When You Buy a Suit

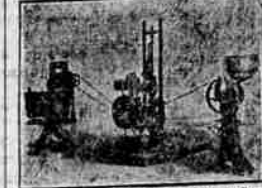

We want you to compare the suits that other stores offer you, with the very unusual values we are showing. Our suits are sold to you now as they have been for the past twenty years, with the guarantee that they are absolutely pure wool. Men looking for individuality in their clothes, for classy suits that are made right, should see our splendid showing.

S. H. Friendly & Co., The Leading Store

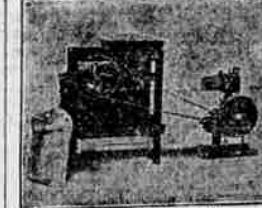

We Want Every Farmer in This Community to Know All About This Wonderful FARM PUMP ENGINE and PORTABLE POWER PLANT

Crowds of farmers have visited our Exhibition Rooms just to see this wonderful Fuller & Johnson Farm Pump Engine about which they have read so much in their farm papers. We want EVERY farmer to come.

We show this engine doing the work just as it does on the farm. We have it hooked up with a force pump and demonstrate how it runs all kinds of hand power machinery. We show how it can be moved about with a wheelbarrow—how it can be attached to any pump in less than five minutes. How easy it is to start and stop—how much work it does on a small amount of gasoline.

Engine Running Washer, Separator and Pump

Running Feeding Mill

Running Grindstone

Works Like a Hired Man at Small Cost

The Farm Pump Engine is a perfect little wonder for work. Cold weather even down to 40 below zero makes no difference with this Hired Man. It pumps water for house, barn or feed yard; runs the cream separator—washes, feeds grinder, etc., in a hurry.

Helps Women Folks The little engine helps the women do the washing in less than one-fourth the usual time. Hooked up with the wood saw it will cut up the winter's fuel supply.

Fuller & Johnson

Farm Pump Engine

Pumps 400 to 1,000 Gallons Per Hour!

All the water you want—water at the right temperature, not too hot—whenever and wherever you want it. The Farm Pump Engine costs less to run than a boiler, some tank heater and insures a reliable water supply for all the needs of the farm.

Just a word about the engine itself. It is a high grade in material and workmanship as best automobile engine. It is perfectly air cooled and self oiled. Cannot freeze or overheat. Tank holds day's fuel. Comes complete—ready to bolt to pump and start to work. No "extras". No cement foundations or special platforms. Needs no belts, jacks, walking beam or traveling arms.

Bring the Family. See this wonderful engine at work. Right now is the time you should get one of these engines. Costs less than a good windmill. Does ten times as much work. Be sure you see this engine next time you come to town.

Chambers Hardware Co.

go from there to Portland and Seattle.

William Landess of Cottage Grove, was in the city over night. Mr. and Mrs. F. A. Rankin have returned from their trip to California.
