PROHIBITION CONTEST IS NOW COMPLICATED

Senate Committee Rejects Chamberlain Compromise and Agrees to Gore Substitute.

(By The Associated Press)
Washington, July 2.—The senate contest over prohibition was complicated somewhat today when the agriculture committee endorsed Senator Gore's substitute stopping distillation of beverages and giving the president authority to suspend manufacture of beer and wines. The administration compromise of Senator Chamberlain was rejected by the committee. Despite the committee's action, administration leaders planned a contest in the senate to prevent giving the president any power to stop production of beer and wine and believed they would be successful, although, it is absolutely necessary, many of them are willing to accept the Gore plan. The agriculture committee stood six to five on the Gore substitute and eight to four against the Chamberlain amendment. The committee is composed largely of those with prohibitionist leanings. Senator Sheppard of Texas told the committee the president would not object to receiving authority regarding beer and wines. The statement was made upon authority of Postmaster-General Burleson. The Gore substitute would give the president power to fix the alcoholic content of the light beverages. The general understanding in the committee is that should congress give the president power to stop brewing and

wine making he does not propose, for the present, at least, to exercise it.

NO TIME FOR VACATION

Washington, July 2.—Announcement was made today at the White House that President Wilson does not expect to take a vacation this summer, but plans to remain in Washington whether congress adjourns or not. The president may take short trips down the Potomac river week-ends on the Marylander.

AMUSEMENTS

The announcement that D. W. Griffith's "Intolerance" which the leading dramatic critics of this country have acclaimed the most stupendous as well as the most magnificent spectacle ever produced, has been booked by H. F. Holtenbeck for the Eugene theatre for July 3 and 4, ought to be welcome information for local playgoers. The theme of this latest achievement, which it is said sets a standard of colossal production which even Mr. Griffith may never be able to excel, is Love's

struggle throughout the ages. The scenes are laid in four ages of the world's development; Ancient Babylon; the Nazarene's Judea; Medieval Paris and a modern American city. Among the film favorites having the principal roles are: Mae Marsh, Miriam Cooper, Constance Talmadge, Seena Owen, Lillian Gish, Robert Herron, Alfred Paget, Walter Long, Bessie Love, Margery Wilson and Elmer Clifton. As evidence of its popularity, "Intolerance," supplemented its six months run in New York by long engagements in Chicago, Philadelphia, Pittsburgh, San Francisco and Los Angeles.
