

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds him self regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither narcotics nor poisons, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

NEW FOOTBALL

RULES ARE READY

Official Guide for 1910 Published—Many Changes Are Made

Spalding's Official Football Guide for 1910, which has just been published, contains the new official football rules, as revised by the football rules committee. The committee held numerous meetings, and it is only within the last few days that the final changes were adopted.

The changes in the rules for 1910 must be carefully noted by officials, coaches, captains and players in order that they may fully understand what is expected.

Taking the rules up in order, the first change noted is in the diagram of the field, the longitudinal lines now being omitted, because, as the quarterback may cross the line of scrimmage at any point, and as the forward pass may be thrown over the line at any point, these longitudinal markings are no longer necessary.

Hence rule 1, section 2, now simply reads that the field shall be marked off at intervals of five yards with white lines parallel to the goal line.

The next rule affected is that regarding substitution. A rule has been passed that a player who has been removed for any cause except disqualification or suspension may be returned to the game once at the beginning of any subsequent period.

The game is divided into four periods of 15 minutes each, 60 minutes in all, with the usual intermission between the second and third periods, but a three-minute intermission between the second and third and fourth periods. During this short intermission of three minutes, no player is allowed to leave the field of play, nor any representative to come on the field, except one who looks after the physical condition of the players.

Crawling Ruled Out.

At the beginning of the second and fourth periods, the teams change goals, but the possession of the ball is down, and the distance to be gained all remain the same as at the termination of the preceding period. The teams do not change goals after a try, goal following a touchdown, or after a goal from the field, but the side scored upon then has the option of kicking off, or having their opponents kick off.

Crawling has been defined as an attempt to advance the ball by the runner after the ball is declared dead, and is penalized. Seven players of the side holding the ball must be on the line of scrimmage. The player who first receives the ball when it is snapped back may carry it across the line of scrimmage at any point.

The legislation regarding a forward pass should be read over repeatedly by officials, coaches, captains and players in order that it may be thoroughly mastered. First, the lines to be observed should be thoroughly borne in mind. There are two lines of scrimmage, one for each side as formerly, the line passing through the end of the ball. A man to be on the line of scrimmage must be within one foot of this line, but a player to be eligible to receive a forward pass must be at least one yard back of his own line of scrimmage, and no one may receive the forward pass who is not thus one yard back, or occupies the position on the end of the line of scrimmage.

There is another line in addition

to this one-yard line, and that is five yards back of the line of scrimmage. No man may make a forward pass, nor may he kick the ball unless he is behind this imaginary five-yard line. Between this line and his scrimmage line he is allowed to neither kick nor make a forward pass. There is still another imaginary line, and that is on the other side of the scrimmage, the defensive. This is a line 20 yards back from the defensive line of scrimmage, and within the space bounded by the scrimmage line and the 20-yard line. There are here certain restrictions relative to obstruction of opponents which will be found in rule XVIII.

Forward Pass Rule Changed.

Furthermore, if a forward pass is even touched or fumbled by a player, till no players on the other side may interfere with the opponent until the ball is actually in possession of the player except in an attempt to get at the ball. The players may, however, interfere with opponents who have not crossed their own line of scrimmage. A forward pass is not legal if it goes more than twenty yards beyond the line of scrimmage, but an inside kick does not become an inside kick that is, does not put men onside when touching the ground, unless it goes at least twenty yards beyond the line of scrimmage. In the case of a kick the players on the defense within the 20-yard zone must not interfere with the ends, or other players, in any way until these opponents have advanced twenty yards beyond the line of scrimmage.

After they have advanced this 20 yards, then the side on the defense may use their hands or arms to push them out of the way, in order to get at the ball, or use their arms close to their bodies, in order to obstruct an opponent from coming at the player carrying it.

Interlocked interference, that is, players of the side having the ball taking hold of each other, or using their hands or arms to grasp their team mates in any way, is forbidden, and it is also forbidden for any man on the side having possession of the ball to push or pull in any way the man running with the ball.

Finally, a player when tackling an opponent must have one foot at least on the ground.

MCCREDIE GETS A

NEW OUTFIELDER

Portland, Or., Aug. 24.—Manager Walter McCredie announced this morning that he had secured Artie Krueger, the outfielder, from the Cleveland Americans, and that he would report in Portland either the last of this week or the first of next. Krueger was loaned by the Naps to Columbus last year, and was sixth on the batting list with an average of .289. He was fifth among the outfielders with an average of .381. With the arrival of Krueger, Specs will probably be switched to center and Ryan to right, and the big leaguer used in left.
