Step Lively! Corns Quit with "Gets-It"

The Great Corn-Loosener of the Age. Never Fails. Painless.

Watch my step? Want's the use! go along "right side up without care,"

Corns Simply Can't Stop Us. We Use "Gets-It."

ore, until I was blue in the face and red in the toes. No more for me. Use "Gets-It." It never fails. Touch any corn or callus with two drops of "Gets-It," and "Gets-It" does the rest. It's a relief to be able to stop cutting corns, making them bleed, wrapping them up like packages and using sticky tape and salves. It removes any corn clear and clean, leaving the toe as smooth as your palm. You can wear those new shoes without pain, dance and be frisky on your feet. It's great to use "Gets-It."

"Gets-It" is sold at all druggists (you need pay no more than 25 cents a bottle), or sent on receipt of price by S. Lawrence & Co., Chicago, Ill.

ceived a petition from the citizens living along the coast in the vicinity of Heceta Head, to make a survey of the county road between Gwynn creek and Cape Heceta, where the water has washed it out in a number of places, with a view to repairing it. They also desire that bridges be built across Cummings creek, Rock creek and Ten Mile creek on that road. The people of Heceta precinct have also petitioned the county court to change the polling place from its present location in the southeastern corner of the precinct to the residence of A. W. Stonefield near the mouth of Big creek.

Three Injured in Collision— Mr. and Mrs. Walter Bailey and Mrs. Abbey, all of who reside on farms in the Pruneville district, out from Springfield, each received minor bruises and cuts and a Saxon car belonging to Mr. Bailey had the left side of the body jammed and a rear wheel smashed up, when an Oregon Electric train collided with the car at the intersection of Fifth and Blair streets about 2 o'clock Wednesday afternoon. The accident happened when Mr. Bailey turned out of his way to pass a vehicle. He saw the train bearing down upon him, but was unable to get out of the way. The fact that the Electric was not making better speed averted a more severe accident.

To Prepare for Men's Work— A number of classes especially adapted to prepare women to take up men's

work in industrial life have been arranged at the University of Oregon, and will begin with the new term, April 1. The new courses are offered in chemistry, accounting, mechanical drawing and mechanism of remedial exercises. The class in accounting will be a general foundation for secretarial work, business administration, banking and office work. The mechanical drawing course will be given to prepare students for other work in drafting to be given next year. Of special interest is the class in mechanism of remedial exercises. This class taken by juniors should enable them to complete preparation for reconstruction work in reconstruction hospitals during their senior year.

11 BRITISH SHIPS SUNK London, March 21.—British shipping losses in the week ending March 20, the admiralty announced today, included eleven vessels of more than 1000 tons, six under that tonnage and two fishing boats. In the previous week, the losses were 15 ships of more than 1000 tons and three under.

Inlet valves do not get nearly as hot as exhaust valves, and consequently do not expand as much. For this reason less clearance should be allowed between the stems and push rods than is allowed between the stems and push rods of exhaust valves.

APPEAL AGENTS ARE REQUESTED TO ACT

Adjutant-General Sends Out Circular Insisting That Many Cases Be Appealed.

The district appeal board in this city has received copies of a circular sent from the office of Adjutant-General John M. Williams, in which he urges that all appeal agents at once appeal all cases where deferred classification is asked because of the fact that the registrant has married since May 18, 1917. The text of

the circular follows: "It has come to the attention of this department that a few government appeal agents in this state have not as yet finished perfecting appeals to district boards in all of those classes of cases which the Provost Marshal General has ordered shall be appealed, notably, cases involving marriage since May 18, 1917. The attention of government appeal agents have perfected appeals in all cases where appeals have been ordered as rapidly as such cases have been finished by local boards. It is of the most urgent necessity that the odds and ends of the classification be cleaned up without further delay, and the special attention and response of all special agents

in immediately completing their part of the work is earnestly requested." She Was in Bed Two Months Women suffering backache, rheumatism, pains, sore muscles, stiff joints or any symptom of kidney trouble, should read this letter from Mrs. S. C. Small, Clayton, N. M.: "I had been under the doctor's care all summer, and in bed two months, but kept getting worse. In January I got so bad I told them something had to be done or I couldn't live. We noticed an advertisement for Foley's Kidney Pills and sent for some. They have done me more good than all other medicines." Sold everywhere.—Adv.
