## NEARLY ALL COUNTIES WILL VOTE FOR BONDS WOMAN'S PARTY WILL ORGANIZE IN OREGON FOR NATIONAL ISSUE

### Commissioner Adams Says Baker, Linn, Lane and Curry Are Possible Exceptions.

"I do not think there is any question but that the \$8,000,000 road bond issue will carry in every county in the state with the possible exception of Baker, Linn, Lane and Curry," E. J. Adams, member of the state highway commission, stated today upon his arrival home. Mr. Adams has just completed the first lap of a campaign for the bonds in which he visited practically every county in the state.

### Suffrage Workers From East Come to Eugene for Purpose of Perfecting Organization in Congressional District.

Woman's party workers will travel over the state in motor cars during the next few weeks to organize the women of Oregon in connection with the campaign for national woman's suffrage, according to an announcement made here today by Miss Margery G. Ross, of Pittsburg, who with Miss Margaret Whittemore, of Detroit, have just completed a similar campaign in California. The party is accompanied by Miss Clara Wold, of the Spectator staff, of Portland, and Miss Sallie Hart, also of Portland.

Commissioner Adams left Eugene for Cottage Grove where he was scheduled to meet C. E. Spence, master of the state grange, in a debate on the bond issue this afternoon. Tonight he will speak at Creswell. His schedule of speaking dates for the bonds up to and including June 1, has been completed. Tomorrow night he will speak at Newport. Wednesday afternoon he is billed for an address at Toledo and Thursday afternoon at Yamhill. Saturday he will address three meetings at Arlington, Condon and Fossil, morning, afternoon and evening, in order named. He will speak at McMinnville, May 29 and at Oregon City, June 1.

The woman's party proposes to form an organization in every congressional district in Oregon, according to Miss Ross. The campaigners spent the day in Salem Saturday and came to this city this morning to perfect an organization among the women of this city. Through these organizations scattered throughout the country it is proposed to bombard the representatives in congress with communications in favor of national woman's suffrage from their home districts.

## EMPLOYMENT AGENCY IS OPENED IN EUGENE

### N. S. Robb Ready to Secure Men for Farmers Who Give Necessary Facts.

Employment agency for the benefit of workmen and Lane county farmers has been opened by N. S. Robb, county agricultural agent. The office is working in connection with employment bureau in Portland.

Miss Ross said that the members of the woman's party believe that President Wilson is looking more favorably upon their cause than ever before, and cite that upon his suggestion a special suffrage committee has been created. She said that the suffrage forces in the east are very hopeful that congress will pass the bill at the present session as a war measure.

Approximately 50 men are needed at once by Lane ranchers, according to Mr. Robb. Farmers wishing to take advantage of the bureau here should state the wages they are willing to pay, the kind of work and the length of period.

## EUGENE IS SHIPPING SQUABS TO CHICAGO

### Plant of Ira Rebman Is Producing Eight to Twelve Dozen Pigeons Each Month.

Eugene-raised squabs are being marketed in Chicago. Ira Rebman several months ago decided to go into the pigeon business on a scale sufficient only to provide squabs for the family table. He found prospects for the squab business good and extended his plans until he now has 400 pigeons and is marketing between eight and nine dozen squabs a month. Last week he shipped four dozen squabs to the Chicago market and expects to make regular shipments of birds not required by markets nearer home.

## President Given Power to Control Food Shipments

(By The Associated Press) Washington, May 21.—Favorable report on the administration bill to give the president broad powers as to preferential shipments of food, munitions and other war traffic, was made today to the house. The report says the bill is "Germane to the earnest effort we are making to utilize to the highest state of efficiency during the war the transportation facilities of the country to promote the efforts of the administration to carry on the war by requiring preferential shipments of all freight which, in the judgment of the president, is essential to the public security and defense."

The pigeons are housed in quarters with more birds to the square yard than possible in handling chickens. In a pen ten feet square with a yard of similar size, 51 pairs are confined. These pens are constructed according to the latest scientific ideas and the nests are arranged in a series of from five to seven stories. The 51 pairs of birds in this coop have 45 nests in which there are either eggs or young. Some of the pairs have two nests, one with eggs and another with young birds just about old enough for the table.

The section as to the movements of transportation, the report explains "has no reference, as has been erroneously stated in some quarters to any disputes between carriers and their employees."

## If You Suffer From Catarrh

don't make the fatal mistake of regarding it as a trifling matter. Authorities agree that Catarrh is an infection of the blood. Consequently, sprays, salves and lotions can afford only temporary relief, because they do not reach the source of the disease—the blood. When you depend on these temporary remedies alone your case is likely to grow steadily worse until it becomes chronic and possibly affects the lungs.
