Daylight Window Displays at Night

"Yes, it's wonderful the way window displays can be made under the pure white rays of this new General Electric Mazda Lamp. Just notice how perfectly it accentuates every detail in fabrics. Matching goods under its white rays is easy, for it radiates a daylight effect. You will notice that progressive stores everywhere are using these G-E Mazda Lamps, for aside from their vastly superior quality of light they give nearly three times as much candle-power as the ordinary carbon incandescent lamps. And they cost no more to operate. This G-E Mazda is a most ingenious invention; it is simply revolutionizing lighting methods. Notice how greatly it improves the appearance of all the live stores along this street."

"Traffic is always determined by the way a street is lighted, and that's why the night window gazers (and next morning buyers) are irresistibly drawn to stores using these beaming G-E Mazda Lamps."

We want you to come in for a moment today and let us prove to your entire satisfaction that if you are not using electric light—and the wonderful G-E Mazda Lamp—you are losing money and denying yourself comfort and convenience. We can prove this to you.

ALLEN EATON AFTER SPEAKERSHIP OF THE LOWER HOUSE

Ben Selling, of Multnomah, An Aspirant for Presidency of Senate

Senator Ben Selling, of Multnomah county will, unless all signs fail, be the next president of the senate.

Allan H. Eaton, of Eugene, Lane county, also looks like the winner in the fight for the speakership.

Selling has the solid support of the Multnomah delegation, both senate and house. He also is reported to have eight votes pledged to him outside of the county. He therefore now has approximately 13 of the 16 votes necessary to election.

Eaton is now in Portland looking for the support of the Multnomah county representatives. It is reported that he brings with him some 14 votes contingent upon his securing the 12 votes of Multnomah county.

At a meeting of the Multnomah delegation held last Monday night, the question of the presidency of the senate and the speakership of the house was discussed. At that time it was decided that the entire delegation from this county would work for the election of a Multnomah county senator as president of the senate.

Senator Dan J. Malarky, who has been a receptive candidate for the presidency, explained his attitude. He said that he would consider it an honor to be elected president of the senate, but that he did not desire to make a fight for the election or stand in the way of any other man acceptable to the county delegation.

It was decided, therefore, to leave the selection of a candidate to the senate delegation, and, it is reported, the delegation has decided to stand back of Senator Selling and recommend that the delegation get behind his candidacy at the next meeting, which will be held in a few days.

There are several candidates for the speakership. One of Jerry Rusk, of Wallowa county. Another is W. Lair Thompson, of Lakeview. Still anotheri sAllen H. Eaton, of Lane. Thompson is not favored by the anti-assembly and Statement No. 1 members of the house because of his active work in the organization of the assembly and his outspoken opposition to Statement No. 1.

The Multnomah house delegation is taking the stand that in case the presidency comes to Multnomah county the delegation will give its support to an acceptable candidate from outside the county. Should Eaton be able to affect a working agreement with the Multnomah delegation, it would give him a nucleus of approximately 26 votes, or only five short of the number necessary to election.—Journal.

"A Letter to The Public."

Toledo, Ohio, Nov. 22, 1908.
Nysewander Piano Co., Rockford, Il.

Gentlemen:—After erecting our new church last January our committee made a thorough investigation of the best pianos now in the market and decided to purchase one of your style No. 101 Nysewander Metal Back pianos. Our building is new, constructed of cement blocks, and during the summer months was somewhat damp to such an extent that decorations on wall were affected by the dampness, but the piano which stood in the building continuously, was not affected in the least. The piano was not tuned from the time it left the factory until last month. The finish and tone of this instrument in our opinion, cannot be excelled. We are well pleased with it, and highly recommend the Nysewander metal back piano to anyone who is interested in purchasing a first class instrument in every respect.

Yours truly,
The Hamilton Memorial M. E. Church of Toledo.
Per I. N. Harris, Treasurer.

The above is the piano now sold exclusively by Stevens & Hulin; Commercial club block. They come here direct from the factory. d 21-22w24
