Mothers of Oregon Prepare for Trouble!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands along the Pacific Coast would testify just as do the following:

MONTROSE, OREGON.—"I am certainly glad to recommend Dr. Pierce's Favorite Prescription. I think it is a God-send to womankind. During expectancy I was, oh, so sick with that terrible morning sickness. I was so bad that I just could not eat one thing. I commenced taking the 'Favorite Prescription' and I was relieved at once—no more nausea, no headaches, no backache, and I got through so well."—Mrs. W. T. Pockrus, Care McCready Camp.

SORELLA, OREGON.—"I have suffered everything during expectancy but the last time I took Dr. Pierce's Favorite Prescription and I never missed a meal and had comparatively no suffering. I would surely recommend the 'Prescription' to all prospective mothers and, also, for young girls coming into womanhood. A friend is taking this medicine now as I advised her to and she is improving fast. One would not know she was the same woman."—Mrs. H. E. Gibson.

Careful physicians always point out that every cough wears human strength and tears down the body's resistive powers. The reason
SCOTT'S EMULSION
