint. The use of three boxes of Doan's Kidney Pills cured me and my kidneys are now doing their work properly."
For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

POISON OAK POISONING.
Ballard's Snow Lintment cures it. Mr. O. H. P. Cornelius, Turner, Ore. writes—My wife has discovered that Snow Lintment cures "Poison Oak Poisoning," a very painful trouble. She not only cured a case of it on herself, but on two of her friends who were poisoned by this same Ivy. Price 25c, 50c and \$1.00. Dillon Drug Store.

If your stomach, heart or kidney are weak, try at least, a few doses on ly of Dr. Shoop's restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the heart or kidneys. Dr. Shoop's restorative goes directly to the weak and falling nerves. Each organ has its own controlling nerve. When these organs fail the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by Yerington's drug store.

MRS. C. M. COLLIER ELECTED MEMBER OF BOARD

Wins Over R. McMurfhey—The Osburn Lot Will Be Purchased

Mrs. C. M. Collier was elected school director at yesterday afternoon's election over Robert McMurfhey by a vote of 198 to 127, and the proposition to purchase the Osburn property joining the High school grounds for \$5000 carried by a vote of 122 to 42.

The annual meeting of the district was held after the election at which Chairman McMurfhey submitted his annual report as follows:

Eugene, Oregon, June 20, 1910.
To the tax-payers of school district No. 4, Lane county, Oregon.
Ladies and Gentlemen:—

As required by law and custom, your board of education begs leave to submit the following report for the year ending today:

Financial	
Balance on hand at annual report, June, 1909	\$ 4,140.34
Receipts from county high school fund	5,762.25
Special Tax	38,460.20
Bills payable	31,536.60
Tuition	227.05
State school fund	4,575.05
County school fund	13,769.00
Sale of bonds	40,565.00
Building fund	61.00
Miscellaneous	193.88
Total	139,290.17
Disbursements	
Paid for wood	1,586.75
Furniture	3,309.99
Incidentals	4,152.37
Interest	3,449.33
Insurance	730.00
Teachers' salaries	36,923.50
Repairs	5,484.98
Clerk's salary	480.00
Bills payable	31,536.60
New buildings	32,810.64
Janitors' wages	3,045.26
	123,509.42
Balance	15,780.75

The bonded indebtedness at this date amounts to \$94,500.

For a detailed report of expenditures we refer you to the clerk's books, which are open to any taxpayer of the district at all times. These books have been carefully examined from year to year and are always found to be in perfect condition and correct to a cent.

Since the last annual meeting we have completed two new school buildings, one in Fairmount, and the other at the corner of West Ninth and Monroe streets. These buildings are identical in plan and construction and cost the sum of \$37,379.51. These buildings were erected none too soon, as every room in all the buildings has been full during the term just closed, except two rooms in the building at Fairmount. The school census taken last December showed a total number of children of school age in the district of 2,243, divided in the different buildings as follows:

High school	497
Central school	396
Patterson school	370
Condon school	214
Geary school	408
Lincoln school	358

During my term of office for five years I have seen the number of school children increase from 1884 to 2724, and the number of teachers increase from 34 to 60. The expenditures of the district have increased during this period from \$27,985 to \$51,627, while the cost per pupil has remained practically the same, or to be exact from \$18.03 five years ago to \$20.07 per pupil at this time. When the additional cost of everything, including the higher salaries paid to the teachers, is taken into consideration, it will be observed that the board has been quite careful in the matter of expenditures.

High School too Small
We have now almost outgrown our present high school building. An addition of five rooms and a large seating capacity in the assembly was added to the building two years ago, and this room is now fully occupied. Further additions to the building are entirely impracticable. The heating plant now is hardly capable of keeping the building comfortable during cold weather, and further additions to this plant are impossible.

There is at the Central school practically no play ground for the children. A street car line is being laid down Willamette street, and also west on Eleventh street, and it is absolutely necessary to re-arrange the High and Central school buildings or provide more play ground adjoining this property. The personal opinion of the chairman is that the Central building should be moved to some other location, the present High school building diverted to grade purposes and a new High school building erected in another location, several desirable properties being available at reasonable prices at the present time.

We have submitted to the voters for action today the matter of buying a lot 60x178 feet in size adjoining the High school on the south; this purchase should be approved by the voters.

Manual Training
The board has all along been convinced of the necessity for the teaching of manual work in the schools, but there have been many obstacles in the way of its successful introduction, some of which still exist. It was found that it was neither feasible nor advisable to try to carry

on by voluntary service such courses as the school should have. It has not been possible thus far nor is the district in such a condition financially as would justify the necessary expenditure for the introduction of this work during the coming year.

Effort has been directed during the past two years to the condensing and regulating of the courses of study so the music and drawing (which had already been introduced) might have their proper share of time and be taught effectively. These subjects have now been measurably accomplished and were manual work introduced for the coming year the teachers could do all the other required work and still find time for the manual subjects.

Lack of Money
The two principal obstacles in the way of the introduction of this department for the coming year are lack of money and lack of room.

To properly install the department and provide teachers for both the boys and girls would mean an outlay for the first year of four or five thousand dollars, and this year's levy will not provide enough revenue to provide additional funds to this amount.

While it is possible to provide manual centers in the grade buildings, there is no room at all for the accommodation of high school students in this department.

These are the conditions as they now exist. The board is committed to the introduction of this work at the earliest possible moment, but it would be governed by conditions and not sentiment.

In this connection I desire to report to the tax-payers that Mrs. S. B. Eakin has recently generously donated to the district the sum of \$150 for the purpose of supplying manual training apparatus for the Patterson school. This, of course, was accepted very thankfully and will be applied to its intended use.

An election is being held today for the purpose of electing my successor on the board. Being petitioned by a number of tax-payers and voters of the district to become a candidate for re-election, I consented to serve another term, if elected.

Subsequently Mrs. C. M. Collier was nominated for the office, and consented to serve. Being personally acquainted with Mrs. Collier and having served with her on the board of education, I speak authoritatively when I say that she possesses the highest qualifications for the position as a member of the board of education. I have myself urged her before to accept another term on the board, but she has always refused; now I shall be very much pleased to welcome her on the board as my successor, and I shall be glad to retire feeling that the affairs of the district will be in competent hands, as the other members of the board, too, are painstaking and conscientious in the discharge of their public duties.

I have always taken a keen interest in public school affairs, and during my residence of 17 years in the district I do not think that I have missed a school meeting. I have enjoyed the work of the board very much, and during my entire term of five years the board has been harmonious and our association together has been pleasant at all times. I shall still continue an appropriate interest in the affairs of the schools and will at all times labor for their promotion and welfare.

Respectfully submitted,
R. McMURPHEY.
