INVESTIGATION CHRONIC TITLEITIS ASKED BY RESOLUTION OF ILLINOIS MEMBER

Washington, June 21.—Investigation of "Chronic Titleitis" described as a disease of "rich, trust-made women" is urged in a resolution yesterday by Representative Sabith, of Illinois, who would have the state department inquire why only two dozen American peeresses have been granted permission to take part in the coronation ceremonies in England and to ascertain the amount this country is sending across the Atlantic annually to maintain titles.

After demanding that light be thrown on the discrimination shown against other American peeresses, the resolution calls for information as to the number of unhappy marriages and the amount of American money being spent in the chase after coronets. The information, says the resolution, is desired so that this government may judge "To what extent our country is being benefitted by this trade."

COMMENCEMENT AT UNIVERSITY IS OVER

Graduating Cass Addressed by President Kane of U. of W. Today

One hundred and thirty-one graduates of the University of Oregon finish their college career today and tomorrow, with the close of the alumni reception, reunions and senior ball, closes the thirty-fifth annual commencement of the State University.

The graduating class was addressed this morning by Dr. Thomas W. Kane, of the University of Washington. Following this and an elaborate graduating program the diplomas were handed to the capped and gowned seniors. Villard Hall was beautifully decorated with solid cedar bough walls, with Oregon grape, and with elaborate roses artistically grouped.

President Kane's Address

President Kane, of the University of Washington, delivered to the graduating class a very practical address or talk, as it were, upon the way to success, and upon the obstacles to success. To begin with he told the class that it was up to them to make their own way. No direction could be given that would result in success—it was merely up to the students as they went out into the world. Success is not like an exact science which cannot be previously calculated, it depends only upon responsibility of the will of the person.

President Kane was very complimentary over the standards of the University of Oregon and its list of graduates. He stated that the man in whom is entrusted the expenditure of half a million dollars a year at the University of Washington, and the man who takes his place as president during his absence, is a university of Oregon graduate. He stated that this man's wife, one of the best workers for the welfare of the students and most liked woman in the University of Washington, is also graduate of the University of Oregon. One of that institution's most prized instructors, President Kane's family physician, and some of the best attorneys in Seattle, are graduates of the University of Oregon.

Last evening was held the prettiest event of its kind ever held on the campus, in the form of a maypole dance, participated in by 50 daintily dressed co-eds. It took place in the center of the great green campus. Proceeding it was held the flower and fern procession, in which 200 girls, representing the four classes, marched about the campus, with armfuls of flowers.

At noon today was held the University dinner to the Alumni. Tables in the men's gymnasium were prepared for nearly 1,000 and the huge banquet, which was served by the co-eds, lasted well into the afternoon. This evening the Commencement festivities close with the reception and ball in the men's gymnasium.

PURSUERS CLOSE UPON TRAIL OF ROBBERS

The Men Who Robbed Shasta Limited Are Hard Pressed by Posse

Drain, Or., June 21.—The indications today are that the posse which has been pursuing the two masked men who robbed the mail car of the Shasta Limited train last Friday night are getting close upon their quarry. Two ranchers in the mountains near Yoncalla have been missing since Friday. Search of their premises shows guns and ammunition known to be in their possession are missing. SPANISH WAR VETS ORGANIZE CAMP GEN. SOMERS

Charter Membership of 21 and Prospects for Greater Increase Soon

Once more the Spanish war veterans of this city have organized a camp and this time it is believed that the organization will be permanent. Two or three times during the past few years an organization has been effected but through lack of interest on the part of the members the charter has been lost.

R. C. Elbert, national aid-de-camp, a member of Scout Young camp of Portland, has been working among the local veterans and has succeeded in securing a charter list of 21 members. Organization was perfected at the O. N. G. armory last night and officers were elected as follows: A. W. McLaughlin, commander; Leonard L. Simpson, senior vice commander; Thos. W. Munroe, junior vice commander; Geo. E. Miller, officer of the day; R. A. Rabb, officer of the guard; Creed C. Hammond, Elmer O. Roberts and C. C. McCormick, trustees for three, two and one year terms respectively. Other officers as follows are to be appointed by the commander: Adjutant, quartermaster, chaplain, historian, surgeon, sergeant-major, quartermaster sergeant, color sergeants and musicians.

At the meeting last night A. W. McLaughlin acted as chairman, James R. Veitch, clerk, and William G. White was appointed treasurer. The sum of $2 was fixed as the initiation fee.

A committee consisting of R. S. Huston, T. W. Munroe and Creed C. Hammond was named to arrange for a date for the institution of the camp and Roberts, Russell and McCormick were named as a committee on by-laws.

The name chosen was Camp General Somers, in honor of the late General Owen Somers, who was colonel of the Second Oregon volunteers in the Philippine Islands.

Besides the 21 charter members of the camp there are a large number of the young veterans in Eugene and Lane county and the membership of a hundred or more can be secured. It is probable that the new camp will grow rapidly.

AUTO TRIP FROM SAN DIEGO TO SPOKANE

Southern California People Taking Their Time and Enjoying Themselves

From San Diego to Spokane in an automobile is a trip undertaken by C. A. White and family with L. M. White, of San Diego. The party passed through Eugene this afternoon expecting to make Albany this evening. This is one of the first autos to make the trip along the entire length of the coast this year. They have traveled over 1600 miles since May 30, the date they started, and and have met with no misfortune other than two punctures. They are traveling leisurely and are stopping at the various resorts and places of interest which they pass.

The roads in southern Oregon, Mr. White declared today, are bad. He says the worst part of the whole trip is between Drain and Cottage Grove, where there is almost no road at all. He said: "We thought we had had roads in northern california, but when we got into Oregon, we wished we had some of the California bad roads."

Miss Myrtle Pease, traveling representative of the Boys' and Girls' Aid society of Portland, arrived in Eugene this afternoon.

New York, June 21.—President Taft this morning sent to Washington a special message which will be presented to congress probably today, recommending an amendment to the pure food laws.
