

# S.S.S. KILLS THE GERMS OF SCROFULA

Scrofula belongs to the type of diseases known as blood poison, and is a trouble usually manifested in childhood. The ordinary symptoms of Scrofula are swollen glands about the neck, sores and ulcers on the body, scap diseases, skin affections, weak eyes, poor physical development, etc. The trouble being deeply rooted in the blood, often attacks the bones if the poison is not removed from the circulation, and this should be seriously considered in the case of any child who shows symptoms of having scrofulous blood. Some persons who inherit Scrofula reach maturity before the trouble develops, but being bred in the circulation, the disease is bound to show itself in some form. Frequently a debilitating spell of sickness offers a favorable opportunity for the disease to manifest itself. S. S. S. is the greatest of all blood purifiers, and by going down into the circulation, and ridding it of the scrofulous germs, and enriching the blood with healthful corpuscles, S. S. S. cures Scrofula permanently. S. S. S. is a purely vegetable remedy, and is perfectly safe for children. If you or your child have any symptoms of Scrofula, begin the use of S. S. S. at once, and get the disease forever removed from the system. Book on the blood, and any medical advice free. S. S. S. is for sale at drug stores.

street. Mrs. DeWitt and her husband arrived here from Coos Bay lately. They bought the house on the tract and will make their home there.

Joe Devine and his crew of loggers have returned from the Coyote creek, where they have landed a million-foot drive for the Coyote Lumber company.

Dr. L. E. McDougal, who has been ill for a number of weeks, will be able to be down town in a few days if he improves as much as he has during the past week or two.

H. O. Atkins today took out a permit for the erection of a two-story, seven-room residence to be built on Agate avenue between East Thirtieth and East Fifteenth streets.

E. K. Wheeler, of the Eugene Loan & Savings bank, has purchased from the Mozach garage a White sas automobile. Fred Moulten is in Portland now and will be up with the car tomorrow.

A large number of University students who live here, with many others who did not return to their homes during vacation, enjoyed an informal dance at the men's dormitory last evening.

The 6-year-old son of W. Redding, of Marcola, will be brought down from that place on the evening local today to take treatment in the Eugene hospital for appendicitis. An operation may be necessary.

Work on the new Christian church building is progressing very satisfactorily. The exterior presents a handsome appearance, with its white walls of concrete and the magnificent dome. The slate roof is now being put on.

F. L. Chambers has made all arrangements with the Southern Pacific company to build the spur track from the main line to his warehouse sites on High street, and all that is delaying construction work is an order from headquarters.

Some new machinery has recently been installed at the Eugene woolen mill. One set of cards and two more spinning machines have been put in, doing away with the necessity of any night work. The mill is running steadily with a full shift of about 75 hands.

After May 1 the three Eugene banks will not open for business each day until 10 o'clock a. m., closing at 3 p. m., as now. This will give the officials and employees more time outdoors at the same time the public will probably not be inconvenienced by the shorter hours.

The farmer telephone users will meet tomorrow morning at 10 o'clock in the court house to make final arrangements for the organization of an independent exchange here, which they hope to see as a solution of their telephone troubles. The constitution and by-laws of the new phone company have been prepared by local attorneys.

**HERBINE**  
Is the Remedy You Need.  
It is an invigorating tonic for a torpid liver. The first dose brings improvement, a few days use puts the liver in fine vigorous condition. Herbine also extends its restorative influence to the stomach and bowels. It helps digestion and food assimilation, purifies the bowels and brings back the habit of regular daily bowel movements. When the stomach, liver and bowels are active, bilious impurities no longer obstruct functional processes, the result of which is renewed energy, mental activity and cheerful spirits.
