NET LOSS OF 11C IN SEPT. WHEAT

Weakness in Corn Due To Fact That Distilleries Refuse To Bid on Futures.

(By The Associated Press) Chicago, Aug. 13.—Announcement in general terms of the government plans to rule the wheat and flour business of the country made no important difference in the wheat market today. For a long time the amount of trading done has been hardly more than enough to establish quotations. This morning business, if possible, was even more limited in volume and the pit was virtually deserted. After opening 1c lower at \$2.14 September, the market recovered to \$2.15. No other option but September was dealt in to any extent whatever. Subsequently the future delivery market underwent a notable fall in consequence of sharp breaks in the value of spot wheat. The close was heavy at \$2.04 September, a loss of 11c net. Falling off in demand for corn for immediate delivery especially to distilleries continued to weaken the corn market. Optimistic crop reports counted also in favor of the bears. Opening prices, which ranged from 1-4 to 1c lower with December at \$1.14 to \$1.14 1-2 and May at \$1.11 1-4 to \$1.11 1-2 were followed by a moderate rally and then a fresh setback. The fact that distilleries other than those that were not bidding led afterward to further weakness in futures.

But the effect failed to last. Futures declined unsettled, ranging from 5-8c net decline to a rise of 1-4c with December \$1.14 3-8 and May at \$1.12 1-4 to \$1.12 5-8. Oats gave way with corn. New high price records in the hog market strengthened provisions. The steepest advance was on pork.

WALL STREET

New York, Aug. 13.—Volucros, motors, shippings, and a few of the equipments were appreciably higher at the active opening of today's market, some of the first named issues, establishing new records. Great Northern and Northern Pacific led the rails with gains of a point each, with half a point for Union Pacific. The more prominent industrial including steels, were irregular, but developed general firmness later. Coppers and kindred shares showed no material change.

Aside from slight additional gains in the motors and specialties, no changes of more than fractional limits occurred among the leaders during the balance of the forenoon, trading gradually falling to slender proportions. New Haven and Pittsburg Coal were inclined to heaviness and other minor rails met with restricted pressure. Dealings were further restricted by the uncertain money market. Last Saturday's bank statement showing a very large contraction of reserves. Liberty bonds were firmer at 99.08 to 99.82.

1,500,000 KNITTED SOLDIER SETS, NEED

Most Urgent Appeal for More Help and Haste Made to Eugene Red Cross.

Every Eugene woman who is already knitting for the soldiers and any woman who will knit is urged to come to the Red Cross headquarters on Wednesday afternoon. Mrs. Dugald Campbell, who is in charge of the knitting work of the local chapter, is just now making an especially urgent appeal for help in this work in view of a letter from John L. Clymer, director of the Pacific division, telling of the appeal from the Red Cross commissioner for Europe of 1,500,000 knitted sets for the soldiers. These sets, which comprise sweater, muffler, wrist-lets, and socks, are a rush order, and quick action and quick results is the cry. "Our chapter has a splendid committee on knitting, and many knitters mobilized, but we want more," said Mrs. R. S. Bryson, secretary of the Eugene chapter. Mrs. Bryson states that the Eugene chapter will soon be able to send to San Francisco 600 pairs of socks.

Within the next two weeks, the Red Cross supply bureau expects to have a new knitting manual of instruction for making the sets ready for distribution to the chapters, and large shipments of yarn will soon be coming into the various branch supply houses. Also the bureau is arranging for knitting needles.

However, desperate need will exist for these articles among the soldier and civil population of France and our other allies before we can get these articles made. Mr. Clymer points out, and he suggests that the chapters start work at once preparing for the work, without waiting for the new manual. Suggestions for organizing are:

"Mobilize all available knitters in your chapter, branches, and auxiliaries, so that when the knitting manual is received, every one who can knit will be prepared to start work immediately. The aid of all knitters is sought, whether they be members of the Red Cross or not. A group of instructors in knitting would be a great help.

"Please have all your members understand that we do not want the least cessation of effort of workers in the production of surgical dressings and hospital garments. It will be your problem to organize so as to get more workers interested and the more constant effort of those who are giving so much of their time to the work of the Red Cross.

"Please also impress upon everyone who is now knitting that we do not want them to discontinue any work which they have in hand. Have them work industriously on all knitting they can turn out pending the receipt of the new knitting manual."

Refuses to Postpone Opening of Deer Season

(By The Associated Press) Salem, Ore., Aug. 13.—Governor James Withcombe today refused the request of State Forester A. F. Elliott to postpone opening of the Oregon deer season until rain lessens the forest fire danger that Mr. Elliott declared will exist when hunters took the field. The governor said such action would come too late, because many hunters are already in the woods waiting for the season to open August 15.
