

Hair Often Ruined by Washing With Soap

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and grassless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

The Man With A Job

Wages, no matter how good, will never get you anything but board and clothes if you spend them all.

No wage earner ever gets anywhere till he puts by a little.

You can't make money except by buying for a profit and you can't buy without money.

And unless someone stakes you you can't get money without saving from your wages.

Someone has said if you don't get \$1000 by the time you're 35 your prospects after that are slender.

A monthly deposit of \$10 in our Savings Department will amount to a considerable sum in 10 years.

This is a better tip than you'll get on the stock market.

DAIRY EXPERT HERE ON WAY TO FLORENCE

E. L. Westover, of the dairy extension department of the Oregon Agricultural college, was in the city Tuesday forenoon on his way to Florence to inspect the work in the Smith River and Siuslaw Cow Testing association. Mr. Westover had just completed an inspection of the work of the Junction City testing association, and reports satisfactory work. L. N. Ross, the tester for the Junction City association, was with Mr. Westover. Mr. Ross reports 370 head tested this month. There are also a number who signed up for the Junction City association who have not had their cows tested because they were many of them nearly dry and they wish to wait until more are fresh.

Those who are testing cows are reported as well satisfied with the results and find that it is the only way to weed out the "star boarders" in a herd.

Mr. Westover expects to spend three or four days on the coast.

CITY DEBT REDUCED \$45,508.51 DURING PAST THREE MONTHS

Quarterly Report of City Treasurer Stickels Shows City Debt of \$1,422,614.57, Outstanding June 30, 1917.

The quarterly report of City Treasurer Fred G. Stickels, which was presented to the city council Monday night, shows a total reduction in the city indebtedness of \$45,508.51. Of this amount \$11,258.51 is registered warrant debt; \$15,500.00 is city bonded debt; and \$18,750.00 is payment on Eugene water board contract. There is still outstanding a total debt of \$1,422,614.57, with \$148,250.95 cash on hand.

The following is a detailed statement: Registered warrant debt reduced since last report, March 31, 1917, \$11,258.51. Bonded debt reduced since last report, March 31, 1917, \$15,500.00. Eugene water board contract reduced since last report March 31, 1917, \$18,750.00.

Total reduction \$45,508.51. Comparative Statement. Total debt March 31, 1917, \$1,468,123.08. Total debt June 30, 1917, \$1,422,614.57.

Total reduction as above \$45,508.51. Cash balance March 31, 1917, as city treasurer, \$80,933.21. Cash balance March 31, 1917, as treasurer W. B., \$75,687.72.

Total \$156,620.93. Cash balance June 30, 1917, as city treasurer, \$73,852.81. Cash balance June 30, 1917, as treasurer, W. B., \$74,398.14.

Cash balance reduced \$8,309.98. Bond and Warrant Debt Statement.

Following is the statement of the bond and warrant indebtedness of the city and the water board:

Sewer bonds outstanding, \$188,000.00. Refunding bonds outstanding, \$195,000.00. Paving bonds outstanding, \$90,000.00. City hall site bonds outstanding, \$15,500.00.

City hall bonds outstanding, \$40,000.00. Armory bonds outstanding, \$25,000.00. Water bonds outstanding, \$454,000.00.

Electrical lighting bonds outstanding, \$25,000.00. Light, power and water bonds outstanding, \$57,000.00.

Bancroft bonds outstanding, \$232,300.00. Registered warrants—

General fund, \$22,514.76. Road and street fund, \$476.62.

I. B. interest fund, \$14,583.09. Transient fund, \$240.19.

Total \$1,377,614.57.

Contingent liability of Eugene water board with O. P. Co., \$45,000.00.

Grand total, \$1,522,614.57.

Debt carried by the city of Eugene, \$934,855.02.

RECRUIT MEN FOR FOREST REGIMENT

Organization Will See Service in France After Brief Period of Training.

Enlistment of woodmen and mill workers for the Tenth reserve engineers (forest) began today in Oregon and Washington. District Forester George H. Cecil, of Portland, is in charge of recruiting. Applicants may be listed at the office of Clyde R. Seitz in Eugene.

Eight applications for admission to this regiment had been received at the Eugene forest office at noon today. Men listed by the forest service go to any United States army recruiting officer, where they are accepted as recruits if they pass the physical examination, which is the same as that required for other military service.

The regiment is being recruited for service in France. After enlistment men will be fed and clothed by the government and will receive monthly pay of from \$30 to \$51 while in training at home and \$33 to \$60 monthly when in foreign service.

To Go to Danger Zone.

Recruits must be white, between the ages of 18 and 40 years, and must be citizens of the United States or have declared their intention to become such. Men subject to conscription will discharge their obligation by enlisting in this regiment. All applicants are given to understand that this is a military organization; that they must undergo the customary drill and discipline of United States soldiers, and that they may be called upon to do work within the danger zone.

Picked woodmen will compose the regiment—men who will be given a chance to take the part in the war for which their life and training have fitted them. Places are open for skilled axmen, sawyers, the hewers, skidders, teamsters, and blacksmiths. Millwrights, sawyers and engineers are needed to man portable sawmills which will form part of the equipment; helpers are required for the various activities connected with woods operations and the maintenance of large camps.

To Go Abroad Soon.

The regiment will be made up of six companies of 104 men each, aside from battalion and regimental staffs, drivers, and commissioned officers. It will be sent overseas as soon as organized, trained and equipped. It will first be assembled at two training camps, the regimental headquarters and one battalion at the American University, Washington, D. C., and one battalion at Fort Leavenworth, Kansas.

FORESTS ARE DRY EARLY IN SEASON

Notwithstanding the fact that there has been no rain of consequence in the Cascade National forest for more than a month, there have been no fires, according to an announcement made at the office of Forest Supervisor Clyde R. Seitz. This it is believed indicates that the timber has not yet reached an extremely dry state and that campers are exercising great care with their fires. There are now 20 guards on duty in the Cascade forest and an additional force of 15 men will be put on duty August 1, the date on which the fire season normally opens. In the event that the fire danger should become serious before that date, extra men will be called for service when needed.

D. Z. Worley, of Wendling, was in Eugene Monday.

NEARLY ALL OREGON CROPS GIVE PROMISE OF INCREASED YIELD

Federal Government Reports for State Shows Larger Production With Price Doubled for Some Commodities.

The government crop dealing with conditions in the state of Oregon forecasts a shortage in the production of winter wheat and oats and an increase in spring wheat, barley, potatoes, all hay and apples. The report is dated July 9 and shows prices paid July 1 this year as compared with prices on the same date last year on many commodities have doubled.

Winter wheat—July 1 forecast, 9,300,000 bushels; production last year (December estimate), 13,340,000 bushels.

Spring wheat—July 1 forecast, 6,340,000 bushels; production last year (December estimate), 6,210,000 bushels. Oats—July 1 forecast, 15,000,000 bu.; production last year (December estimate), 17,280,000 bushels.

Barley—July 1 forecast, 6,350,000 bu.; production last year (December estimate), 5,390,000 bushels.

Potatoes—July 1 forecast, 5,300,000 bushels; production last year (December estimate), 8,250,000 bushels.

All hay—July 1 forecast, 2,250,000 tons; production last year (December estimate), 2,175,000 tons.

Apples—July 1 forecast, 1,300,000 barrels of 3 bushels; production last year (December estimate), 1,285,000 barrels.

Last year about 40 per cent of the total state crop was estimated to be "commercial" (shipped out of the country where grown). This year about 35 per cent of the state crop is estimated tentatively to be "commercial."

The first price given below is the average on July 1, this year and the average on July 1 last year.

State: Wheat, \$1.83 and 82 cents per bushel. Corn, \$1.54 and 55 cents. Oats, 68 and 42 cents. Potatoes, \$2.61 and 82 cents. Hay, \$15.00 and \$11.40 per ton. Eggs, 29 and 23 cents per dozen.

United States: Wheat 22.01 and 93.0 cents per bushel. Corn, 10.48 and 75.4 cents. Oats, 68.9 and 40.4 cents. Potatoes, 247.9 and 102.3 cents. Hay, \$14.56 and \$12.00 per ton. Eggs, 28.3 and 19.7 cents per dozen.

PERSONALS

J. S. Flint, of Junction City, was at the Smeed Tuesday.

W. G. Smith, of Turner, Or., was in Eugene Monday night.

E. K. Wheeler went to Portland Monday evening on a business trip.

Mrs. M. J. Mears, of Sheff, was registered at the Griggs Tuesday.

Mrs. Jessie L. Fisk, of Mapleton, was registered at the Griggs Monday.

C. E. Stuart, of Cottage Grove, was registered at the Smeed Monday.

W. H. O'Reilly, of Florence, was registered at the Griggs Monday night.

P. O. More, of Creswell, was in Eugene on business Monday and Tuesday.

Miss Estelle Raugh and Miss Josephine Nibler were Creswell visitors Tuesday.

Mrs. Ada Howett, a graduate nurse of this city, left for Portland, Saturday, to remain.

Mr. and Mrs. C. E. Merrill, of Portland, were Eugene visitors Monday and Tuesday.

W. R. Weisel and H. Hatch, of Kennebec, were in Eugene on business Monday and Tuesday.

Mrs. Vivian Garton, of Marshfield, has returned home after a visit with her father, S. W. B. Haynes.

Mr. and Mrs. Otto Gilstrap went to Portland Monday. Mrs. Gilstrap will attend the National Educational association meeting there.

J. Henry Booth, of Roseburg, is visiting at the home of his brother, R. A. Booth, in this city.

R. L. Pearson, of Rochester, Minn., left for that place Monday after a visit in this city with C. A. LeVan and family.

Frank S. Buck and John H. Buck, of Portland, were in this city Monday. Frank Buck is a director of the Booth-Kelly Lumber company.

Abbott Adelman, head of St. Benedict's college at Mt. Angel, was in Eugene Monday visiting Fathers Moran and Carley, of this city.

Elmer Paine, cashier of the United States National bank, went to Portland Monday night to meet Mrs. Paine, who is spending a few days in that city.

Vance Trout and Hugh McCallum left Tuesday for Portland where Mr. Trout will work during the summer and Mr. McCallum will visit for a few days.

NAVAL ORANGE CROP IS BURNED BY HEAT

Letter From Southern California States Loss Sustained by Growers Will Be Enormous.

The southern California naval orange crop has been destroyed by extremely hot weather, according to a letter received here by Dr. Mary Fowler Thompson from her sister, Miss Nellie Fowler at Redlands, Cal. They are jointly interested in an orange grove. The letter states that the young fruit was burned on the trees by a scorching wind that blew for three days.

The seedless crop in southern California the letter states, is a total loss and as this represents the greater part of California's orange crop, the financial loss to the growers will be enormous. The late varieties of oranges with seeds have not been injured, it adds.

The letter in part is as follows:

"Prepare to receive a good sized blow unless you have already received it from some other source, thus softening the stroke from us. Our next year's orange crop is a total loss. Southern California has had a taste this time of 'the fiery furnace' instead of 'Jack Frost.' The hot spell two or three weeks ago cooked the tiny young oranges of the naval crop, Valencia and St. Michaels, all late varieties, seem to be all right. You may wonder why I, or some one, did not write this a week or two ago. Not until last night have I seen one word about it in any paper and only by hearing a conversation after writing your last letter did I hear any word about it. The ranchers were not sure, you see, for quite a while just what would happen, so kept mum and hoped, but it is a sure thing now. You have no idea of the burning, scorching, almost wind of flame of those three days."

The letter continues stating that there will be no naval oranges until the winter of 1918-19 and that orange growers are talking seriously of planting beans and potatoes between the rows of trees.

MARRIED

TSCHANZ-COLE—At the home of the bride's parents, Mr. and Mrs. S. E. Cole, 751 Seventh avenue west, July 7, 1917, Herman C. Tschanz and Effie May Cole, Rev. G. H. Parkinson officiating.

MICHAEL-LUTHER—At the home of Miss Margaret Morris at Springfield, July 7, 1917, Rafe A. Michael, of Portland, and Thille E. Luther, of Springfield, Rev. J. T. Moore officiating.

I. W. W. ACTIVITIES TO BE INVESTIGATED

District Attorney Clarence L. Reams in Eugene on Way to Coos Bay Region.

United States District Attorney Clarence L. Reams, of Portland, left Eugene at noon today for Coos Bay to make an investigation of I. W. W. activities in that section of the state.

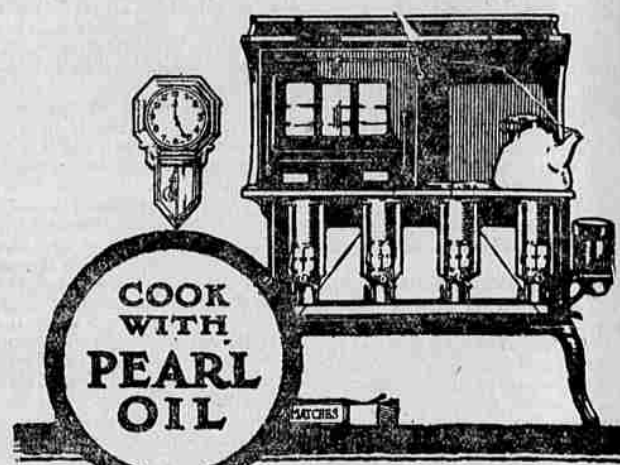

Mr. Reams said that he believed that the I. W. W. outbreaks in various parts of the United States at this time are being inspired and financed by agents of the German government. The activities of that organization menace the interest

of the United States at this time and government is determined to stamp it out, he stated.

According to advices received by Reams the I. W. W. agitators are responsible for the strike of lumber workers on Coos Bay. He has also heard the circulation of seditious circulars that part of the state.

Soldiers Drowned in Rio Grande at El Paso

El Paso, Texas, July 10.—Private Martin L. Deltz of States Land, New York, was drowned and ten others had a battle for life in the waters of the Rio Grande today as a result of the effort of a military guard at a foot bridge near to keep it from being destroyed by destruction of logs borne down by current.

CONVENIENCE

All the convenience of gas. No waiting for the fire to burn up. Meals in a jiffy, and a cool kitchen all the time.

Bakes, broils, roasts, toasts. Better cooking because of the steady, evenly-distributed heat. More convenient than a wood or coal stove for all the year 'round cooking—and more economical.

The long blue chimneys prevent all smoke and smell. In 1, 2, 3 and 4 burner sizes, with or without ovens. Also cabinet models. Ask your dealer today.
