## "DON'T WORRY ABOUT ME" SOLDIER WRITES

Fred S. Williams Sends Letter From France; Says It is a Beautiful Country.

As with most of the boys who write from France, Fred S. Williams, in a recent letter to his mother, Mrs. F. S. Williams, Sr., says "Don't worry about me, mother," and says that France is a beautiful country, and he like it. Mr. Williams is with company B, first field battalion of the signal corps. The letter follows:

"Can't say that I like England at all, but do like France. It is a beautiful country even now, and we haven't seen it at its best yet.

"Also the French people like the Sammies, and do all they can for us.

"Wish you could hear me talking French. Am making good use of the French book Aunt Grace gave me. And much to my surprise, I can make myself understood.

"We are billeted in a quaint little old French village, that must be at least 100 years old. And the people here seem just as quaint and old-fashioned as their surroundings.

"Wish you could see some of their homes, and the way they dress. Most of them wear big wooden shoes and you can hear them coming a block away.

"I don't want you to worry about me at all, mother, as I am well taken care of and so far have not been in any danger at all.

"And added to that we have a captain that thinks more of his men than he does of himself. And you may be sure he will do all he can for us.

"And when you feel that you can, send me some candy. It is rather hard to get over here and for some reason or other I seem to crave it all the time.

"Have talked to a number of Scotch Highlanders, members of the famous Black Watch, and I like them fine. They also like the Sammies.

"I had very little trouble to understand them, but most of our boys could not understand them at all.

"They are a fine looking bunch of men, and as the world knows, they are fighters of the finest quality.

"They say, now that the tanks are over here, we will go ahead and clean up this mess.

"I have seen any number of German war prisoners. They don't seem to understand that America is actually landing troops in France. They don't think it is possible. In fact, have been told that America cannot get by the subs.

"Wish I could tell you about the camps and the men and what they are doing.

"But as you know that is impossible. "The Y. M. C. A. is doing fine work over here and the boys make good use of it."

### A Simple Way to Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid art. It's Wonderful to See "Gels-it" Peel off Corns!

von from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Adv.
