think on the whole this change will be a great advantage to us here in Oregon. We have all realized that the time allowed was very short, especially for work in the remote districts. We have been keeping printers, multigraphers, stenographers and ourselves busy day and night in an effort to put Oregon across on time. I know county organizations have been doing the same.

All plans for the campaign will remain the same except that everything will be postponed just one week. In forwarding printed pamphlet, which is going out, simply ask teachers to postpone the whole program in the schools to the corresponding days of the following week. The same applies to church day, which should be changed from October 21 to October 28.

## Speakers to Urge Food Saving

"I have realized from the first the problems arising from having the liberty bond campaign on at the same time. The two campaigns should supplement each other. Mr. Hoover, Mr. McAdoo and our state organizations are in perfect harmony on that point. The liberty bond people are going to ask their speakers to devote a little of their time in each case to food conservation, and I am today supplying them with material for that purpose. They will be even more enthusiastic in helping if the dates do not actually conflict. Will you, as county chairman, place yourself in touch with the liberty bond speakers who are announced for your county, and arrange such co-operation locally that shall be mutually agreeable?"

"The change in dates will make it possible for us to send supplies from here perhaps a day later than they would otherwise have gone, and save a little of the overtime pressure on printers and our shipping force. But we will keep them coming right along. The added time
