HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly. Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. ONE DOLLAR BOTTLES GUARANTEED. W. A. Kuykendall, Special Agent

TRIAL OF ALLEGED BOOZE SELLERS BEGINS

Clarence Beaupre, Among Seven Arrested Yesterday, Is First in Court

The trial of the alleged bootleggers arrested by Sheriff Bown and his deputies yesterday began in the justice court today, Clarence Beaupre being the first to appear. The case was called early this forenoon, but it was late in the afternoon before a jury was secured, so many of the men on the regular jury list being out of the city, making it slow work to secure the required number from outside the list. As finally selected the jury consists of the following: A. J. Pichard, J. W. Barringer, J. W. Buey, W. M. Sherman, Melvin Hansen and E. Wheeler. The editor of the Oregon Free Press, the prohibition paper, was the principal witness for the state in this case. He has been in Eugene for several days past and had been here several times previously securing evidence in alleged booze-selling cases. The testimony was completed about 4 o'clock and after the jury had taken a recess of a few minutes the attorneys began their argument. Deputy District Attorney Shipworth is conducting the prosecution and C. M. Kissinger is attorney for Beaupre.

TRAVELING PREACHERS ON BICYCLE TOUR Started From Mexican Border and Are Bound for British Columbia

Two evangelists traveling over the country in an unusual manner stopped in Eugene today. They travel on bicycles and carry all their camping outfit and religious literature with them. The men are representing the Israelite House of David, a religion whose headquarters are located in Benton Harbor, Mich., and they go under the name of Thomas and Henry. They travel from town to town on their wheels and preach their religion on the street corners, stopping a day or so in each place. They have come from the Mexican border and their destination this summer is British Columbia. They can travel only in the summer time and spend the winters in some locality where they can make short trips out. They spent last winter at Los Angeles and will winter this year in British Columbia. Next summer they will cross the continent in Canadian territory, and expect to reach Michigan in the fall. They only travel between towns, and their day's distance seldom exceeds 50 or 60 miles. The men's real names are Thomas Pennington and Henry Dearborne. When asked if they were not rather old to be making such long trips on bicycles, Dearborne replied: "I should say not. I'm only 58 and he is but a year older. No, that's not old. I can handle most any young fellow around here." Pennington two years ago rode on his bicycle from Seattle to Chicago. The evangelists say that they occasionally have breakdowns with their wheels, but they carry complete repair kits and very seldom have to walk. They carry their camping outfit and other effects in two suit cases, one in front of the handle bars and the other over the rear wheel.

IRRIGATE FORTY-FIVE THOUSAND ACRES Two-Million Dollar Project in the Rogue River Valley

Portland, July 21.—Irrigation for 45,000 acres in the Rogue River valley is promised at an expenditure of not less than \$2,000,000. The Rogue River Canal company, made up of Spokane capitalists, has recently acquired ownership of the property of the Fish Lake Water company. The old company has about 60 miles of canals and ditches and the new owners will proceed at once with additional construction until there are 100 miles of canals and 400 miles of laterals. The company owns reservoir rights in Fish and Four-Mile lakes, with a storage capacity of 55,000 acre feet of water, in addition to the running water in the north and south forks of Little Butte creek.

MANY SEA LIONS KILLED ON COAST

Portland, Or., July 21.—Sea lion hunters off the Oregon coast have had a good season. In two months one schooner's crew killed forty sea lions and one otter. The skin of the latter is worth from \$300 to \$500. It is rare that a sea otter is killed on the Oregon coast. The skins of the sea lions will be shipped to San Francisco, where they will be cured and sold. In addition to the value of pelts of sea lions, the hunters have the satisfaction of knowing that in shooting them they are helping protect the salmon, for they are the greatest enemy of the fish and destroy countless numbers every year. It has been suggested that the state pay bounties on sea lions to secure hunters to shoot them, reducing the salmon loss in this way. Because of the fact that their pelts are of value, hunters are now waging a warfare against the sea lions that will do much to keep down their numbers.

WANT AD COLUMNS SAVE NERVOUS STRAIN

The pace of life has become tense. Worries, disappointments, upsets at home and office, losses, discouragements seem to multiply as daily life becomes more complex. The property owner, who MUST have a steady income from rents or lose his property, is "racked" by the uncertainty of defection of a tenant. Some classified advertising quickly retrieves his losses—and quiets his nerves! The salary-earner unexpectedly loses his salary—and his peace of mind. The strain would shortly "break" something if, once more, want advertisements did not find the better job—and restore to him his mental equilibrium. In every phase of the city's life every day, the want ads play the part of the peace-maker. They SERVE you and me at some crisis in our lives and keep the modern pace and tension from proving too fast and tight for us. Truly, the want ads ARE FOR SERVICE.

Those Pies of Boyhood. How delicious were the pies of boyhood. No pies now ever taste so good; what's changed? The pie? No. It's you. You've lost the strong healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up of all organs of digestion by Electric Bitters—stomach, liver, kidneys, bowels—try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at W. A. Kuykendall's.
