

# What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A sample at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.

## U. OF O. WILL GET APPROPRIATION OF \$503,000 ASKED

### Attempt Made to Punish Eaton of Lane Because He Refused to Trade Votes, is Charge Made.

Salem, Or., Feb. 12.—An unexpected storm burst upon the house yesterday morning before the passage of the University of Oregon appropriation bills in which it was charged that Thompson, of Lake, and Mahoney, of Morrow, were endeavoring to punish Eaton, of Lane, for refusing to trade votes with them.

Fouts and Clyde of Multnomah attacked them on these grounds and Eaton fired a question at Thompson demanding to know if it were not true that he (Thompson) had promised to vote for the appropriation bills if consideration of them was deferred until next week. The intimation in this question was that Thompson was trying to hold a club over the head of Eaton, who is a graduate of the university and a resident of Eugene.

There were two bills providing for the state's contribution for new buildings and equipment to the university in the next two years. The first called for \$328,288.92 for a new administration building for new grounds and equipment and the extension of the correspondence study department of the university. The second called for \$175,000 for a new library building.

Objected to Form of Bill

Hollis of Washington launched the debate, declaring that he believed in the support of worthy educational institutions and in giving the university everything within reason, but he objected to the form in which the first bill was presented. This asked for \$175,000 for new building and the remainder for equipment and other things. Hollis contended that the university did not show proper appreciation of the intelligence of the legislators and that it should have presented the plans for the proposed buildings.

"I believe the legislature is entitled to know the character and class of the buildings to be erected," he said. "I do not believe personally in investing one dollar in buildings of a temporary character."

"I told Mr. Eaton that if he would put off consideration of these bills," said Mr. Thompson in launching his attack. "I would investigate the matter and perhaps vote for them. He has not done so and from the hasty investigations I have made I have learned that the university can get along without the new administration building. We should remember that times are not what they should be. There are signs of unrest and money is going to be tight. I believe the pruning knife should be applied now."

"I am a friend of education and if I thought the university had to have all that they ask I would be the first to vote yes. But, why do they not bring requests for what is absolutely necessary, separate this request and let us pass upon them individually, together in this form."

Not True, Says Thompson.

"I have but few words to say in reply to Mr. Thompson," said Eaton as he arose, "and I will put them in the form of a question. Mr. Thompson, is it not true that you told me that if this appropriation matter went over until next week you would stand for it?"

"It is not," replied Thompson.

Abrams of Marion and Ambrose of Multnomah both followed with brief talks in which they declared that there was great need for improving conditions at the university.

University a Joke

The university of Oregon is a standing joke on the Pacific coast and has been for the last 10 or 15 years," declared Cole of Multnomah. "Mr. Mahoney made the statement in his attack on this appropriation that there were only 700 students in the university. The reason there are only 700 is because the university is not equipped and unable to care for the number they have. If given what they are entitled to you would see it grow and it would cease to be a standing joke."

"It is not true as said by Mr. Mahoney," replied Thompson.

## BLOOD DISEASES CONTAGIOUS TROUBLES

Contagious Blood Poison more thoroughly permeates the system than any other disease. Its infectious virus contaminates every corpuscle and tissue of the circulation, and for this reason its symptoms are of a varied nature. When it enters the blood it is but a short time until the mouth and throat begin to ulcerate, the skin becomes spotted, rashes and eruptions appear on the body, sores and ulcers break out, the hair falls, and frequently nails on hands and feet thicken and come off. Mineral medicines which simply shut the poison up in the system should be avoided, for when such treatment is left off the old disease will break out again, often worse than before. S. S. S. cures Contagious Blood Poison permanently, and it does so because it thoroughly purifies the blood. S. S. S. goes into the circulation, and drives out the last trace of the destructive germ, adds richness and vigor to the circulation and drives out the diseased portions of the body back to health. S. S. S. is purely vegetable, being made entirely of roots, herbs and barks, without a particle of mineral, and its vegetable ingredients always hasten the cure by toning up the stomach and digestive members. Home Treatment book and any medical advice free to all who write.

THE SWISS SPECIFIC CO., Atlanta, Ga.

Mahoney and Mr. Thompson that these are times for retrenchment. Oregon people and outside capital are investing more than ever before in Oregon and it is only natural that the state should invest more. I am heartily satisfied that the university is asking for no more than it needs and I believe that it should get every nickel for which it has asked."

Fouts followed with the charge that Thompson was playing politics and Clyde went even further, saying: "This is an attempt to punish Mr. Eaton because he won't stand in with the 'old guard.' If Eaton had been a good dog, even to electing the president of the senate they wanted there would have been no attack today upon this appropriation."

"I don't intend to stand here and permit this," interrupted Mahoney. "Why didn't you file a minority report from the ways and means committee against the appropriation?" retorted Clyde. "Why do you wait until the last minute and make an eleven-hour attack on the appropriation?"

"I did not file a report because I was not present when the matter was taken up in the committee," answered Mahoney.

McKinney Makes Plea.

McKinney of Baker, also a graduate of the university, made an eloquent defense for the appropriation. He maintained that the people of Eugene were not trying to graft from the state, but that the present equipment and buildings were utterly insufficient and that students were obliged to stand up in some of the class rooms because of lack of room. He insisted that unless new buildings were erected immediately, Oregon young men and women would be forced to go outside the state to obtain their educations.

Explains Votes.

On the first bill, the only ones to vote against the \$328,000 appropriation were Brownhill, Carter, Graves, Hollis, Libby, Miller (Linn), Shaw, Simpson, Smith and Tigard. Hollis explained that one reason for his vote was that he feared the referendum would be invoked. Mahoney rose to explain his vote and maintained he did not attack the appropriation to punish Eaton. Speaker Rusk said he voted yes under protest, because he did not believe in lumping appropriations in one bill. Brownhill declared that he believed such appropriations should first be ratified by the people.

On the appropriation for the library Carter, Hollis, Mahoney, Miller (Linn), Nomer, Pierce, Shaw, Sampson and Tigard were the only dissenting ones.

**MARY DRY CLEANING**

The art of Dry Cleaning is comparatively new, and is misunderstood by a great part of the public. Much of the so-called Dry Cleaning is "dry" but not "cleaning."

The inferior work is the result of the method employed by many small places who have no machinery or proper equipment for doing the work and consists merely in brushing the material, either by hand or with a small apparatus (so-called vacuum cleaning), and sponging the surface with a liquid other than water. This goes to some extent, but leaves all the dirt and grease on the reverse side and in the center of the cloth, and in the case of coats, jackets and other lined garments, the dirt is left in the inter-lining, padding, etc., and in a short time will work out to the surface and the garment is as soiled looking as it was before it was cleaned.

Dry Cleaning in its proper sense means an absolute and thorough cleaning of an article, through and through, without the use of water.

### TACOMA WOULD OUST COMMISSION MEMBERS

#### New Plan of Government Has Not Worked Well in That City

Tacoma, Feb. 11.—Petitions are out for the recall of every elective officer in the city of Tacoma except the city controller. The petition for the recall of Mayor A. V. Fawcett, with approximately 5000 signatures attached, probably will be filed with the city clerk Monday and an election called at an early date to decide his fate.

Preliminary to the circulation of petitions for their recall, charges of incompetency, failure to enforce the laws and general neglect of duty were filed today against Commissioners W. L. Hoyt, Owen Wood, Nicholas Lawson and Ray Freeland by a committee of the reform element. These men, with Mayor A. V. Fawcett, form the municipal commission that governs Tacoma.

The four commissioners named are charged with consenting to a distribution of power among themselves by which each department of the city government was made independent of the others and at the same time removed from the supervision of the commission as a whole.

Bad Faith is Charged.

They are also charged with bad faith in the enforcement of the civil service regulations and with seeking to build up a machine through patronage. Another charge is that the commissioners in violation of a law adopted a wide-open policy, allowing a restricted district to exist, permitting public gambling and the holding of "brutal prizefights."

Further, they are accused of gross mismanagement and inefficiency in the discharge of their duties.

These general charges are made against all the four commissioners, and in addition there are more detailed accusations against each one individually. Freeland, who is commissioner of finance, is charged with being vasellating.

The mayor and commissioners now under fire were elected in April, 1910, and took office May 3. They had been on the job scarcely six months before rumors of recall petitions were being circulated. Fawcett and Commissioner L. W. Hoyt, of the department of public safety, clashed soon after they took office, while the Fern Hill streetcar war was in progress. The mayor was elected on his promise to "make it warm" for the Tacoma Railway and Power company and when Fern Hillites threatened to cause another blockade in their effort to secure a five-cent fare, the mayor it was stated at the time, encouraged them.

### FRESHMEN OUTCLASS PORTLAND PLAYERS

#### Win Easily from Washington High by 41 to 12 Score

In a peculiar game of basketball on Saturday evening in which Washington High school, of Portland, did not throw a field basket, scoring on fouls alone, the freshman team of the University outplayed the Portland team that holds the inter-scholastic honors, 41 to 12. The game was exceedingly interesting from a spectator's standpoint and was hard fought throughout. The freshmen showed excellent team work and threw some clever baskets, especially "Kady" Roberts, of Salem, who made a total of 19 points. A. A. U. rules were played in the first half, and the freshmen, accustomed to the freer inter-collegiate rules, made many fouls. Washington scored nine points from fouls in the first half, and three in the second. Oregon scored five on fouls.

The lineup of the two teams was: Washington—Darling, Foster, c.; Apperson, McClaren, r. l.; George, l. f.; Gould, Earl, l. g.; Parsons, r. g. Oregon—Bradshaw, c.; Brooks, r. f.; Roberts, l. f.; Rice, l. g.; Vierl, r. g.

Referees: Fenstermacher and Kurtz. Umpires: Kurtz and Fenstermacher. Length of halves, 20 minutes.

### ALBANY HIGH AGAIN DEFEATS EUGENE HIGH

#### Albany High school once more triumphed over Eugene High school in basketball Saturday night, the score at the end of the game being 46 to 31. The game, which was played in the Y. M. C. A. gym, was interesting and close throughout, but the visitors showed their slight superiority. The lineup of the two teams was as follows:

Albany High—Beeson, f.; Kenard, c.; M. Bigbee, c.; C. Bigbee, g.; L. Bigbee, g.

Eugene High—Dossieus, f.; West, f.; Koch, c.; Hill, g.; Harlow, g.

Referee: Van Marter, umpire.
