SOUTHERN PACIFIC RAISES LUMBER FREIGHT RATES

Beginning October 15, shippers of rough green fir lumber from points in the Willamette valley, south of Portland, will have to pay \$5 per ton to San Francisco bay points.

Announcement to this effect has been made by the Southern Pacific company through a new tariff just issued, and identified as No. 47 E.

The new tariff means an advance of \$1.50 per ton on material as described above from mills on the east side of the Willamette and \$1.35 per ton from mills on the west side.

The proposed new rates is a return to conditions of two years ago, when the valley mills organized and fought the railroads before the interstate commerce commission with the result that the \$3.40 and \$3.65 rates were ordered into effect.

BUFFALO BILL WILL BE HERE TOMORROW

Among the many types of people of the orient presented with the "Far East" exhibition are the Singalese, the aboriginal inhabitants of the island of Ceylon, famed for a culture, in which it leads the world.

Their proficiency in the handling of their native musical instruments, and in singing and dancing is well known and is exemplified in their introduction in the "Far East."

On seeing and hearing their fascinating performance one is reminded of the old hymn beginning "What through the balmly breezes blow soft o'er Ceylon's isle." These people and other Oriental characters are now allied with the "Wild West," whose leader comes tomorrow to say farewell.
