

PEACE FOUNDED ON RIGHT OF ALL PEOPLES, IS AIM

Premier Ribot of France in Chamber of Deputies Replies to Dr. Michaelis, German Chancellor.

(By The Associated Press) Paris, Aug. 1.—Premier Ribot replied in the chamber yesterday to the declaration made Saturday by Dr. Michaelis, the German chancellor, that there was a secret treaty between France and Russia having in view plans of conquest.

"I wish to reply to the singular speech which Dr. Michaelis thought fit to invite the Berlin journalists to hear. The German chancellor publicly commanded the French government to declare whether in a secret session June 1, the French government had not made known to the chamber of deputies the terms of a secret treaty made before the Russian revolution whereby the emperor bound himself to support French pretensions to German territory on the left bank of the Rhine.

"The chancellor's version contains gross inaccuracies and absolute lies, notably regarding the role he attributes to the president of the republic in giving an order to sign a treaty unknown to Premier Ribot. The chambers know how things passed. M. Doumergue (premier and foreign minister) after a conversation with the emperor, demanded and obtained M. Briand's authorization to take note of the emperor's promise to support our claim to Alsace-Lorraine and to leave us free to seek guarantees against fresh aggression, not by annexing territories on the left bank of the Rhine, but making an autonomous state of these territories which would protect us and also Belgium against invasion.

Yes we want Poultry, Veal, Hogs and Eggs at top prices. EUGENE FRUIT CO. Telephone 905

Walsh's Great orthern Drama The Silent Lie Featuring Expulsite Mirlam Cooper Miss Cooper has the distinction of having played in such productions as "Intolerance," "Birth of a Nation" "The Honor System" and now in "The Silent Lie" Musically Interpreted by TESS O'BRIEN An Our Organ Our Usual Comedy Will Open the Show TODAY Aug. 1

letters exchanged February, 1917, at Petrograd and falsified as his most illustrious predecessor falsified the Ems despatch. Whenever the Russian government is willing to publish these letters we have no objection. "The chancellor refrained from speaking about my declaration March 21 wherein I repudiated in France's name any policy of conquest and annexation by force. He has wilfully forgotten my language May 22 in the chamber saying we were ready to enter into conversation with Russia as to the object of the war and if the German people whose right to live and develop peacefully we do not contest, understood that we wished peace founded on the right of people, the conclusion of peace would thereby be singularly facilitated.

"Finally the chancellor passed over in silence the resolution unanimously voted after the June secret session. "Here Premier Ribot read from his speech in the chamber warning against those who wished to spread the conviction that France was seeking conquest and read the terms of the resolution adopted by the chamber at that time declaring that peace conditions must include the liberation of territories occupied by Germany, the return of Alsace-Lorraine to France and just reparation for damage done in the invaded regions. The resolutions also favored the creation of a league of nations for the maintenance of peace.

"Who now dare say to the world that we wish annexation?" continued Premier Ribot. "Such maneuvers are too crude to deceive anyone, especially the democratic masses of the Russian people, who it is vainly being tried to separate from their allies by deceiving them as to the true sentiments of French democracy. What is the chancellor seeking? He is trying to hide the embarrassment which he feels in defining Germany's objects of war and conditions whereon she would make peace. He is trying especially to turn aside attention from the terrible responsibility weighing on the conscience of the kaiser and his counselors."

WILL BE READY SOON TO RECEIVE GRAINS

The work of installing the machinery in the Grangers Eugene Warehouse is progressing. The bins have been completed and the cupola has been built. The elevators are now being installed. While it is uncertain just when the warehouse will be ready to receive grain it is expected that it will be within two weeks. Work has been received from Portland that firms there are ready and anxious to take all the grain that can be shipped there. 5000 standard 100-pound bean bags have been received. Large signs now adorn the building telling the public what business is now conducted there.

RAILROAD PROFITS SHOW BIG INCREASE

(By The Associated Press) Washington, Aug. 1.—Preliminary returns of railroad earnings to the interstate commerce commission, covering approximately one-third of the railroads, show an increase in net revenues for the month of July of nearly ten per cent over June, 1916, the most marked increase of recent months. Earnings of 68 roads are shown. Operating revenues increased almost one-sixth over June, 1916, totalling \$142,173,000. Operating expenses increased from \$80,000,000 in June, 1916, to \$95,682,000 leaving net revenues from railroad operations of \$46,491,000 as compared with \$42,378,183 a year ago. Net revenues per mile shows an increase of \$8, rising from \$501 in June, 1916, to \$540. The roads for the eastern district, for the first time since February show an increase in net revenue over the same month a year ago, net revenues having increased from \$18,800,078 to \$19,104,284 within that period. Western railroads showed an increase in net revenues of \$3,000,000 or nearly twenty per cent over June, 1916.

TO SET ASIDE DEED H. E. Slattery brought suit in the circuit court Wednesday to set aside a deed given to lands in Lane county by Helen Stubblefield to her daughter, Mary Edmondson, alleging that the deed was made to defraud the plaintiff.

MORE MEN ARE NEEDED OF ENTIRE COUNTRY

Dean D. W. Morton Tells of Conditions Encountered During Long Trip Through East.

Dean D. W. Morton returned Tuesday morning from the east where he spent the past seven weeks. When seen Wednesday Dean Morton stated that conditions are good in the east. The country is prosperous, and the main need is for help and good help.

The only industry which is not flourishing, he stated, is the automobile business. The demand for pleasure cars is falling off rapidly. Commercial cars are holding their own and most truck factories are running at full capacity. The demand is such that the factories have some of them offered to advance fare to reliable men in the west, if they will come east and take situations.

Crop conditions are much more favorable than here, there being too much rain rather than too little. Living expenses there, he stated, will average 30 per cent higher for most of the staples than on the coast. This he believes is largely because the laboring class is getting good prices, and the laborers are spenders of the country. The saving because of the war, according to Mr. Morton, is being done by the well-to-do and rich, rather than by the poor.

Women Taking Jobs. Dean Morton reports that women are running many of the elevators in the big buildings in the east and are doing similar work because of the scarcity of men and boys. More help, declared he, is the crying need of the country. The people everywhere are cheerfully "doing their bit," an expression met with many times a day. At Melrose, Mass., he said, half the lawn in one of the stately places has been plowed up and planted to beans and potatoes. These vegetables are planted right up alongside of beautiful and rare flowers.

Mr. Morton reports great enthusiasm in the Red Cross work throughout the east and also nearly everyone buying Liberty bonds. Recruiting on Boston Common. Historic Boston Common is to be seen daily crowded with detachments of soldiers, and there are three or four recruiting tents on the common and they seemed to be meeting with good success, when he was there.

There is also a big drive for British recruits throughout the entire east. At Chicago he saw a parade of the famous Killies, and at nearly every turn can be found British recruiting officers. Along the elevated railway are huge signs reading, "British blood calls for your enlistment" and similar sentiments. The same conditions are maintained in all the leading cities of the east, according to Dean Morton, who visited New York, Boston, Chicago and Kentucky points during his seven weeks' trip, and was in touch with the leading commercial interests and had an excellent opportunity to get at the real status of things.

Others Marked for Lynching. (Continued from page one) If prosecution could be brought against Little on the ground of his unpatriotic utterances. Government men have been working on the Little case for the past week with a view to possible prosecution.

Says "Coldblooded Murder." County Attorney Joseph R. Jackson commenting on the outrage said today: "It is a coldblooded murder and every effort will be used to apprehend the men who did it. If they are caught, they will be prosecuted to the full extent of the law."

Tom Campbell, president of the Metal Mine Workers' union and prominent in I. W. W. circles, could not be located today and the authorities believe he has left town. No statement was made by other members of the local I. W. W. organization for publication.

LITTLE DIRECTED STRIKE Miami, Ariz., Aug. 1.—Frank Little, Industrial Workers of the World leader, had a large part in directing the strike of members of that body here and in Globe, other leaders of that body said today.

Little, suffering from a broken leg, lay in a miner's cabin here, unknown to peace officers or the Loyalty league, and transacted business as an executive board member of the organization.

Little reached here shortly before the calling of the strike of the Metal Mine Workers Industrial union in this district July 2 and remained until able to travel. Little is said to have aided in organizing the strike at Bisbee as a result of which about 1,200 men were deported from that city by officers and citizens.

Joe Shannon, one of the associates of Little in Butte, is prominent in the new mine workers' union and is chairman of its strike committee. Shannon had a leading part in the labor troubles of three years ago when the Western Federation of Miners' organization was broken up, its hall destroyed and Chas. H. Moyer run out of Butte. He was arrested then but later released, two of his labor associates being sent to the penitentiary, where one of them, Joe Bradley, noted I. W. W. leader, died.

GOVERNOR IS UNADVISED Helena, Mont., Aug. 1.—Governor Sam Stewart when asked if he contemplated any action in relation to the lynching of the I. W. W. leader, Frank Little, at Butte, this morning said: "I have had no exact or detailed information regarding the event, and know nothing about it, save what I have heard on the streets. I have nothing to say on the subject at present."

Attorney-General Ford said today that he will interest himself in the case and had communicated with County Attorney Jackson at Butte, asking for a statement of the facts surrounding the lynching.

SEND IN BOOKS FOR SOLDIER'S LIBRARY

Response Has Been Good To Former Request, But Many More Will Be Appreciated.

The response to the requests for books for the soldiers has been generous in Eugene. At least 100 have been turned in at the public library, besides those left at the Red Cross headquarters and at the University library. Librarian M. H. Douglass has offered to have the labels printed and placed in the books at the University and they will be sent there from the other depositories and shipped from there. All have been requested to select any good books and send them as soon as possible. The American Library association has sent out the following instructions as to sending and selection:

If you will write in each book your name and address, the soldier who reads it will know that someone in Eugene is his friend and stands ready to help him. The following is suggested as to the books and magazines desired: Poorly printed, uninteresting, obviously out-of-date books, are not worth shipping to the men. Type should be good and clear and the books in fair condition. Books of good stories will be wanted most, books of adventure, sea stories, detective stories, historical novels and collections of short stories, especially humorous ones. Such authors as Kipling, Doyle, McCutcheon, O'Henry, Stockton, Brinlows, Tarkington, Hopkinson Smith, Oppenheim, etc., have been found popular authors with men. Good poetry and drama can be utilized.

All the men must be helped by these libraries. Some of them have not established reading habits. Some of the books must therefore be light and easily read. Foreign language study books, especially French grammar and dictionaries, are much needed—possibly more than any other non-fiction books. In one camp nearly one-fifth of the men are studying French. They should have easy readers and stories besides their text books. Books of travel, biography and history, especially lives of heroes and travels in the countries at war.

Technical books on aviation, wireless telegraphy, submarines, automobiles, signaling, first aid and hygiene, drawing and lettering. Ethical books on patriotism, courage, good citizenship with simple non-sectarian devotional books. Fresh, attractive, magazines are also desired—such as American, Century, Harper's, Everybody's, Popular Mechanics, Popular Science Monthly, Scientific American, Saturday Evening Post, etc. None over two years old should be included.

The material is needed at once. Why not select today the books which you are willing to give? Do not give worthless, unattractive books, but some of your good, fresh, interesting and valuable ones.

Books of travel, biography and history, especially lives of heroes and travels in the countries at war.

Technical books on aviation, wireless telegraphy, submarines, automobiles, signaling, first aid and hygiene, drawing and lettering.

Ethical books on patriotism, courage, good citizenship with simple non-sectarian devotional books.

TOO MUCH LOVE NOT GOOD, SAYS DR. HALL

Great Majority and Mental Troubles Due to Abnormality in Love Life, Speaker's View.

"We teachers are facing a much vaster problem than we ever dreamed of," said Dr. G. Stanley Hall, president of Clark University, in his lecture on "The Feelings and the Emotions" at the University of Oregon summer school this morning.

"It is our problem to redirect the forces of civilization after the war in such a way that the great catastrophe will never be repeated," he said. "The era to follow the great conflict will, in my opinion, be almost as important as the Christian era itself."

Fear, anger, pity and love, the speaker declared to be the ruling emotions in human nature. The date back to prehistoric times when the ancestors of man were cave dwellers and even till the time when they lived in the tree tops.

"Where there is no fear wisdom languishes," said Dr. Hall, "and we all have our fears; we are all cowards in some form."

Fear and anger, he said, have been very little understood until recently, and hence little attention has been given to these forces. He pointed out that now psychologists have learned their physiological foundation. The increased energy of an individual in a state of anger or fear is due to special glands secreting into the blood a fluid which gives abnormal power for a short time, he said.

Fear of inferiority, he said, is the greatest of all fears, and is the source of many forms of anxiety and disease. "Anger well directed is a tremendous source of power," said the speaker, "for it enables the individual to draw upon ancestral sources of energy." He opposed the idea that absence of anger is a sign of finer qualities, and declared that righteous anger is a great power for good and is based in a deep rooted sense of justice.

Love he called the master passion, for it dominates human behavior more than any other passion. He attributed a great majority of nervous and mental troubles to some abnormality in the love life.

BLAIR ROUND HOUSE IS NEARLY COMPLETE

Southern Pacific Railway's New Engine Quarters In Eugene Are Now Occupied.

The Southern Pacific engine house at Blair street is almost completed. The concrete block floor is now in place and the offices are being given the finishing touches. The house, though having but two stalls, will be up-to-date in every respect. The electric lighting system was completed Monday and was used that night for the first time. There has been a neat office put in for the accommodation of the round house foreman and also a room for the engineers, with lockers.

Modern toilet facilities, with a wash room with hot and cold water is also provided for the use of the mechanics and engineers and firemen.

The car repairers have also been moved from near the freight depot out to Blair street and they are getting settled in their new quarters. These quarters consist of car bodies, dismounted and fitted up as material rooms and work shops and are conveniently located to the repair tracks.

Oil Tank Is Complete. The oil tank which was moved over from Springfield a few weeks ago is now in place and filled with oil and the engines are taking fuel oil by a gravity system. The roof is being put on the tank.

There will be both a day and a night crew maintained at the Blair street headquarters. At night there are usually about half a dozen engines kept there. Two Wendling train ties up there now and all coaches are stored there except the Portland sleeper and a couple of emergency coaches which are kept near the depot. Train crews who have to take their trains to the Blair yards and go there for them are furnished passes on the street cars for making the trip to and from the depot.

The engine repair crews state that they appreciate the convenience and comfort of having an engine house to work in, with pits, making it possible to work in comfort under an engine, instead of having to make repairs on a sidetrack, possibly lying on the wet ground under the engine.

The Foley and Burk carnival being put on in the interests of the Red Cross and the Radiators' drum corps opened last night, following a parade by the drum corps and the carnival company's callopie. The park was thronged with people and the various attractions drew good crowds.

CARNIVAL ATTRACTS BIG OPENING CROWD

Many People Visit Park and Enjoy the Attractions; Drum Corps Is In Attendance.

The Foley and Burk carnival being put on in the interests of the Red Cross and the Radiators' drum corps opened last night, following a parade by the drum corps and the carnival company's callopie. The park was thronged with people and the various attractions drew good crowds.

The carnival was fully up to the average, there being no fakes in the curio exhibits and the performances being entertaining and amusing.

The trained horses were unusually clever, Trixie and the football pony pleasing both old and young. The monkey hotel was also good, the dogs and monkeys wearing clothes and performing their parts with gravity which was amusing.

Twins Are Lively. The "Siamese" twins, two little Spanish girls, Josephine and Guadalupe Hinjosa, are lively as crickets. The fact that they are held together by a growth of flesh which joins their bodies in front instead of at the side as in the case of the original Siamese twins, does not seem to bother them and they are full of life and mischief. The father and mother and a younger child, which is perfectly normal, accompany them.

Loretta, the armless woman, is marvelously adept with her feet. She threads

Summer Disorders Often Come From Impurities in the Blood

Get in condition for perfect health. So many people drag through the summer season with that worn-down, tired-out feeling, that almost entirely unfit them for their daily tasks, without knowing just what the cause is. It is just now that a few bottles of S. S. S. will prove its great worth. This great blood remedy is a wonderful purifier, and promptly cleanses the blood of all impurities, renewing the vitality that comes with a restored appetite. It is absolutely system builder. S. S. S. has been on the market more than fifty years, and is sold by druggists everywhere, who will tell you that it is thoroughly reliable. Write to-day for important literature, and free medical advice from our medical director. Address: S. S. S. Specific Co., Dept. J Atlanta, Ga.

WILL STOP TROUBLES OF LOCAL MERCHANTS

Full Illustrated Lecture Chamber of Commerce Tonight to Tell How to do it.

"The Troubles of a Merchant, How to Stop Them" will be demonstrated at the chamber of commerce at 8 o'clock tonight, Wednesday, Aug. 1, by a lecturer of the National Cash Register company.

A real Essanay feature film has been prepared for the company at an expense of \$30,000 and will be shown free of all interested. The pictures and lecture will be given in the dining room of the chamber of commerce, and every merchant and clerk in the city is invited to attend. Among the questions to be discussed will be the following: Retail prices and their causes; store expansion; newspaper advertising; window display; clerks' efficiency; selling methods; credit business; the delivery problem; system in retail business.

OPENING OF CAMPS DELAYED Washington, Aug. 1.—Delays in preparing national guard mobilization camps, the war department announced today, will postpone their opening about two weeks.

Fred Moxley has returned from a vacation at Seaside.
