

To Stop Those Terrible
Rheumatic Pains
USE "5-Drops"

It has proven its value for many years and the testimony of those who have used "5-Drops" and found relief from the torture and agonizing pains caused by rheumatic conditions is the best evidence of its remarkable power.

Mrs. H. Higgins, Ashland, Ky., writes: "I suffered with rheumatism for over fifteen months. Just two bottles of your wonderful '5-Drops' has made a new man of me."

Harry Stafford, No. Baltimore, O., writes: "I had rheumatism in my knees and ankles and tried all sorts of highly recommended remedies, but to no avail until a friend told me to try '5-Drops.' I used about three-quarters of a bottle of '5-Drops' and am as well as usual."

"5-Drops" is sold by the leading druggists in every part of the United States and Canada.

FREE A sample bottle will be mailed free if you will write to the Swanson Company, Newark, Ohio.

MEN REACHING AGE OF 21 MUST BE REGISTERED

Immediate Enrollment of All Who Have Attained Majority, Since First Draft, Urged by Provost Marshal Crowder

Washington, Jan. 3.—Immediate registration for military service of all men who have become 21 years of age since the first draft registration was urged today by Provost Marshal-General Crowder in his annual report to the secretary of war.

If this is done and similar registrations held each year, 700,000 physically

fit men of Class One, the provost marshal general stated, will be available for service every twelve months and this would not necessitate taking men from the deferred exemption classes.

"The policy and belief of this office is that in all probability it will be possible to fill all our military needs from class one," the report stated.

Skilled labor and farmers will be drafted from the deferred classes, Crowder intimated, "should the situation demand."

"The situation in these respects is serious now, particularly in the shipbuilding industry and in factories working on war munitions," he added. "It is probable there will be a shortage of farm labor in the spring, although the new draft regulations have relieved that situation."

The report was placed before congress today with the request for an amendment to the selective service act which would change the plan of allocating quotas.

In the first draft the quotas were based only on the population, but Crowder asks that the new basis be made the number of men found in class one in each district. Dissatisfaction was caused in many districts under the last draft because the large number of aliens, all of whom were exempt, caused the quotas to be much higher than the average.

The per capita cost of drafting has been \$4.03, which is about one-fourth the amount it cost the government to get each volunteer into the army. The lowest per capita cost was in Oklahoma where the average was \$1.57, while Delaware led the list with \$16 for each man. This includes all expenses necessary to get the men to the camps.

COMMUNITY MEET IS PLANNED FOR DEXTER

All Day Gathering Sunday in Interests of the Syrian and Armenian Relief.

There will be a community meeting at Dexter Sunday, January 6, in the interests of the Syrian and Armenian relief fund. There will be a program in the forenoon by local people, and in the afternoon it is expected that there will be a speaker from outside. The committee has been trying to get in touch with the Portland committee to secure a speaker from there, but as yet has heard nothing definite. It is expected that some Lane county man will be secured if one of the state workers is not available.

After the morning service there will be a Hooverized dinner served. The meeting will be held at the Dexter Baptist church and it is planned to have Pleasant Hill, Lowell and all the surrounding country participate in the day and assist in swelling the money for the cause.

Camp Lewis' Boys Blame Heat for Loss of Game

Pasadena, Cal., Jan. 3.—Camp Lewis' 01st footballers left here last night for home. They call it that now, and they're gloomy because they are not bringing home the bacon. But as Willie Ritchie, former lightweight champion, and the 01st's strongest booster at the game, remarked, "somebody has to lose." However, the boys all would like another crack at the Marines. Not as an alibi, they say, but as a fact, the heat played havoc with their "pep" and they figured for more speed in cooler weather. All the crimples got away with the team. The team will not disband.

Building Inspector Files Report for December

W. H. Alexander, building inspector, has filed his report for the month of December. It shows six building permits, aggregating \$3200 in estimated cost and carrying \$7 in fees. Four plumbing permits were issued, with fees of \$26.80.

CAMOUFLAGE

Mr. Voronoff—"Send out for a black man to do the whitewashing, and a white man to black the stove."

Mrs. V.—"Won't one man do?"

Mr. V.—"No. I want to see how much material they waste."—Boys' Life.

HAD THE GRIP THREE WEEKS.

With January comes lagrippe. Languishing colds seem to settle in the system, causing one to ache all over, feel feverish and chilly, tired, heavy and drooping. Mrs. Lizzie Tyler, Henderson, Ky., writes: "My daughter had lagrippe for three weeks. I had the doctor and bought medicine and none of it did any good. I gave her Foley's Honey and Tar and now she is all right. I have told all my friends about it." Insist on the genuine Foley's Honey and Tar. Sold everywhere.

RAILROAD PLAN GIVEN RIGHT OF WAY AT CAPITAL

Congress Returning to Washington After Holiday Recess Pulls Into Siding to Await Signals From President.

BY LAWRENCE MARTIN
United Press Staff Correspondent.

Washington, Jan. 3.—Congress returned to Washington today after the holiday recess and promptly pulled onto a siding awaiting signals from President Wilson.

Tomorrow the president will deliver his railroad legislation message and ask that it be given a clear track until disposed of. He will explain the exigencies which led to government operation of the roads and detail the need for prompt appropriations and enactment of protective laws that the McAdoo directing regime may be unhindered in carrying out its gigantic task. Congress was full of pep and purpose when it arrived today. Tremendous problems of war work confront it. Vast sums of money must be provided. But the railroad legislation looked as the most troublesome directly confronting it. Scores of proposals are waiting to be trotted out by the legislators, once the president has mapped out his program.

Two chief points of controversy will be the three-year average suggested by the president as the basis for paying the railroads and the question of getting back government money invested in new equipment.

Aside from the railroad legislation, congress comes back without a program. There is a vague idea that many tremendous things must be done but nobody knows just what.

Suffragists doubled their activity in an effort to get the Susan B. Anthony amendment through the house on January 10. There is no reason to change earlier forecasts of the amendment's defeat.

Legislators returned reflecting deep interest in the progress of the four senate investigations. They learned that none of the four has yet reached a stage where it is possible to forecast legislative results. Investigators today said it is likely the military and sugar-coal inquiries at least will bring bills before congress.

There were no indications today when the investigations will end. Shipping, military and sugar and coal are going full blast in the senate, while the house naval committee today heard Admiral Benson, member of the American mission to the allied countries. The committee wants Benson to detail the work of American naval forces abroad, as well as to go fully into equipment and personnel of the whole navy.

Both houses planned early adjournment today out of respect to members who died in the recess, Senator Newlands, of Nevada, and Representative Bathrick, of Ohio.

The senate military investigators

heard E. E. Driscoll, superintendent of the Baritan, N. J., woolen mills. Driscoll was questioned concerning the quality of cloth put into uniforms and overcoats for the American army. Senator Frelinghuysen, who questioned Driscoll, predicted today that within three months General Pershing will insist on a higher grade of cloth uniforms.

"Germany pays \$7.50 a yard for her men's uniforms," said Frelinghuysen. "We pay \$2.85 for an inferior grade of shoddy. I am convinced we would save lives by giving our men better clothing."

Herbert Hoover was to return for questioning by Senator Reed concerning the food administrator's motives in sending a copy of his recent sugar statement to President Wilson. Reed wishes to learn why the country was given the impression that Hoover had to go to the president to get his statement before the public after Reed's committee had refused to accept it.

Myer Bloomfield, New York sociologist, will continue his testimony before the shipping investigators on housing conditions in shipbuilding communities, and plans being worked out to improve it.

The railroad investigation will be resumed Monday with railroad presidents on the stand at their own request.

"The Brand of Satan" Is Play of Gripping Interest

One of the most interesting portrayals of a dual personality ever seen in pictures was "The Brand of Satan," starring Montagu Love, which was shown at the Eugene theatre last night, and which is the offering again this afternoon and evening. The story centered about a notorious criminal, Lazard, known as

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound" you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known down town druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

"The Strangler," who was, in his other personality, Jacques Cordet, a successful young prosecuting attorney. The fact that "The Strangler" has a sweet-heart in each personality, makes things more interesting. "Balloons," the Century comedy featuring Alice Howell, was really funny.

Daughter of Mr. and Mrs. J. F. Beyteins Dies at Santa Fe

Word has been received here of the death of Mrs. Guy Harrington, daughter of Mr. and Mrs. J. F. Beyteins, of Eugene, at her home in Santa Fe, N. M. Mrs. Harrington leaves a husband and two little girls, one aged three and one aged one month.

Mr. and Mrs. Beyteins, who had been on an extended trip through the east, were at her bedside when she died.

Mrs. Harrington visited in Eugene during the Panama-Pacific exposition and Mr. Harrington's parents formerly resided at Creswell, having come to Oregon from the east in the same colony with the Beyteins family several years ago. Only meagre information has been received here of the death of Mrs. Harrington. It is thought here that death occurred Sunday or Monday. A letter from Mrs. Beyteins was received by Mrs. G. N. Fraser, dated December 24, stating that Mrs. Harrington was not expected to live but a day or so at that time.
