APPLE INDUSTRY OF NORTHWEST IS TO BE PLACED ON WAR BASE

Conference at Portland of Representatives from Three States Results in Naming of War Board.

Apple growers of the northwest, through representatives sent to Portland at the request of the governors of Oregon, Washington and Idaho, have decided to put the apple industry on a war basis to co-operate with the government in the winning of the war. The conference of the representatives, held Wednesday, resulted in the appointing of a war board, members of which are experts in production, transportation, distribution and military needs.

J. O. Holt, manager of the Eugene Fruit Growers' association, represented the Eugene district at the meeting.

The members of the board are E. H. Hinman, Walla Walla, Wash.; W. T. Clark, Wenatchee, Wash.; E. W. McCulloch, Hood River; Professor C. L. Lewis, Oregon Agricultural college, Corvallis; D. L. Ingard, Payette, Idaho.

Fruits are necessary for the health of the soldiers and sailors, it was pointed out at the conference; and the demand for apples from the men at the front has been tremendous. The northwest crop last year was some 31,000 carloads and the growers expect almost as large a yield this year, so that there will be 25,000,000 boxes of fruit, a large part of which is planned to send to the armies of the allies.

The food administration is urging the use of apples and potatoes as substitutes for other much needed foods, it was brought out, and an effort is to be made to use the entire crop this year. The best fruit will be used for shipment to the fighting forces, while the poorer grades will be used for home consumption.

U-Boats Operating in Relays Off American Coast is Belief

Washington, June 21.—Naval authorities believed today that the first U-boat raider had gone home and that perhaps another has taken its place. Today marked the close of a week without new torpedoing. But recent reports of incoming shippers have indicated that a U-boat may now be operating to the northward, off Jersey again.

HAS VISION OF PEACE; BREAKS SPEED LIMIT

James Umphreys, Jr., broke the speed limit today when he drove down Willamette street in a motor car, traveling at the rate of 40 miles an hour, in his haste to tell the people of Eugene that he had a vision in which it was revealed to him that the war would end in October and that the boys would all be home by Christmas.

Umphreys hit Willamette street while going at his terrific pace and evaded the fountain at the Southern Pacific depot before he was taken into custody by Deputy Sheriff Oren Davis. He was taken before Municipal Judge Bryson, to whom he explained the reason for his haste.

Judge Bryson decided that under the circumstances he would not impose a fine upon Umphreys for a violation of the city ordinance, but advised him to tell his message to Probate Judge Bown.

Umphreys stated that as soon as he could, following the vision, he told all the people in the neighborhood of his farm north of Eugene and that today he decided to bring his message to the people of Eugene.

An investigation of Umphreys' mental condition will be made. He is about 24 years of age and registered for the draft.

Umphreys Rides at Wild Pace to Tell People War Will End in October.

with the beauties of Key West, Va., where he is now stationed in the officers' training camp of the medical corps.

In a letter to W. R. Wallace, of this city, he says "that 'Carry Me Back to Old Virginia' stuff is all bunk."

"I never knew what a wonderful town Lane county had in Junction City until I landed here," Welch wrote.

He enlisted in the medical supply detachment in San Francisco last winter and has been at Newport News for several weeks.
