MORRISON REBUKED, BUT ONLY MILDLY

Clatsop, O., Oct. 12.—By a vote which might be called unanimous in the ordinary sense of the word, but which was not unanimous because several ministers and laymen refused to vote the way the majority did, the Protestant Episcopal house of deputies here this afternoon refused to abide by the statement made from the platform in Music Hall a few days ago to the effect that the Bible is not the Word of God.

It was the Rev. A. A. Morrison, rector of Trinity church, Portland, Oregon, who in the course of his speech before the house of deputies said that to consider the Bible as the Word of God was to open up the church to the criticism of hundreds of thousands of people, and that no thinking man today considers the Bible in any such light.

He was vigorous in saying that the Bible is to be taken for all it has been said to be.

Threats to Resign Heard
The session today which voted down his opinion was precisely the same as that to which he made his original statement. The Rev. J. R. Winchester, of Memphis, Tenn., told the gathering in the course of his speech that if the house of deputies did not vote down the opinion as expressed by Dr. Morrison, he would resign from his rectorship and from the church. He offered a resolution with this ending:

"Resolved, That this house place itself on record as accepting the fact that the Holy Scripture as accepted by this church is without doubt the word of Almighty God."

Dr. Morrison said nothing in opposition to the resolution, in fact he did not speak at all. Rev. John Williams, of Omaha, said it was but common morality to pass this resolution, and endorsed it. Several other ministers spoke on the matter, and all endorsed the resolution when it came to a vote. It passed.

That Cold Room

on the side of the house where winter blasts strike hardest always has a lower temperature than the rest of the house. There are times when it is necessary to raise the temperature quickly or to keep the temperature up for a long period. That can't be done by the regular method of heating without great trouble and overheating the rest of the house. The only reliable method of heating such a room alone by other means is to use a

PERFECTION OIL HEATER

Absolutely smokeless and odorless

which can be kept at full or low heat for a short or long time. Four quarts of oil will give a glowing heat for nine hours, without smoke or smell.

An indicator always shows the amount of oil in the font. Filler-cap does not screw on; but is put in like a cork in a bottle, and is attached by a chain and cannot get lost.

An automatic-locking flame spreader prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental. Has a cool handle.
