S. P. COMPANY PLAN TO BUILD FROM EUGENE

That is Latest Rumor Which Comes From Marshfield This Week

The first railroad rumor of importance in several days reached here yesterday in the shape of a quotation from the Contractor, a Kansas City publication, that a Kansas City firm had been awarded the contract for building 120 miles of road from Eugene to Coos Bay, says the Marshfield Times. No further details were given and there is a disposition to question its accuracy unless something has been secretly pulled off in the railroad world and a new company is behind the project.

However, there is another story that partly substantiates it and that is that the Southern Pacific has chosen the Eugene route to build to Coos Bay when it does construct a line. A few weeks ago an apparently authentic report reached here that the Southern Pacific had decided to retain the Drain route as against the Eugene route. However, later reports indicate this was erroneous. It is stated on almost unquestioned authority that the Eugene route has been approved by Chief Engineer Hood and his recommendations for that route have been forwarded to the New York officials of the company. This recommendation went forward about three weeks ago so that it is up to the directors for an appropriation for its construction but this appropriation is not expected before the July budget is announced. Further confirmation of the selection of the Eugene route reached here yesterday, when Joe Schilling, who came down from Gardiner, stated that he had been reliably informed that men had been sent to Drain for the removal of the last of the supplies laid in there when the road was first started.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of fault or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as with our fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

NEW HOTELS BUILDING IN JOSEPHINE'S CAPITAL

Grants Pass, Or., April 28.—The hotel Josephine is to be entirely remodeled and an addition 50 by 100 built onto it. In addition O. B. Steward, of Seattle, is building a three-story hotel on the south side of the city which will be modern in every respect, and E. J. McCormick, of Portland, is preparing plans for a hotel of modern equipment on the banks of the Rogue river, which will be in the nature of a resort, with bath houses, boats and launches and tennis courts. When these new caravansaries are completed efforts will be made to have Grants Pass become the Sunday stopping place for hundreds of traveling men in southern Oregon.
