gagements developed at various places. The statement adds: "Our troops and leaders anticipate a favorable conclusion of the battle." In many places colored and white French troops penetrated the German defensive zone in which every step forward, the German report says, had to be wrested at the cost of sanguinary losses. In bitter hand to hand fighting and by counter attacks the French were driven back almost everywhere.

FRENCH PEOPLE PLEASED

Paris, Aug. 21.—Yesterday's victory of the French on the Verdun front was welcomed by the French people not only because after it the Germans no longer hold one of their dearly bought conquests won since the first onslaught on the Verdun fortress in February, 1917, but as proof that the unity of action among the entente allies is at work. The British, Italian and French fronts are all active at the same time, making it possible that weakness may develop somewhere along the German and Austrian lines confronting them. The Figaro, however, warns its readers against expecting too much. "Experience has shown," the Figaro says, "that it is vain to hope to pierce a front which incessantly closes after the breach has been made. At Verdun, as in Flanders, the object is to strike the enemy the most powerful blow possible and then to await an opportunity to strike again. It is not the territory won that counts but the losses inflicted."

RETURNS TO PORTLAND

Mrs. W. D. Carter returned to her home in Portland Tuesday after a month's visit with her daughter, Mrs. S. H. Seavey, of College Crest. C. B. Christenson, chief of police, went on duty Tuesday morning after his vacation. Day Officer J. A. Macy acted as chief during Mr. Christenson's absence.

Dr. John E. Kuykendall, head of the local Red Cross ambulance corps, stated Tuesday afternoon that he thought the men would proceed to American Lake about September 1, but that he has not yet received definite orders. However, he expects that these will come in a few days, and when they arrive he will get in touch at once with the men who are scattered throughout the state.

President and Secretary of Body Arranging for Session Here in December.

C. F. Swander, secretary of the Preschlers' Parliamentary Conference of the Christian church on the Pacific coast, of Portland, and Rev. E. C. Sanderson, dean of the Eugene Bible university and president of the conference, held a conference here today to discuss plans for the session of the conference to be held in this city, December 3 to 6. All the states of the Pacific Northwest and western Canada will take part in the conference which will be devoted to practical and doctrinal discussions. The conference is not a legislative body. The conference was held in Tacoma last year. Some eastern churchmen of prominence will attend the sessions in Eugene.

I. W. W. Strike

(Continued from page one)

been no developments in the general strike of agricultural and construction workers in this state called by the I. W. W. leaders of Spokane, according to officials of the United States district attorney's office. Military officials also say the situation throughout Montana so far as they have been informed is quiet, with no interference with business.

NO TROUBLE IN OREGON

Portland, Or., Aug. 21.—There was no sign today of I. W. W. strike activity in Oregon, according to reports from sections where members of the organization had announced that men would go out. Military and civil officials in touch with the situation declared their belief that the strike was a complete failure, but announced that forces were being held in readiness to quell immediately any disorders that might arise. I. W. W. headquarters here were practically deserted.

ONLY DISTURBANCE IN JAIL

Billings, Mont., Aug. 21.—Noisy disturbances on the part of I. W. W. members incarcerated in the county jail here are the only indications of an I. W. W. strike in eastern Montana. Believing that a successful strike is underway, the prisoners are creating a violent series of uprisings.

NO TROUBLE ON FARMS

Walla Walla, Wash., Aug. 21.—Not a man has left his work in the harvest fields of southeastern Washington as a result of the I. W. W. strike and farmers are confident there will be no trouble of any kind. The number of I. W. W. members employed here is comparatively small and should they quit their places easily could be filled.

15 MEN QUIT WORK

Coeur d'Alene, Idaho, Aug. 21.—Fifteen men employed by the St. Marie's Lumber company, quit work today after the company had refused to grant them an increase of 25 cents a day, which would have made their wages \$4. It was not known if they are members of the Industrial Workers of the World. All other parts of the state report no cessation of work in the harvest fields or construction camps. At Moscow where more than 50 I. W. W. are being held in a stockade no trouble has developed since the general strike order was issued. The men were arrested soon after the lumber strike began in July. United States troops are stationed at Wallace to protect the mines and state guardsmen are at Lewiston.

Cherey, members of exemption board No. 99, who pleaded guilty yesterday to receiving bribes for granting exemptions. He was sentenced to two years in the Atlanta penitentiary. The jury was out three and a half hours.

Rush Appropriation for Ship and Engine Building Asked

Washington, Aug. 21.—Congress will be asked for special rush appropriations for the immediate expansion of ship and engine building plants to carry out the big destroyer program decided upon by the navy department.

Secretary Daniels indicated today that the shipbuilders have said the necessary expansion could be carried out only if the government paid the bill. The navy will ask immediately to start the work and will not await the regular naval appropriation bills later in the year.

Ship and engine builders now have all the work existing plants can do and also are obligated to the limit of their financial arrangements. They propose that the government expand the yards and engine plants, that the private builders do the work, using their trained forces, supplemented by all the additional men that can be produced and that at the conclusion of the war or the contracts, as the government may decide, the supplemental plants either be sold to the shipbuilding companies or operated on government work. Details of the scheme are now being worked out at the navy department.

The destroyer program includes as many new ships of that type as it is possible to build.

Chinese and Japanese Do Not Claim Exemption

Seattle, Aug. 21.—The first men certified to the state adjutant-general's office for service in the new national army were from Chelan county and Spokane district No. 1, in the same mail. Grant county came next. Among the men passed in Seattle yesterday were four Chinese and two Japanese. They did not ask exemption. A meeting of draft officials yesterday took action to obtain removal of the recruiting signs "come in out of the draft" displayed in windows in Seattle, and which are regarded as offensive, the inference being drawn that the draft was objectionable.
