

HAIR WHITE AS SNOW

Restored to Natural Color with One Bottle of

WYETH'S SAGE AND SULPHUR HAIR REMEDY

The Only True Hair Restorer, Tonic and Rejuvenator

ALMOST A MIRACLE

My hair was as white as snow when I commenced using Wyeth's Sage and Sulphur Hair Remedy. One bottle restored my hair to its natural dark brown color. As I am now 70 years old, I consider the result most remarkable. It is an agreeable and refreshing hair dressing, keeping the hair soft and glossy, without being in the least greasy or sticky.

Why hesitate when WYETH'S SAGE AND SULPHUR HAIR REMEDY is daily producing just such results?

After years of study and analysis of the hair, we have been able to produce an ideal Hair Tonic and Restorer, which contains an actual constituent of hair, combined with ingredients of recognized merit for treatment of hair and scalp diseases. It makes and keeps the scalp clean and healthy, gives life, strength and lustre to the hair, and restores faded and gray hair to natural color.

No matter how long and thick your hair is, WYETH'S SAGE AND SULPHUR HAIR REMEDY will make it longer and thicker. It will remove every trace of dandruff in a few days, stop falling in one week, and start a new growth in from one to three months.

These are facts that have been proven in scores of cases. WYETH'S SAGE AND SULPHUR HAIR REMEDY is guaranteed to do all that it is claimed to do or the price will be refunded.

GIRLS OF EUGENE GO SWIMMING, TOO

Y. M. C. A. Pool and Mill Race
Favorite Bathing Places
for the Fair Sex

Boys are no longer the only ones who enjoy the summer because they can go swimming. One characteristic of Eugene this summer is the number of girls who can swim. The new Y. M. C. A. is partly responsible for this, but the near-by mill race is the "swimming hole" for a great many of the fair swimmers. In the Y. M. C. A. on ladies' night this week over twenty ladies enjoyed the sport, while there were nearly fifty in the room watching the others. This morning a special class of a dozen or so swam about the small tank for a couple of hours. The ladies' class was started last winter by a few University girls, and it has now grown until the tank will not hold all in one night, and there has been a second class started. There are a large number of girls who go in the mill race quite frequently. This is not deep in places and the more timid can find shallow water along the bank.

Although it is not generally so among the girls, yet there are several good swimmers, and some have the nerve to dive. One or two of the University girls who went into the Y. M. C. A. tank this spring could make graceful plunges off the spring board. However, the typical dive for a girl is a tumble off the bank head first.

However, the fact that it is becoming a girl's sport does not seem to spoil it for the boys, and every afternoon the river and race are crowded with the big and small boy who goes into the water after dinner and puts on his clothes only for supper.

THRESHING BEGINS IN EARNEST NEXT WEEK

Threshing in this vicinity begins next week and for several weeks thereafter the shrill note of the traction engine will be heard throughout the country. The grain crop is heavy this year and the threshing season will be longer than usual. Heretofore the work has mostly been done by private thrasher owners, who move from farm to farm, but this year the farmers in some vicinities have combined and own a separator in common. In this way they can thresh when they wish and not have to wait their turn. The farmers in the vicinity of Junction City have formed a company and own a machine of their own. They begin threshing Monday.

VANCOUVER MEN ON AUTO TRIP

J. G. Schwartz and W. B. Dub-wash and wives, of Vancouver, Wash., passed through Eugene yesterday on their way home after an automobile trip through southern Oregon. They were in Eugene on their way south a week ago. They say that this is a fine trip, especially at this end of the Willamette valley, as the roads are fine because of the lack of dust that characterizes the northern roads. The worst part of the whole trip, including the mountain roads, was the stretch from Oregon City to Salem and a little beyond. In the upper part of the Willamette valley the roads are not so rough nor so dusty. All tourists have very little praise for the dusty roads in the lower valley. One story that a party brought through is to the effect that when they, as well as the other party, met another car they were obliged to stop for the dust to settle so they could see the road ahead of them. There is dust in this part of the valley but it is not nearly as bad as it is north of here.

BURDENS LIFTED

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutritious contained in food, which is the source of all physical strength. When a man "doesn't feel just right" when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, or fat, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Great Discovery. It cures diseases of the stomach, organs of digestion and nutrition. It invigorates the liver, strengthens the kidneys, the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a cheap alcoholic medicine of known composition, not even though it may thereby make a little bigger profit. Ingredients pure.
