AGE LIMITS FOR REGULARS CHANGED

Men From 18 to 40 to Be Accepted in Regular Army Under New Law.

The age of voluntary enlistment in the regular army has been changed by the bill approved May 18, to include men from 18 to 40 years, thus giving men between the ages of 18 and 21 and 31 and 40 to serve their country under the flag. Aliens not subjects of enemy country are eligible to become soldiers in the regular army without declaring intention to become citizens of the United States. Ability to speak the English language is the only qualification. They will be enlisted for emergency period unless sooner discharged. Their pay is also increased. The local United States army recruiting office has received a letter stating that the aviation section, signal corps, has been closed, and men possessing the qualifications for that branch are requested to enlist in the engineer corps. The recruiting office also wishes to emphasize the fact that the regular army is the only volunteer force accepting volunteers to be discharged at the end of the war. It is also thought that under selective conscription the men drawn will not be allowed to choose their branch of service.

The Tin Can Menace

Boxes, barrels and sacks of tin cans. Oceans and wagon loads of tin cans. The shame is great. A THIRTY HOUSE-WIFE In front of the house of a prominent citizen an observation was made of his collection of tin. Mostly coffee cans. No fruit, corn or bean cans, in his pile. Next door a man working by day wage. His pile of tin cans indicated that corn, tomatoes, beans, etc., that should have been canned at home had been bought at the corner grocery, two for a quarter. A great economic waste. Tons of vegetables and fruit went to waste last year and people lyled out of tin cans and paper sacks. Can your fruit and vegetables at home this year. Conserve and save the food supply. It will also help to build up your bank account with us.
