

EVERY WOMAN WANTS TO BE PRETTY, HEALTHFUL AND SHAPELY.

Have you ever thought what an important bearing your corset has on these most desirable attributes?

When a young girl puts on her first corset her figure has a tendency to grow into the lines of her corset, whether the lines are good or bad.

Beauty is an asset not to be despised and yet very few women have it. In many cases it is the result of their own carelessness and thoughtlessness.

We make this suggestion: Try on

MODART CORSETS Front Laced

Making special note of how it feels and how it looks, compare it with any other corset you have ever worn and you will find that the good design, the clock spring boning, in fact the good materials which are used throughout will not only make it a comfortable, healthful corset but it will retain its lines until worn out.

It is well worth your while to try this trial fitting. It costs nothing and may produce a world of benefit.

Sheep-killing Dogs Are a Menace to Flocks

Washington, D. C., April 10.—To meet the menace of the sheep killing dog, which is recognized as one of the greatest hindrances to mutton and wool production in the United States, several methods are suggested in Farmers' Bulletin 935, "The Sheep-killing Dog," issued by the United States Department of Agriculture. Uniform

State dog laws are advocated as probably the best method, and a digest of existing State laws and the complete text of two satisfactory laws (those of Pennsylvania and West Virginia) are given in the bulletin. The use of dog-proof fences is suggested and the cooperation of owners of dogs is said to be important.

THE MONEY COMES BACK.

The cycle of money invested in Liberty Bonds is short and complete. The people lend the money to the government, the government lends some to our Allies, and our government and our Allies straightway spend the money, or the greater portion of it, among the people of the United States. In some instances the money paid in by wage earners on one installment of Liberty Bonds is paid by the government to their employers, and by their employers paid back to them in the way of wages before the next Bond installment is due.
