REGISTERED MEN TO RECEIVE BLANKS FOR AID IN SELECTIONS

Questionnaires to Show Man's Availability Must Be Returned to Local Board Within One Week From This Receipt.

Every man registered for the draft will be sent a questionnaire in the next two or three weeks that he must fill out and return within seven days to his local registration board. These questionnaires are long and the answers to some of the questions may require considerable study. But though Uncle Sam will insist that all the questions be answered, he is going to safeguard the rights of every man by providing him with free legal assistance and advice in writing out his answers. Lawyers Asked to Help. To this end the government is about

Children's Accounts

The Bank of Commerce has always numbered among its depositors a large number of boys and girls. These boys and girls will find the experience of having a bank account very valuable to them.

In addition to the fact that they are building up an acquaintanceship with the officers of a growing institution they are laying the foundation financially for their start in life.

Savings accounts of one dollar and upwards are invited and the most courteous and helpful attention is extended to young people in order to make their visits to this bank genuinely pleasant.

We have an established reputation for growing by helping others grow. This should appeal to boys and girls.

to mobilize all the lawyers of the country for patriotic service. The mobilization will be voluntary—but every lawyer will be expected to do his bit and volunteer. State, county and district legal advisory boards are to be formed at once in Oregon, as in all other states, to take charge of this work within each district. The chairman of each county board will be, whenever practicable, the county judge or a judge of the circuit court. These legal advisory boards will be held responsible for seeing that a competent force of lawyers, or qualified laymen, is at all times available for consultation by all registrants desiring their services, during the period when the questionnaires are to be answered. Not only that, but the legal advisory boards will delegate these duties to lawyers in the smaller towns and villages, so that wherever a registered man may be, he will have available a competent legal adviser to help him make out his questionnaire.

No Fees to Be Charged.

So far as the lawyers are concerned, it will all be a labor of patriotism on their part. Not a cent will they charge any registrant for their services. "It should be the pride of every lawyer," says a statement by the war department, "that no registrant within his district is without competent legal advice and assistance in preparing all papers that such registrant is required to submit in the process of the selection of citizens of this nation for duty in the present emergency."
