

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach. With its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the vital force needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cleanses the stomach and other organs of a person and restores the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so gives health and strength to the whole body.

You can't afford to accept a secret nostrum as a substitute for this non-toxic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

RAILROAD MAN SAYS SPRINGFIELD WILL BE RAILROAD CENTRE

Superintendent Fields Tells Hotel Man That City Best Place to Invest

Springfield, Jan. 28.—The rumor of Springfield's car shop and railroad prominence cannot be downed in spite of the denials of the railroad officials. A Portland hotel man, an intimate friend of Superintendent Fields, went to the railroad man and frankly asked him which he considered the best location for a hotel in Oregon. Without hesitation, according to the hotel man's story, Fields advised him to go to Springfield. Without remembering the exact words of the railroad man he was given to understand that Springfield would not only have the terminal yards and shops, but would likely be 20 months or two years before these things would materialize, yet if the man really desired to get in on the ground floor, by all means go to Springfield. This, he said, was the best suggestion he had to offer among the towns in his division.

The hotel man, whose name cannot be used, related the incident without knowledge that he was speaking for publication, and had no interest to exaggerate. He declared his intentions of returning to Springfield, and is in Portland now, making final arrangements. He was formerly an employee of the Southern Pacific company under Superintendent Fields.

TURBINE GENERATORS ARE INSTALLED

Springfield, Jan. 28.—Two new 50-horsepower steam turbine electric generators have just been installed in the Springfield power plant, to be used as exciters for the big turbine generators. They are the smallest steam turbines in the state, being of a very recent pattern and are the type of machinery that is being installed in this power plant. They run at a speed of 3600 revolutions a minute, which is 60 a second, yet there is almost no vibration. One of them was connected up and cut in today. The other will not be needed until the new generator is installed.

BIG TIMBER SAWED FOR PULLMAN CARS

Springfield, Jan. 28.—One of the longest timber orders ever turned out of an Oregon saw mill, was shipped from the Booth-Kelly mill yesterday, consisting of several 72-foot timbers, 6x10 inches, which were shipped to Oakland, California, where they will be used as car sills by the Pullman Car Company. Seventy-two feet is the length of the larger cars, and these run the entire length. They have to be picked from flawless timber. In order to select this shipment, several additional pieces were cut, and only the best ones selected.

Springfield, Jan. 28.—Mrs. Elmer Cox left today for her home in Tulare, California, after spending a month with her parents, Mr. and Mrs. M. M. Peery.

Springfield, Jan. 28.—A number of the local hardware men have attended the convention of state hardware dealers in Portland, which closed last night. Messrs. Kintzley and Johnson were in the city the entire week.
