

Cockerline & Wetherbee's General Clearance Sale

Saturday, January 7th to February 1st

This Sale will be conducted just as we have conducted our business in the past **HONEST AND STRAIGHT FORWARD.** Every article in the house will be reduced.

No re-arranging of prices for the occasion. No advantage taken of anyone. We are simply cleaning out so as to make room for our **SPRING STOCK.** Which will be one of the prettiest and best ever shown in Eugene.

In order to do this we will offer our entire stock at prices so low there will be no doubt as to the real bargains. It will be out of question to itemize every article at this issue, so **WATCH THE DAILY PAPERS FOR OUR SPECIAL SNAPS.**

PAGE Woven Wire Fence

BEST ON

- First—It is the strongest fence, made of the strongest wire.
Second—It is the most elastic fence and it springs back when released from any strain. Every wire tight and right.
Third—It is not controlled by the wire trust or any other trust. And it is double the strength of any common soft wire you are used to, by actual test. Are you from Missouri? I am here to show you.

- Fourth—Fits the roughest ground as well as the smoothest.
Fifth—Only takes one-third as many posts and don't bag or sag.
Sixth—It is the only wire with loop ends. No trouble to splice. Always even at ends.
Seventh—It has the best weave, and only knot that that holds fast and stays. Runs from top to bottom.
Eighth—It is the government standard fence.

OVER \$800 PAID FOR WILD ANIMAL SCALPS IN LANE COUNTY IN 1910

Two Hundred and Fifty-five "Varmints" Killed on Which Bounty Was Claimed

Reports from Lane county for the year 1910 show the killing off of 255 wolves, wildcats and cougars, for which \$805.00 was paid in bounty money. The reports made monthly show that in the total number above stated there were 202 wildcats and bobcats, 37 cougars, 14 coyotes and two gray wolves. The bounties paid are as follows: Cougars, \$10.00; gray wolf, \$5.00; wildcats and bobcats, \$2.00; coyotes, \$1.50. The state pays one-half the bounty, returning the amount promptly to the county after each report is sent in. Following is the showing as reported by months for 1910 from Lane county:

Month	Wolves	Cats	Cougars	Bounty
January	2	21	2	\$65.00
February	0	20	3	90.00
March	2	25	4	115.00

October	1	11	2	49.50
November	2	8	2	49.00
December	1	22	1	55.50
Totals	16	202	37	\$805.00

IT GROWS HAIR

Here Are Facts We Want You to Prove at Our Risk

Marvellous as it may seem, Reckall "33" Hair Tonic has grown hair on heads that were once bald. Of course, in some of these cases were the hair roots dead, but had the scalp taken on a glass, shiny appearance. Reckall "33" Hair Tonic acts upon the scalp, stimulating the hair which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is pleasant to the taste of the hair, and is permanently safe. We want you to get a bottle of Reckall "33" Hair Tonic and use it as directed. If it does not make your hair grow, we will refund the money. It is a most pleasant toilet necessity, is pleasant to the taste of the hair, and is permanently safe. MADE DRY CLEANING

The art of Dry Cleaning is comparatively new, and is misunderstood by a great part of the public. Much of the so-called Dry Cleaning is "dry" but not "cleaning."

The inferior work is the result of the method employed by many small places who have no machinery or proper equipment for doing the work and consists merely in brushing the material, either by hand or with a small apparatus (so-called vacuum cleaning), and sponging the surface with a liquid other than water. This method cleans the surface of the goods to some extent, but leaves all the dirt and grease on the reverse side and in the center of the cloth, and in the case of coats, jackets and other lined garments, the dirt is left in the inter-lining, padding, etc., and in a short time will work out to the surface and the garment is as soiled looking as it was before it was cleaned.

Dry Cleaning in its proper sense means an absolute and thorough cleaning of an article, through and through, without the use of water. This is done by the employment of expensive and specially constructed machinery and appliances, with spirits and other solvents, the use and action of which are only properly understood by the chemist.
