**HERBINE**  
Is a Powerful Chills and Liver Regulator.

It puts the liver in healthy, vigorous condition and cures the chills by destroying the disease germs which infest the system. Herbine is a fine antiperiodic medicine, more effective than the syrupy mixtures that sicken the stomach, because it not only kills the disease germs, but acts effectively in the liver, stomach and bowels, thus putting the system in condition to successfully resist the usual third or seventh day return of the chills. Herbine is a cleansing and invigorating medicine for the whole body.

Price 50c per Bottle.
