

# S.S.S. CURES OLD SORES

Every person afflicted with an old sore realizes, sooner or later, that the ulcer exists because of bad blood; the character and condition of the place depending on the nature of the blood infection. Virulent impurities in the circulation produce angry, discharging ulcers, while milder, inert germs are usually manifested in the form of indolent sores or dry, scabby places. External treatment can never cure an internal trouble, therefore no one should depend upon salves, washes, lotions, etc., alone to cure a chronic sore. It is necessary to remove the cause before the place can heal. S.S.S. heals Old Sores by going down into the circulation and removing the impurities and germs which are responsible for the place. In addition to purifying the blood S.S.S. enriches this vital fluid so that the irritated flesh around an old sore is naturally and thoroughly stimulated, and a permanent cure results, because every morbid influence has been removed. S.S.S. is the best of all blood purifiers and therefore a natural remedy for old sores. Book on Sores and Ulcers and medical advice free. S.S.S. is sold at drug stores. ## BUILD NEW WHARF AT FLORENCE

Increased Shipping Calls for More Facilities—Local News Notes.

Wm. Kyle & Sons Co. will commence work in the near future on a wharf on their lots just east of the Oregon & California Lumber Co's mill. The increased commerce here makes this necessary as for some time past there has hardly been room enough at the docks here, and the Tillamook and other new boats making this point will need a place to land.

The W. O. W. lodge here enjoyed a banquet after their session on Tuesday evening in honor of Messrs. John Bartels, Chas. Van Denburg, C. F. Coffman, Ben Emerson and Frank Hambrick, visiting Woodmen from Cottage Grove. The visitors are well pleased with the country here, and found the cool breezes at Heecta a pleasant relief after the excessive heat of the month in the Willamette valley.

Mrs. H. M. Peterson entertained about 45 young people from Florence and North Fork at her home near Minerva Wednesday evening in honor of Miss Esther Eagle of Portland who is spending the summer with her. The house was tastefully decorated in ferns and sweet peas. Games were played during the evening, and delicious refreshments were served.

The Glenada-Gardiner road has been opened so that it is now possible for teams to make the trip via Maple Creek and Fiddle Creek instead of going around by the beach route. Mr. Smiley, who had charge of the work drove the first team over the road this week. It is a much needed improvement.

Mrs. Carson arrived on Saturday's boat to join her husband who recently engaged in the Jeweler's trade here.

Mr. McKinney and family who came here a few days ago from Wendling say they like Florence and its people, well so far.

A large party including Mrs. H. H. Pink and daughter of Mapleton, Mr. Whitaker and family of Waton, Mr. Mead of Indian Creek and several others came in Wednesday from Heecta where they had been camping.

Messrs. Chas. Van Denburg, C. T. Coffman, Ben Emerson and Frank Hambrick of Cottage Grove made up a party who visited Florence this week.

Dr. Southwick and son, formerly of Spokane, Wash, drove in from Eugene and were on the North Fork the first of the week in search of a location.

A party consisting of Wm. Wakefield and family, Reb. B. H. Baker and daughter, Miss Byrd, and Miss Olive Behnke, went to Heecta Monday for a few days' outing.

Mr. and Mrs. Marion McClain who walked in from Eugene, arrived in Florence Saturday morning and con-

## NEW RESIDENTS

PLEASED WITH CITY. Mrs. Mitchell Gives Impressions of Eugene in Letter to Paper.

Mrs. Myra Mitchell in a letter to The Times from Eugene, where she and Mr. Mitchell have located, says: "So far we have found Eugene a very pleasant town. We had difficulty in finding a suitable house as there are few moderate priced houses for rent. Living expenses will average about the same as in Marshfield. Real estate agents are as thick as flies and every one has a first class 'bun' for you. A current street report has it that people are leaving Eugene who would have located here, could they have found suitable homes for rent."

"So I suppose the 'boom' has begun. The people all seem prosperous and the place seems the ideal spot of a quiet, college town, and a growing western city, with the growing element predominant."

"I used to think Eugene Bay could be poor stuff, but wish I had a winter supply here now. Every one I have met seems to be cooking and wood for heating."

"But the one thing we miss more than any thing else is Marshall Carter. He'll be seen the side walks while pedestrians have to give way or be run over."

"We don't miss the saloons because we lived so long in Kansas." —Marshfield Times.

No "bitter taste" in biscuits made from Cleveland's Baking Powder. Why? Because it does not contain Alum like the cheap egg phosphate baking powders.

Mr. and Mrs. Seth Laraway spent Sunday at Newport.

NOTICE OF FINAL SETTLEMENT. Notice is hereby given, to all whom it may concern, that the undersigned administrator of the estate of Nicholas Feldwert, deceased, has filed his petition and final account with the clerk of the county court for Lane county Oregon on the 15 day of August, 1911, asking said court to make an order fixing the time and place for hearing objections to said final account, and the court on the 21 day of August, 1911, issued an order fixing the 25 day of September, 1911, at the hour of ten o'clock in the forenoon as the time, and the county court room in the Lane county court house as the place for hearing objections to said final account, and to show cause if any, why said final account should not be accepted and allowed, said estate closed, and said administrator discharged.

Date of first publication this 21 day of August 1911.

## Drifted Snow Flour

It is manufactured especially for home baking and contains the largest per cent of gluten and phosphates, the very properties the body needs to make it perfect. It is milled from choicest Washington wheats carefully blended in a scientific manner. We have our own laboratory for testing wheats and also our own bakery where we make numerous daily baking tests of the day's run. This insures uniformity in quality. It is stronger bodied than other flours, and for this reason remember to use more water than in making up ordinary flours, and knead well. Remember when you order flour from the grocer don't simply say, "send me a bag of flour"—instead be sure and say—Send me a bag of DRIFTED SNOW FLOUR.

# We can help you make your Dining-room attractive

A pleasant, cheerful, well-furnished dining-room is an aid to good digestion, as well as an influence for good humor. In late years it has become as much a matter of importance to furnish your dining-room in impressive friendly furniture as it is to furnish your parlor or living-room attractively.

We are at the present time showing dining-room furniture in single pieces or in suites in Oaks of different finish. We have Tables, Chairs and Buffets, and heavy Serving Tables in waxed Oak finish. Some of these pieces are massive in construction, having an air of substantiability and endurance and, in fact, the furniture will last for generations with ordinary care. Then again, we are showing some very attractive and handsome sets and single pieces in the Early English Oak. These are constructed on very popular Mission lines and contain grace and charm that will add considerably to the attractiveness of any home.

This furniture can be purchased at prices that are inexpensive when the quality of goods are considered.

We would ask you to step into our warerooms and let us show you this unusually attractive dining-room furniture.
