

WAR NEEDS TO GUIDE WORK THIS SUMMER

Special Courses in University Summer School Will Help Nation in Crisis.

Summer school this year will have its courses arranged with special reference to the war-time needs of Oregon's educational system, declared Dr. Joseph Schafer, dean of the University summer school session. Military courses and drill, under the direction of Lieutenant Colonel John Leader, commandant of the University battalion, and military tactics instructor, will give opportunity for men now teaching and who expect to enter the service, to train for commissions. Special attention will also be given to courses which fit women to take the places vacated by men in the schools. Miss Lilian Tingle, professor of household arts, will give lectures designed to help solve the food problem.

Even if many of the instructors enter the service, yet the educational organization must be maintained for after the war, said Dr. Schafer.

Main Calls for Teachers.
"Since there is a larger proportion of men in high schools than in other schools, it follows that the largest proportion of vacancies next fall will be in the high schools, he pointed out.

"Already the University teachers' employment bureau receives more calls for teachers than can be answered."

In order to fit grade teachers and women to take the places formerly occupied mainly by men, special courses in history and civics, mathematics, chemistry, general sciences, botany and zoology will be offered.

The following University of Oregon instructors will remain during the summer session: Professor A. R. Sweetser, O. F. Stafford, B. W. De Busk, F. L. Stetson, H. C. Howe, W. F. G. Thacher, T. Cloran, Merle Rugh, F. G. G. Schmidt, Joseph Schafer, R. C. Clark, George Turnbull, E. E. DeCau, W. P. Boynton, E. S. Conklin, F. G. Young.

Professor Henry E. Bourne, of Western Reserve University, Cleveland, Ohio, will give a teachers' course in history and also have a class in history of the French revolution.

Noted Lecturer Coming.
Dr. Henry Huntington Powers, of Newton, Mass., a lecturer and author who has written several books on the present European conflict, will give a series of lectures on the great war, and also on the history of art. Dr. Powers, before the war, traveled in Europe and gave lectures at the great art centers to tourists, on the art represented there.

Dr. Schafer spoke of Dr. C. C. Hughes, of Sacramento, who will lecture on school supervision as a "distinguished and successful superintendent of schools."

Summer school begins June 25 and

Eugene Theatre Tonight.

UNIVERSITY NEWS NOTES

Only 8 out of 75 students in two freshmen English classes, taught by Miss Mary H. Perkins, assistant professor of rhetoric, were able to write correctly a set of 15 sentences containing mistakes in English, which Miss Perkins gave to the classes for correction the other day. One of the six students was Henry Pond, born in China, who did not begin the study of English until after he was 14 years old.

A stunt show will be the feature of the Association of Collegiate Alumnae meeting to be held in the Y. W. C. A. Bungalow next Saturday afternoon, and a few guests have been invited. Each college with a representative in the local chapter will have its stunt. The Association of Collegiate Alumnae is a national organization, of which Oregon has about 60 members. The only other chapter in the state is at Portland.

A general committee to plan for junior week-end will be called some time in the next week, according to Paul Spangler, president of the junior class. Work has been held up for various reasons so far, and little progress has been made other than on appointing the above committee, which will meet to discuss the affair. The chairmen of the various committees will be appointed then.

Lieutenant Colonel John Leader returned to the campus today from Portland, where he lectured last night on

"The European War." Colonel Leader opened the series of lectures being given for the benefit of a fund for the woman's building on the campus. The lectures, which are being given in the ballroom of the Multnomah hotel, are under the direction of Mrs. William D. Wheelwright and Mrs. Walter F. Burrell, of Portland.

Professor A. R. Sweetser, head of the botany department, will make an expedition trip to Marshfield and Bandon about the middle of March, and will also investigate the possibilities of using Spangnum moss as a substitute for oakum, as it is used for surgical dressings.

Frank L. Purnall, of the class of 1920, is now in France, enlisted in the Canadian forestry corps, according to a card that was received from him by Miss Julia Burgess, professor of rhetoric. Purnall was a Britisher, who came to the United States from New Zealand for his education. He took work at the University and the Eugene Bible Uni-

A cablegram from Dr. Bertha S. Stuart, former director of physical education at the University, was received by her parents, Mr. and Mrs. William H. Stuart, of Eugene, yesterday, telling of her safe arrival some time last week at Bordeaux, France.

The University choir, composed of men and women of the University glee clubs, has discontinued practices. John Stark Evans, director of the choir, thought it would be advisable to give this time to the students, as no occasion is now in sight for which the choir might sing. The vesper services have not been scheduled for February or March, and the next service will probably be held

at Easter. The choir will give a special program then.

Kerby Miller, James Burgess, Raymond Allen, H. M. Fisher, and E. L. Kezel will represent the University in a shoot against the Eugene branch of the National Rifle association, to be held some time after February 23. Tryouts were held yesterday, each man taking five shots at a target. William Rebec, sergeant of musketry, made the selections.

Musical Sorority Takes in Several New Members

Initiation for Mu Phi Epsilon, honorarium music sorority, was held Saturday afternoon, in the chapter room in Music Hall. After initiation, a banquet, at which the initiates were guests of honor, was given at the Hotel Osburn. A feature of the entertainment was original compositions given by the initiates themselves.

The new members are Claire Gazley, Fern Murphy, Marion Gilstrap, Leona Marsters, Esther Banks, Helen Watts, Aurora Potter, Madge Humbert, Minnie Johnston, Margaret Mansfield, Beulah Keagey, Janet Frasier, Gayle Roberts, Cornelia Heess, Grace Rugg, Betty Allison, Anna Landabury Beck, Kate Chaburn.

Organizes Extension Classes at Astoria

Alfred Powers, assistant director of the extension division, will leave Tuesday for Astoria, where he will complete the organization of an extension class. The present enrollment of the class, which will begin next Saturday, is 90. The course will consist of ten meetings in educational work, the first five will be handled by Professor C. A. Gregory, and the second half under the supervision of Dr. De Busk. Both men are professors in the University school of education.

While in Astoria, Mr. Powers will visit the Clatsop county Red Cross chapter. Later Mr. Powers will go to Fort Stevens, where 70 men are taking correspondence work from the University.

Pretty Alice Brady Star of "Maid of Belgium"

Those who saw it at the Eugene theatre Wednesday declare that "Maid of Belgium," now being shown there, is one of the best pictures they have seen for a long time, and that it is also one of the best Alice Brady has ever been starred in.

The story centers about the little Belgian, "Adoree," who was the only survivor when a peaceful village was completely destroyed by a German bombardment. Her husband, of a few hours, thought her dead. The young refugee was brought to America, and here the story is built about the baby which two women claimed. But it ends happily, as all stories should.

Mr. Hoover asks you to save butter, lard, suet. Mazola is a pure, vegetable oil for deep frying, sautéing, shortening—wonderfully economical.

MAZOLA

With the Nation-wide movement to save animal fats the housewife is confronted with a serious problem—if she would continue to serve fried foods.

Thousands of American homes have found the answer in Mazola, the pure cooking and salad oil from corn.

Because Mazola is a vegetable oil—and because a thorough test on the part of housewives has proven that Mazola is more practical, more economical than the old cooking mediums.

It makes fried foods digestible—and the great big factor for economy in Mazola is that it can be used over and over again—does not transmit taste or odor from one food to another.

A recent demonstration showed that the same tinful of Mazola could be used eighteen successive times for deep frying!

Mazola is fine for salad dressings, too.

Get Mazola from your grocer in pint, quart, half-gallon or gallon tins. The large sizes give greatest economy. Also ask for the free Mazola Book of Recipes—or write us direct.

Your money refunded if Mazola does not give entire satisfaction.

LOCAL FIRM TO HELP STANDARDIZE CROP

Bean-Buying Firm Will Exchange Pound for Pound to Get Uniform Variety.

The necessity of standardizing the bean crop of Oregon upon the Mexican Wonder bean has been plainly shown every bean buyer in Eugene in the last few months. Eastern buyers insist upon uniformity and the Mexican Wonder bean has been the only bean that has stood the test, the Lady Washington having failed because of the large number of discolored beans.

In order to aid in standardization of the crop in Lane county the local branch of Allen and Lewis has laid in a good supply of Mexican Wonder beans for seed and has announced that it will exchange them pound for pound for good beans of other varieties. The firm believes that by so doing they will not only aid their future business as dealers in beans but assist the community into what will be a profitable industry.

British Forces Are Within Four Miles of Jericho

London, Feb. 21.—General Allenby's forces advanced to within four miles of Jericho yesterday, it was officially announced today.

"Despite heavy rainstorms we have advanced three and a half miles through a difficult country, on a front seven and three-quarters miles wide east of Jerusalem."

Jericho, situated 14 miles northeast of Jerusalem, is famed in biblical history for having been taken by Joshua's hosts. The legend says the walls fell after Joshua's forces had marched 13 times around the city blowing their trumpets.

Worst Winter in Years

Snow, wind and extreme cold caused more colds this winter than in past years. Foley's Honey and Tar proved its worth in thousands of homes. Men, women and children checked colds and coughs and prevented serious consequences from exposure. It clears the passages, heals raw inflamed membranes, banishes irritation and tickling throat. Mrs. Edward Strey, R. 37, Clinton, Ohio, says: "I think Foley's Honey and Tar the only medicine for coughs and cold and recommend it highly."—Adv.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however, handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

AUCTION SALE

A Genuine Rupture Cure Sent On Trial To Prove It Don't Wear a Truss Any Longer

After Thirty Years' Experience I Have Produced an Appliance for Men, Women and Children That Actually Cures Rupture.

If you have tried most everything else, come to me. Where others fail in where I have my great success. Send attached coupon today and I will send you free my illustrated book on Rupture and its cure, showing my Appliance and giving you prices and names of many people who have tried it and were cured. It is instant relief when all others fail. Remember, I use no knives, nor burrers, no hooks.

I send on trial to prove what I say is true. You are the Judge and once have seen my illustrated book and read it you will be an enthusiastic as my hundreds of patients whose letters you can also read. Fill out free coupon below and mail today. It's well worth your time whether you try my Appliance or not.

Pennsylvania Man Thankful

Mr. C. E. Brooks, Marshall, Michigan.
Dear Sir:—Perhaps it will interest you to know that I have been ruptured six years and have always had trouble with it till I got your Appliance. It is very easy to wear, fits neat and snug and is not in the way at any time, day or night. In fact, at times I did not know I had it on; it just adapted itself to the shape of the body and seemed to be a part of the body, as it clung to the spot, no matter what position I was in.

It would be a veritable God-send to the unfortunate who suffer from rupture if all could procure the Brooks Rupture Appliance and wear it. They would certainly never regret it.

My rupture is now all healed up and nothing ever did it but your Appliance. Whenever the opportunity presents itself I will say a good word for your Appliance, and also the honorable way in which you deal with ruptured people. It is a pleasure to recommend a good thing among your friends or strangers.

I am,
JAMES A. BRITTON,
50 Spring St., Bethlehem, Pa.

Soundly Cured at the Age of 81.

Mr. C. E. Brooks, Marshall, Michigan.
Dear Sir:—Less than a year ago I sent to you for an appliance which came promptly. I at once put it on and it fitted perfectly. I have worn the appliance not quite ten and one-half months. It has cured my rupture.

I tried the other day while the appliance was off, to see if I could force anything out of the opening to make a break there, but I could not, though I tried hard.

Now I think this quite remarkable as I am in my eighty-first year. I am an old veteran of the Civil War, born and raised in the town of New Boston, N. H., from where I enlisted in the 10th N. H. vol. Inf., in Co. C.

The above is C. E. Brooks, inventor of the Appliance, who cured himself and who is now giving others the benefit of his experience.

If ruptured, write him today, at Marshall, Mich.

I cannot feel but that I owe you this testimony for I had never expected to be cured. However, thanks be to God, I found a cure through the valuable Appliance you made for me.

Your friend,
E. A. RICHARDS,
Holly Hill, Fla.

Others Failed But the Appliance Cured

Mr. C. E. Brooks, Marshall, Michigan.
Dear Sir:—Your Appliance did all you claim for the little boy and more, for it cured him sound and well. We let him wear it for about a year in all, although it cured him 3 months after he had begun to wear it. We had tried several other remedies, and got no relief, and I shall certainly recommend it to friends, for we surely owe it to you.

Yours respectfully,
WM. PATTERSON,
No. 717 S. Main St., Akron, P.

Ten Reasons Why You Should Send For Brooks Rupture Appliance.

1. It is absolutely the only Appliance of the kind on the market today, and in it are embodied the principles that inventors have sought after for years.
2. The Appliance for retaining the rupture cannot be thrown out of position.
3. Being an air cushion of soft rubber it clings closely to the body, yet never irritates or causes irritation.
4. Unlike the ordinary so-called pads, used in other trusses, it is not cumbersome or ungrainly.
5. It is small, soft and pliable, and positively cannot be detected through the clothing.
6. The soft, pliable bands holding the Appliance do not give one the unpleasant sensation of wearing a harness.
7. There is nothing about it to get foul, and when it becomes soiled it can be washed without injuring it in the least.
8. There are no metal springs in the Appliance to torture one by cutting and brushing the flesh.
9. All of the materials of which the Appliance are made is of the very best that money can buy, making it a durable and safe Appliance to wear.
10. My reputation for honesty and fair dealing is so thoroughly established by an experience of over thirty years of dealing with the public, and my prices are so reasonable, my terms so fair, that there certainly should be no hesitancy in sending free coupon today.

Child Cured in Four Months.

21 Jansen St., Dubuque, Iowa.
Mr. Mr. C. E. Brooks, Marshall, Mich.
Dear Sir:—The baby's rupture is altogether cured, thanks to your Appliance, and we are so thankful to you. If we could only have known of it sooner, our little boy would not have had to suffer nearly as much as he did. He wore your brace a little over four months. Yours very truly,
ANDREW EGGENBERGER.

Remember

I send my Appliance on trial to prove what I say is true. You are to be the Judge. Fill out free coupon below and mail today.

FREE Information Coupon

Mr. C. E. BROOKS,
969-A State St., Marshall, Mich.

Please send me by mail plain wrapper your illustrated book and full information about your Appliance for the cure of rupture.
